WAR DEPARTMENT,
WASHINGTON, *July 1, 1939.*

FM 22-5, Basic Field Manual, Infantry Drill Regulations, is published for the information and guidance of all concerned.

[A. G. 062.11 (9-13-38).]

BY ORDER OF THE SECRETARY OF WAR:

G. C. MARSHALL,
Acting Chief of Staff.

OFFICIAL:

E. S. ADAMS,
Major General,
The Adjutant General.

TABLE OF CONTENTS

	Paragraphs	Pages
Chapter 1. General.....	1-13	1-7
Chapter 2. The soldier without arms.		
Section I. General.....	14-15	7-8
II. Positions	16-20	8-11
III. Steps and marchings.....	21-32	11-14
Chapter 3. The soldier with arms.		
Section I. General.....	33-34	14-16
II. Manual of arms for the rifle	35-58	16-27
III. Loadings and firings.....	59-64	28-34
IV. Carrying the automatic rifle	65	34-35
V. Manual of the pistol.....	66-82	35-39
VI. Manual of the guidon.....	83-94	39-43
VII. Manual of the color and standard.....	95-103	43-47
VIII. Manual of the saber.....	104-113	47-54
Chapter 4. Drill for foot troops.		
Section I. The squad	114-130	55-65
II. The platoon.....	131-146	65-74
III. The company	147-158	74-82
Chapter 5. Drill for units with animal- drawn carts or pack animals.	159-161	82-84
Chapter 6. Drill for units with motor car- riers.		
Section I. General.....	162-164	84-85
II. The squad and section.....	165-169	86
III. The platoon	170-177	86-90
IV. The company	178-186	90-98
Chapter 7. Drill for motor and wagon units.		
Section I. General.....	187-188	98-99
II. The single vehicle.....	189-194	99-101
III. Drill for vehicles in single column or line.....	195-200	101-105
IV. Drill for vehicles in mass formation.....	201-205	105-109
V. Company drill	206-210	111-113

TABLE OF CONTENTS

	Paragraphs	Pages
Chapter 8. Formations of the battalion and regiment.		
Section I. General.....	211-213	113-115
II. The battalion.....	214-217	115-121
III. The regiment.....	218-225	121-126
Chapter 9. Ceremonies.		
Section I. Reviews and presentation of decorations.....	226-234	127-138
II. Escorts.....	235-236	138-140
III. Parades.....	237-238	140-141
IV. Inspections.....	239-242	141-145
V. Funerals.....	243-254	146-154
Chapter 10. Extended order.		
Section I. General.....	255-256	154-156
II. Rifle squad.....	257-263	156-163
III. Rifle platoon.....	264-278	163-167
IV. Company.....	279	167-169
V. Weapons squads, sections, and platoons.....	280-282	169-174
Chapter 11. Signals.		
Section I. General.....	283-284	175
II. Whistle signals.....	285-288	175-176
III. General arm-and-hand signals.....	289-306	176-179
IV. Additional arm - and - hand signals for weapons units.....	307-315	181-182
V. Arm-and-hand signals for motor vehicles.....	316-318	182-183
Appendix—Ceremonial parade (special).....		184-188
Index.....		189-195

BASIC FIELD MANUAL**INFANTRY DRILL REGULATIONS***Effective September 1, 1939*

(The matter contained herein supersedes TR 25-10, June 24, 1925 (including C1, February 15, 1926, C2, January 3, 1927, C3, January 2, 1929, and C4, January 2, 1930); TR 50-15, April 20, 1926 (including C1, January 3, 1927); TR 50-20, May 15, 1926 (including C1, January 3, 1928); Section II, TR 75-15, May 28, 1931; TR 420-20, April 2, 1928 (including C1, January 2, 1929, C2, January 2, 1930, C3, January 2, 1934, and C4, January 2, 1937); TR 420-40, January 31, 1931; TR 420-45, March 31, 1928; TR 420-50, March 31, 1925 (including C1, February 15, 1926, C2, January 3, 1927, C3, January 3, 1928, C4, January 2, 1929, and C5, January 2, 1934); Sections VIII, IX, and X, TR 420-55, March 31, 1925 (including part of C1, February 15, 1926, and C2, January 3, 1927); TR 420-60, June 2, 1923 (including C1, February 2, 1926, C2, January 3, 1927, and C3, January 3, 1928); TR 420-65, December 21, 1925 (including C1, January 3, 1927, and C2, January 2, 1928); TR 420-70, January 28, 1924 (including C1, January 3, 1928, and C2, January 2, 1929); Sections VI, VII, VIII, and IX, TR 420-75, June 15, 1926; TR 420-80, March 31, 1928 (including C1, January 2, 1929); TR 420-85, May 24, 1923 (including C1, January 15, 1928); and TR 420-90, June 6, 1923.)

CHAPTER 1**GENERAL**

■ 1. SCOPE.—*a.* The drill prescribed herein is designed for general use and may be adapted to any type of unit; therefore some of the explanation is of a general nature which gives sufficient latitude for adaptation to specific units. Interpretation should be based on these general provisions, and all should learn to use this manual as a guide to a common-sense solution of minor points which are not specifically covered in the text. Much discussion over trifles or failure to make appropriate adaptation indicates a failure to grasp the spirit of the regulations. Higher commanders should encourage subordinates to make minor adjustments without calling on higher authority for interpretation. Necessary adaptation should be simple and should not complicate the drill. Stress should be placed on precision in execution of the manual of arms and in marching in step with proper

alinement. Nothing inspires the military spirit more than to see or to be a part of a compact group moving in unison, confidently and to a measured cadence. Complicated procedure destroys this effect.

b. Basic strengths of units are governed by appropriate Tables of Organization. The diagrams of organizations shown in the figures herein are based specifically on approved Tables of Organization, war strength. They must be adapted to the actual war or peace strengths of the units concerned. They may be adapted to any type of unit, to changes in Tables of Organization, and to the maneuver space available.

■ 2. PURPOSES OF DRILL.—The purposes of drill are to—

a. Enable a commander to move his command from one place to another in an orderly manner and to provide simple formations from which dispositions for combat may readily be assumed.

b. Aid in disciplinary training by instilling habits of precision and response to the leader's orders.

c. Provide a means, through ceremonies, of enhancing the morale of troops, developing the spirit of cohesion, and giving interesting spectacles to the public.

d. Give junior officers and noncommissioned officers practice in commanding troops.

■ 3. DEFINITIONS.—a. *Alinement*.—A straight line upon which several elements are formed or are to be formed; or the dressing of several elements upon a straight line.

b. *Base*.—The element on which a movement is regulated.

c. *Center*.—The middle point or element of a command.

d. *Column*.—A formation in which the elements are placed one behind another.

e. *Depth*.—The space from head to rear of any formation or of a position, including the leading and rear elements. The depth of a man is assumed to be 12 inches.

f. *Distance*.—Space between elements in the direction of depth. Distance is measured, with respect to dismounted men, from the back of the man in front to the breast of the man in rear; mounted men and animals, from the croup of the animal in front to the head of the animal in rear; vehicles, from the rear part of the vehicle in front to the front part of the vehicle or head of animal hitched thereto

(as the case may be) in rear. Distance between troops in formation, whether of men, animals, or vehicles, is measured from the rear rank of the unit in front to the front rank of the unit in rear. Platoon commanders, guides, and others whose position in a formation is at 40 inches distance from a rank are themselves considered as a rank. Otherwise the commander of any unit and those accompanying him are not considered in measuring distance between units. The color and guard are not considered in measuring distance between subdivisions of a unit with which they are posted. The distance between ranks of dismounted men is 40 inches in both line and column. The distance between ranks of mounted men in close order is 45 inches (one and one-half paces).

g. Double time.—Cadence at the rate of 180 steps per minute.

h. Element.—A squad, section, platoon, company, or larger unit, forming a part of a still larger unit.

i. File.—A column of men one behind the other.

j. Flank.—The right or left of a command in line or in column, or the element on the right or left of the line.

k. Formation.—Arrangement of the elements of a command. The placing of all fractions in their order in line, in column, or for battle.

l. Front.—The space occupied by an element measured from one flank to the opposite flank. The front of a man is assumed to be 22 inches.

m. Guide.—An officer, noncommissioned officer, or private upon whom the command (or elements thereof) regulates its march.

n. Head.—The leading element of a column.

o. Interval.—Space between individuals or elements of the same line. Interval is measured, with respect to dismounted men, from the shoulder or elbow; mounted men from the knee; animals from the shoulder; vehicles from the hub of the wheel or the track. Between troops in formation, it is measured from the left flank of the unit on the right to the right flank of the unit on the left. The commander of any unit, or of any element thereof, and those accompanying him are not considered in measuring interval between units. The color and guard are not considered in measuring interval between subdivisions of a unit with which they are posted. The normal interval is one arm's length; the close in-

terval is 4 inches. The interval between mounted men is 6 inches.

p. Left.—The left extremity or element of a body of troops.

q. Line.—A formation in which the different elements are abreast of each other.

r. Mass formation.—The formation of a company or any larger unit in which the squads in column are abreast of one another.

s. Pace.—A step of 30 inches; the length of the full step in quick time.

t. Piece.—The rifle or the automatic rifle.

u. Quick time.—Cadence at the rate of 120 steps per minute.

v. Rank.—A line of men placed side by side.

w. Right.—The right extremity or element of a body of troops.

x. Step.—The distance measured from heel to heel between the feet of a man walking. The half step and back step are 15 inches. The right step and left step are 12 inches. The steps in quick and double time are 30 and 36 inches, respectively.

■ 4. PRECISION IN DRILL.—In order best to accomplish its mission, drill should be frequent and of short duration. Smartness and precision should be required in the execution of every detail.

■ 5. USE OF RIGHT AND LEFT.—The explanation of a movement in the text that may be executed toward either flank is generally given for execution toward but one flank. To adapt such a description to execution of the movement toward the opposite flank, it is necessary only to substitute the word "left" for "right" or "right" for "left" as the case requires.

■ 6. DOUBLE TIME.—*a.* Any movement not especially excepted may be executed in double time.

b. If a unit is at a halt or marching in quick time, and it is desired that a movement be executed in double time, the command DOUBLE TIME precedes the command of execution.

■ 7. TO REVOKE A COMMAND.—To revoke a command or to begin anew a movement improperly begun from a halt, the command AS YOU WERE, is given, at which the movement ceases and the former position is resumed.

■ 8. GENERAL RULES FOR THE GUIDE.—*a.* Unless otherwise announced, the guide of a platoon or subdivision of a company in column or line is right.

b. To march with the guide other than as prescribed above, or to change the guide, the command GUIDE RIGHT (LEFT, OR CENTER) is given. The leading man in each file is responsible for the interval. The guide is responsible for the direction and cadence of march.

c. The announcement of the guide, when made in connection with a movement, follows the command of execution for the movement.

d. In column of subdivisions, the guide of the leading subdivision is charged with the step and direction; the guides in the rear preserve the trace, step, and distance.

■ 9. PARTIAL CHANGES OF DIRECTION.—*a.* Partial changes of direction may be executed by interpolating in the preparatory command the word "half" as COLUMN HALF RIGHT (LEFT), so as to change direction 45°.

b. Slight changes in direction are effected by the command INCLINE TO THE RIGHT (LEFT). The guide or guiding element moves in the indicated direction and the remainder of the command conforms.

■ 10. NUMBERING OF UNITS.—Squads, sections, and platoons are numbered consecutively from right to left and from front to rear throughout the company and thereafter retain their permanent designation.

■ 11. POSTS OF OFFICERS, NONCOMMISSIONED OFFICERS, GUIDONS, AND SPECIAL UNITS.—*a.* The posts of officers, noncommissioned officers, guidons, and special units in the various formations of infantry units are shown in the figures or explained in the text.

b. When changes of formation involve changes of posts, the new post is taken by the most direct route, except where otherwise prescribed, as soon as practicable after the command of execution for the movement; officers and noncommissioned officers who have prescribed duties in connection with the movement ordered take their new posts when such duties are completed. In executing any movement or facing in alining units, or in moving from one post to another, officers and noncommissioned officers maintain a military bearing and move with precision.

c. When acting as instructors, officers and noncommissioned officers go wherever their presence is necessary. They rectify mistakes and insure steadiness and promptness in the ranks.

d. In subsequent movements after the initial formation, guidons and special units maintain their relative positions with respect to the flank or end of the command on which they were originally posted.

e. In all formations and movements, a noncommissioned officer commanding a section, platoon, or company carries his rifle as the men do, if he is so armed. He takes the same post as prescribed for an officer in command. When giving commands, making reports, or drilling a unit, his rifle is at the right shoulder, if he is so armed.

■ 12. COMMANDS.—a. Commands are employed in close-order drill at attention.

b. In this manual a command is the direction of the commander expressed orally and in prescribed phraseology.

c. Where it is not mentioned who gives the prescribed commands, they will be given by the commander of the unit.

d. There are two kinds of commands:

(1) The preparatory command, such as FORWARD, which indicates the movement that is to be executed.

(2) The command of execution, such as MARCH, HALT, or ARMS, which causes the execution.

e. Preparatory commands are distinguished in this manual by SMALL CAPITALS and those of execution by LARGE CAPITALS.

f. The preparatory command is given at such interval of time before the command of execution as to admit of proper understanding and to permit the giving of necessary commands by subordinate leaders; the command of execution is given at the instant the movement is to commence.

g. The tone of the command should be animated, distinct, and of a loudness proportioned to the number of men for whom it is intended. Indifference in giving commands must be avoided, as this leads to laxity in execution. Commands must be given with spirit.

h. When giving commands to troops, the commander faces them. When the section or platoon in close-order drill or in ceremonies is part of a larger unit, the leader

turns his head toward the unit to give commands but does not face about.

i. Officers and men fix their attention at the first word of command.

j. If all men in the unit are to execute the same movement simultaneously, the subordinate leaders do not repeat commands; otherwise they repeat the command or give the proper new command for the movement of their own unit.

k. If at a halt, the commands for movements involving marching, such as 1. COLUMN RIGHT, 2. MARCH, are not prefaced by the command FORWARD.

■ 13. INSTRUCTION BY THE NUMBERS.—All movements for the purpose of instruction may be divided into motions and executed in detail. The command of execution determines the prompt execution of the first motion. The other motions, depending on the number, are executed at the commands TWO, THREE, FOUR. To execute the movement in detail, the instructor first cautions, "By the numbers." All movements are then executed in detail, one motion for each count until he cautions, "Without the numbers."

CHAPTER 2

THE SOLDIER WITHOUT ARMS

	Paragraphs
SECTION I. General.....	14-15
II. Positions.....	16-20
III. Steps and marchings.....	21-32

SECTION I

GENERAL

■ 14. DUTIES OF INSTRUCTOR.—The instructor explains briefly each movement, first executing it himself. He requires the recruits to take the proper positions unassisted and touches them only for the purpose of correction when they are unable to correct themselves. He avoids keeping the recruits too long at any position or movement. Each position or movement should be understood before passing to another. The instructor exacts by degrees the desired precision and uniformity.

■ 15. GROUPING RECRUITS.—*a.* Recruits are separated into small groups consistent with the available number of trained

instructors in order to facilitate individual instruction. Each group is formed as a squad. (See par. 115.)

b. As instruction progresses, the recruits are grouped according to proficiency. Those who show a lack of aptitude and quickness are separated from the others and placed under the most experienced drill masters. Care should be taken that men who are naturally inapt are not ridiculed or treated harshly; an officer should carefully superintend the instruction of such men to insure that they are given firm, but quiet and considerate handling.

SECTION II

POSITIONS

■ 16. POSITION OF THE SOLDIER, OR OF ATTENTION.—*a.* Heels on the same line and as near each other as the conformation of the man permits.

b. Feet turned out equally and forming an angle of 45° .

c. Knees straight without stiffness.

d. Hips level and drawn back slightly; body erect and resting equally on hips, chest lifted and arched; shoulders square and falling equally.

FIGURE 1.—Position of the soldier, or of attention.

e. Arms hanging straight down without stiffness so that the thumbs are along the seams of the trousers; back of the hands out; fingers held naturally.

f. Head erect and squarely to the front; chin drawn in so that the axis of the head and neck is vertical; eyes straight to the front.

g. Weight of the body resting equally on the heels and the balls of the feet.

h. In assuming the position of the soldier, or of attention, the heels are brought together smartly and audibly.

■ 17. RESTS.—Being at a halt, the commands are: FALL OUT; REST; AT EASE; and 1. PARADE, 2. REST.

a. At the command FALL OUT, the men leave the ranks but are required to remain in the immediate vicinity. The men resume their former places at attention at the command FALL IN. On the march, men will fall in AT EASE unless they were at attention when the command FALL OUT was given.

b. At the command REST, one foot is kept in place. Silence and immobility are not required.

c. At the command AT EASE, the right foot is kept in place. Silence but not immobility is required.

d. At the command of execution, REST, of 1. PARADE, 2. REST, move the left foot smartly 12 inches to the left of the right foot keeping the legs straight so that the weight of the body rests equally on both feet. At the same time, clasp the hands behind the back, palms to the rear, thumb and fingers of the right hand clasping the left thumb without constraint; preserve silence and immobility.

e. Being at any of the rests except FALL OUT, to resume the position of attention, the commands are: 1. SQUAD, 2. ATTENTION. At the command ATTENTION take the position of the soldier as prescribed in paragraph 16.

■ 18. EYES RIGHT OR LEFT.—The commands are: 1. EYES, 2. RIGHT (LEFT), 3. READY, 4. FRONT. At the command RIGHT, each man turns his head and eyes to the right. At the command FRONT, the head and eyes are turned to the front.

■ 19. FACINGS.—All facings are executed from the halt and in the cadence of quick time.

a. *To the flank.*—(1) The commands are: 1. RIGHT (LEFT), 2. FACE. At the command FACE, slightly raise the left heel

and the right toe; face to the right, turning on the right heel, assisted by a slight pressure on the ball of the left foot. Hold the left leg straight without stiffness. (TWO) Place the left foot beside the right.

(2) Execute **LEFT FACE** on the left heel in a corresponding manner.

b. To the rear.—The commands are: 1. **ABOUT**, 2. **FACE**. At the command **FACE**, carry the toe of the right foot a half-foot length to the rear and slightly to the left of the left heel without changing the position of the left foot; weight of the body mainly on the heel of the left foot; right leg straight without stiffness. (TWO) Face to the rear, turning to the right on the left heel and on the ball of the right foot; place the right heel beside the left.

■ 20. **SALUTE WITH THE HAND.**—*a.* The commands are: 1. **HAND**, 2. **SALUTE**. At the command **SALUTE**, raise the right hand smartly until the tip of the forefinger touches the lower part of the headdress or forehead above and slightly to the right of the right eye, thumb and fingers extended and joined, palm to the left, upper arm horizontal, forearm inclined at 45°, hand and wrist straight; at the same time turn the head and eyes toward the person saluted. (TWO) Drop the arm

FIGURE 2.—Hand salute.

to its normal position by the side in one motion, at the same time turning the head and eyes to the front.

b. Execute the first position of the hand salute when six paces from the person saluted, or at the nearest point of approach, if more than six paces. Hold the first position until the person saluted has passed or the salute is returned. Then execute the second movement of the hand salute.

SECTION III

STEPS AND MARCHINGS

■ 21. GENERAL.—a. All steps and marchings executed from the halt, except right step, begin with the left foot.

b. The instructor indicates the proper cadence when necessary by calling "One," "Two," "Three," "Four," as the left and right foot respectively strike the ground.

■ 22. QUICK TIME.—Being at a halt, to march forward in quick time, the commands are: 1. FORWARD, 2. MARCH. At the command FORWARD, shift the weight of the body to the right leg without perceptible movement. At the command MARCH, step off smartly with the left foot and continue the march with 30-inch steps taken straight forward without stiffness or exaggeration of movements. Swing the arms easily in their natural arcs, 6 inches to the front and 3 inches to the rear of the body.

■ 23. DOUBLE TIME.—a. Being at a halt or in march in quick time, to march in double time the commands are: 1. DOUBLE TIME, 2. MARCH.

(1) If at a halt, at the command DOUBLE TIME, shift the weight of the body to the right leg without perceptible movement. At the command MARCH, raise the forearms, fingers closed, knuckles out, to a horizontal position along the waist-line, take up an easy run with the step and cadence of double time, allowing a natural swinging motion to the arms.

(2) If marching in quick time, at the command MARCH, given as either foot strikes the ground, take one more step in quick time and then step off in double time.

b. To resume the quick time from double time the commands are: 1. QUICK TIME, 2. MARCH. At the command MARCH, given as either foot strikes the ground, advance and plant the other foot in double time; resume the quick time, dropping the hands by the sides.

■ 24. To HALT.—*a.* To halt when marching in quick time, the commands are: 1. SQUAD, 2. HALT. At the command HALT, given as either foot strikes the ground, execute the halt in two counts by advancing and planting the other foot and then bringing up the foot in rear.

b. To halt when marching in double time, the commands are: 1. SQUAD, 2. HALT. At the command HALT, given as either foot strikes the ground, advance and plant the other foot as in double time, then halt in two counts as in quick time.

c. To halt from side step the commands are: 1. SQUAD, 2. HALT. At the command HALT, given as the heels are together, plant the foot next in cadence and come to the halt when the heels are next brought together.

■ 25. To MARK TIME.—The commands are: 1. MARK TIME, 2. MARCH.

a. Being in march, at the command MARCH, given as either foot strikes the ground, advance and plant the other foot; bring up the foot in rear, placing it so that both heels are on line and continue the cadence by alternately raising and planting each foot. The feet are raised 2 inches from the ground.

b. Being at a halt, at the command MARCH, raise and plant first the left foot, then the right as prescribed above.

c. Mark time may be executed in either quick time or double time.

d. The halt is executed from mark time as from quick time or double time by taking 2-inch vertical in place of 30-inch horizontal steps.

■ 26. HALF STEP.—*a.* The commands are: 1. HALF STEP, 2. MARCH. At the command MARCH, take steps of 15 inches in quick time and 18 inches in double time in the same manner as prescribed in paragraphs 22 and 23.

b. FORWARD, HALF STEP, HALT, and MARK TIME may be executed one from the other in quick or double time.

c. To resume the full step from half step or mark time the commands are: 1. FORWARD, 2. MARCH.

■ 27. SIDE STEP.—*a.* Being at a halt or marking time the commands are: 1. RIGHT (LEFT) STEP, 2. MARCH. At the command MARCH, carry the right foot 12 inches to the right; place

the left foot beside the right, left knee straight. Continue in the cadence of quick time.

b. The side step is used for short distances only and is not executed in double time.

■ 28. BACK STEP.—*a.* Being at a halt or marking time the commands are: 1. BACKWARD, 2. MARCH. At the command MARCH, take steps of 15 inches straight to the rear.

b. The back step is used for short distances only and is not executed in double time.

■ 29. TO FACE IN MARCHING.—The facings in marching are an important part of movements such as, COLUMN RIGHT, CLOSE, TAKE INTERVAL, EXTEND, etc.

a. To face to the right in marching and advance from a halt, at the command of execution of the movement, turn to the right on the ball of the right foot and at the same time step off in the new direction with the left foot with a half step, full step, or in double time, as the case may be.

b. To face to the right in marching and advance, being in march, at the command of execution, given as the right foot strikes the ground, advance and plant the left foot, then face to the right in marching and step off in the new direction with the right foot with a half step, full step, or in double time as the case may be.

c. To face to the rear in marching, being in march, the commands are: 1. TO THE REAR, 2. MARCH. At the command MARCH, given as the right foot strikes the ground, advance and plant the left foot; turn to the right about on the balls of both feet and immediately step off with the left foot.

■ 30. TO MARCH BY THE FLANK.—Being in march, the commands are: 1. BY THE RIGHT (LEFT) FLANK, 2. MARCH. At the command MARCH, given as the right foot strikes the ground, advance and plant the left foot, then face to the right in marching and step off in the new direction with the right foot.

■ 31. TO CHANGE STEP.—The commands are: 1. CHANGE STEP, 2. MARCH.

a. Being in march in quick time, at the command MARCH, given as the right foot strikes the ground, advance and plant the left foot; plant the toe of the right foot near the heel of the left and step off with the left foot.

b. Execute the change on the right foot similarly, the command MARCH being given as the left foot strikes the ground.

■ 32. TO MARCH OTHER THAN AT ATTENTION.—The commands are: 1. ROUTE STEP, 2. MARCH; or 1. AT EASE, 2. MARCH.

a. 1. ROUTE STEP, 2. MARCH. At the command MARCH, men are not required to march at attention, in cadence, or to maintain silence.

b. 1. AT EASE, 2. MARCH. At the command MARCH, men are not required to march at attention or in cadence but they will maintain silence.

CHAPTER 3

THE SOLDIER WITH ARMS

	Paragraphs
SECTION I. General	33-34
II. Manual of arms for the rifle.....	35-58
III. Loadings and firings.....	59-64
IV. Carrying the automatic rifle.....	65
V. Manual of the pistol.....	66-82
VI. Manual of the guidon	83-94
VII. Manual of the color and standard.....	95-103
VIII. Manual of the saber.....	104-113

SECTION I

GENERAL

■ 33. INSTRUCTION OF RECRUIT.—As soon as practicable, the recruit is taught the use, care, and nomenclature of the rifle. When fair progress has been made in instruction without arms, he is taught the manual of arms. Instruction without arms and with arms should alternate.

■ 34. RULES GOVERNING CARRYING OF RIFLES.—Except where otherwise indicated, these rules will be applicable alike to the U. S. rifle, caliber .30, M1903, and to the U. S. rifle, caliber .30, M1.

a. (1) The U. S. rifle, caliber .30, M1903, is not carried with cartridges in either the chamber or the magazine except when specifically ordered. When so loaded or when supposed to be loaded, it is habitually carried locked; that is, with the safety lock turned to the "safe". At all other times it is carried unlocked with the trigger pulled. The cut-off is kept turned off except when cartridges are actually used.

(2) Whenever troops equipped with the U. S. rifle, caliber .30, M1903, are formed under arms, pieces are immediately inspected at the commands: 1. **INSPECTION**, 2. **ARMS**. A similar inspection is made before dismissal. If cartridges are found in the chamber or magazine they are removed and placed in the belt.

b. (1) The U. S. rifle, caliber .30, M1, is not carried with cartridges in either the chamber or the receiver except when specifically ordered. When so loaded or when supposed to be loaded, it is habitually carried locked; that is, with the safety in its rearmost position, inside the trigger guard.

(2) Whenever troops equipped with the U. S. rifle, caliber .30, M1, are formed under arms, pieces are immediately inspected at the commands: 1. **INSPECTION**, 2. **ARMS**, 3. **LOCK PIECES**. At the command **LOCK PIECES**, each man in ranks closes the bolt, sets the safety of his piece in its rearmost position, and resumes **PORT ARMS**. Rifles are again inspected at dismissal by the commands: 1. **INSPECTION**, 2. **ARMS**, 3. **UNLOCK PIECES**. At the command **UNLOCK PIECES**, each man in ranks closes the bolt, sets the safety of his piece in its foremost position, pulls the trigger, and resumes **PORT ARMS**. If cartridges are found in the chamber or receiver, they are removed and placed in the belt. The procedure prescribed for these inspections is intended first, to insure that U. S. rifles, caliber .30, M1, in the hands of troops are carried cocked and locked; second, to insure that hammers are released on unloaded pieces not in use to prevent damage from long continued compression of the hammer springs.

c. The bayonet is fixed only when so ordered.

d. **FALL IN** is executed with the rifle at the **ORDER ARMS**.

e. (1) Before starting any movement for troops armed with rifles, the commands, 1. **RIGHT SHOULDER**, 2. **ARMS**, are given *before* the command for movement.

(2) Movements may be executed **AT THE TRAIL** by prefacing the preparatory command with the words "at trail," as 1. **AT TRAIL, FORWARD**, 2. **MARCH**. The trail is taken at the command **MARCH**.

(3) Weapons such as the automatic rifle, light machine gun, light mortar, etc., which have no manual of arms are slung from the right shoulder at the command of execution, **ARMS**, of 1. **RIGHT SHOULDER**, 2. **ARMS**. They are kept slung

until the command REST or AT EASE. In long halts at attention, the men carrying such equipment may be directed to "unsling arms."

f. When the facings, alinements, open and close ranks, side step, back step, forming for shelter tents, extending and closing are executed from the order, the weapon is brought to the trail while in motion and the order resumed on halting. The position of TRAIL ARMS is taken at the command of execution in each case.

g. At the command HALT, men armed with the rifle remain at the position of right (left) shoulder arms until the command: 1. ORDER, 2. ARMS, is given.

h. In double time under arms, a disengaged hand is held as when without arms.

SECTION II

MANUAL OF ARMS FOR THE RIFLE

■ 35. RULES GOVERNING EXECUTION OF THE MANUAL OF ARMS.—Except where otherwise indicated, these rules will be applicable alike to the U. S. rifle, caliber .30, M1903, and to the U. S. rifle, caliber .30, M1.

a. In all positions of the left hand at the balance, the thumb clasps the rifle; the sling is included in the grasp of the hand (fig. 3). In describing the manual of arms, the term "at the balance" refers to points on rifles as follows:

(1) *U. S. rifle, caliber .30, M1903.*—The center of the rear sight leaf.

(2) *U. S. rifle, caliber .30, M1.*—A point just forward of the trigger housing.

b. In all positions of the rifle, diagonally across the body, the barrel is up, butt in front of the right hip, barrel crossing opposite the junction of the neck with the left shoulder. The rifle is grasped at the balance with the left hand, palm toward the body, wrist straight.

c. The cadence of the motions is that of quick time. Recruits are first required to give their whole attention to the details of the motions, the cadence being gradually acquired as they become accustomed to handling their rifles. The instructor may require them to count aloud in cadence with the motions.

d. (1) The manual is not executed in marching except to pass from right shoulder to left shoulder or port arms and

the reverse in marching at attention. These movements may be used to add interest to the drill or to prevent fatigue in long marches at attention.

FIGURE 3.—Left hand at the balance.

(2) The manual is taught at a halt and the movements may, for the purpose of instruction, be divided into motions and executed in detail. In this case, the command of execution determines the prompt execution of the first motion, and the commands TWO, THREE, FOUR, that of the other motions.

(3) To execute the movement in detail, the instructor first cautions, "By the numbers." All movements divided into motions are then executed as above explained until he cautions, "Without the numbers."

e. (1) Any appropriate position of the manual of arms may be ordered from a previous position by giving the suitable commands.

(2) Under exceptional conditions of weather and fatigue, the rifle may be carried as directed.

■ 36. POSITION OF ORDER ARMS.—The butt of the rifle rests on the ground, barrel to the rear, toe of the butt on line with the toe of, and touching the right shoe, right hand holding

FIGURE 4.—Position of ORDER ARMS.

FIGURE 5.—Position of TRAIL ARMS.

the rifle between the thumb and fingers, left hand as in position of the soldier without arms.

■ 37. BEING AT ORDER ARMS.—1. TRAIL, 2. ARMS. At the command ARMS, raise the rifle and incline the muzzle forward so that the barrel makes an angle of about 15° with the vertical, the right arm slightly bent.

■ 38. BEING AT TRAIL ARMS.—1. ORDER, 2. ARMS. At the command ARMS, lower the rifle with the right hand and resume the order.

■ 39. BEING AT ORDER ARMS TO SLING ARMS, AND BEING AT SLING ARMS TO UNSLING ARMS.—*a.* SLING ARMS. This movement is not executed in cadence and applies to any rifle, automatic rifle, light machine gun, light mortar, etc. Loosen the sling, if not already loosened, and in the most convenient manner assume the position shown in figure 6. This position is authorized for long parades, long reviews, and for occasions when the prolonged holding of the rifle becomes a hardship on the troops. When used in ceremonies the bayonet may be fixed.

b. 1. UNSLING, 2. ARMS, 3. ADJUST, 4. SLINGS. At the command ARMS, pieces are unslung. At the command SLINGS,

FIGURE 6.—Position of SLING ARMS

FIGURE 7.—Position of PORT ARMS.

slings are adjusted to the drill position. This adjustment of the sling will be made before precise movements of the manual are to be executed.

■ 40. BEING AT ORDER ARMS.—1. PORT, 2. ARMS. At the command ARMS, raise the rifle with the right hand and carry it diagonally across the front of the body until the right hand is in front of and slightly to the left of the chin (fig. 7①), so that the barrel is up, butt in front of the right hip, barrel crossing opposite the junction of the neck with the left shoulder. At the same time, grasp the rifle at the balance with the left hand, palm toward the body, wrist straight. (TWO) Carry the right hand to the small of the stock, grasping it, palm down, holding right forearm horizontal (fig. 7②).

■ 41. BEING AT ORDER ARMS.—1. PRESENT, 2. ARMS. At the command ARMS, with the right hand carry the rifle in front of the center of the body, barrel to the rear and vertical, grasp it with the left hand at the balance, forearm horizontal and resting against the body. (TWO) Grasp the small of the stock with the right hand.

FIGURE 8.—Execution of PRESENT ARMS.

FIGURE 9.—Next to last position of ORDER ARMS.

■ 42. BEING AT PRESENT OR PORT ARMS.—1. ORDER, 2. ARMS. At the command ARMS, let go of the rifle with the right hand and regrasp the piece between the upper sling swivel and

stacking swivel. (TWO) Let go of the rifle with the left hand, lower the piece to the right so that the butt is 3 inches from the ground, barrel to the rear, left hand with the fingers extended and joined steadying the rifle, forearm and wrist straight and inclining downward. (THREE) Complete the order by lowering the rifle gently to the ground with the right hand. Cut away the left hand smartly to the side. Allowing the rifle to drop to the ground forcibly injures the rifle and is prohibited.

■ 43. BEING AT ORDER ARMS.—*a. U. S. rifle, caliber .30, M1903.*—1. INSPECTION, 2. ARMS. At the command ARMS, take the position of PORT ARMS. Seize the bolt handle with the thumb and forefinger of the right hand, turn the handle up, draw the bolt back, lower the head and eyes sufficiently to glance into the magazine. Having found the magazine empty, or having emptied it, raise the head and eyes to the front.

b. U. S. rifle, caliber .30, M1.—1. INSPECTION, 2. ARMS. At the command ARMS, take the position of PORT ARMS. With the fingers of the left hand closed, place the left thumb on the operating rod handle and push it smartly to the rear until it is caught by the operating rod catch; at the same time lower the head and eyes sufficiently to glance into the receiver. Having found the receiver empty, or having emptied it, raise the head and eyes to the front, at the same time regrasp the piece with the left hand at the balance.

■ 44. BEING AT INSPECTION ARMS.—*a. U. S. rifle, caliber .30, M1903.*—1. ORDER (RIGHT SHOULDER, PORT), 2. ARMS. At the preparatory command, push the bolt forward, turn the handle down, pull the trigger, and resume PORT ARMS. At the command ARMS, complete the movement ordered.

b. U. S. rifle, caliber .30, M1.—1. LOCK PIECES, 2. ORDER (RIGHT SHOULDER), 3. ARMS, or 1. UNLOCK PIECES, 2. DISMISSED. At the command LOCK (or UNLOCK) PIECES, place the right side of the right hand against the operating rod handle with the fingers extended and joined and the thumb on the follower. (TWO) Force the operating rod handle slightly to the rear, depress the follower with the right thumb, and permit the bolt to ride forward about 1 inch over the follower. (THREE) Remove the thumb from the follower and release the operating rod handle. (FOUR) Lock the

piece, or unlock the piece and pull the trigger as the case may be (par. 34 b (2)) and resume the position of PORT ARMS. After the pieces have been locked or unlocked, as prescribed above, ORDER OR RIGHT SHOULDER ARMS is given or the unit is dismissed.

■ 45. BEING AT ORDER ARMS.—1. RIGHT SHOULDER, 2. ARMS. At the command ARMS, raise and carry the rifle diagonally across the body with the right hand as shown in figure 10, at the same time grasp it at the balance with the left hand. (TWO) Regrasp it with the right hand on the butt, the heel between the first two fingers, thumb and fingers closed on the stock. (THREE) Without changing the grasp of the right hand, place the rifle on the right shoulder, barrel up and inclined at an angle of about 45° from the horizontal, trigger guard in the hollow of the shoulder, right elbow against the side, forearm horizontal, the rifle in a vertical plane perpendicular to the front; carry the left hand, thumb and fingers extended and joined, to the small of the stock, first joint of the forefinger touching the cocking piece (or, for the M1 rifle, touching the rear end of the receiver),

FIGURE 10.—Execution of RIGHT SHOULDER ARMS.

wrist straight, and elbow down. (FOUR) Cut away the left hand smartly to the side.

■ 46. BEING AT RIGHT SHOULDER ARMS.—1. PORT, 2. ARMS. At the command ARMS, press the butt down quickly and throw the rifle diagonally across the body, at the same time turning it to the left so as to bring the barrel up, the right hand retaining its grasp on the butt, the left grasping the rifle at the balance. (TWO) Change the right hand to the small of the stock.

■ 47. BEING AT RIGHT SHOULDER ARMS.—1. ORDER, 2. ARMS. At the command ARMS, press the butt down quickly and throw the rifle diagonally across the body, the right hand retaining the grasp on the butt, the left hand grasping the rifle at the balance. Then execute ORDER ARMS as described in paragraph 42.

■ 48. BEING AT PORT ARMS.—1. RIGHT SHOULDER, 2. ARMS. At the command ARMS, change the right hand to the butt as described in paragraph 45. (TWO), (THREE) Execute the last two movements as in RIGHT SHOULDER ARMS from ORDER ARMS.

■ 49. BEING AT ORDER ARMS.—1. PARADE, 2. REST. At the command REST, move the left foot smartly 12 inches to the left of the right foot, keeping the legs straight, so that the weight of the body rests equally on both feet. At the same time incline the muzzle of the rifle to the front, the right arm extended, right hand grasping the rifle just below the upper band. Hold the left hand behind the body, resting in the small of the back, palm to the rear.

■ 50. BEING AT PARADE REST.—1. SQUAD, 2. ATTENTION. At the command ATTENTION, resume the position of ORDER ARMS.

■ 51. BEING AT RIGHT SHOULDER ARMS.—1. LEFT SHOULDER, 2. ARMS. At the command ARMS, execute PORT ARMS in two counts as described in paragraph 46. (THREE) Let go of the rifle with the left hand and with the right hand still grasping the small of the stock place it on the left shoulder, barrel up, trigger guard in the hollow of the shoulder; at the same time grasp the butt with the left hand, heel between the first and second fingers, thumb and fingers closed on the stock, left forearm horizontal, left elbow against the

FIGURE 11.—Position of PARADE REST.

side, the rifle in a vertical plane perpendicular to the front. (FOUR) Drop the right hand quickly to the right side.

■ 52. BEING AT LEFT SHOULDER ARMS.—*a.* 1. PORT, 2. ARMS. At the command ARMS, grasp the rifle with the right hand at the small of the stock. (TWO) Let go with the left hand and at the same time carry the piece with the right hand to the position of PORT ARMS and then regrasp it with the left.

b. LEFT SHOULDER ARMS may be ordered directly from the ORDER, RIGHT SHOULDER, or PRESENT. At the command ARMS, execute PORT ARMS and continue in cadence to the position ordered.

■ 53. BEING AT LEFT SHOULDER ARMS.—1. RIGHT SHOULDER, 2. ARMS. At the command ARMS, execute PORT ARMS as described in paragraph 52, and then RIGHT SHOULDER ARMS as described in paragraph 48.

■ 54. BEING AT LEFT SHOULDER ARMS.—1. ORDER, 2. ARMS. At the command ARMS, execute PORT ARMS as described in paragraph 52 and complete the movement of ORDER ARMS as described in paragraph 42.

■ 55. BEING AT ORDER OR TRAIL ARMS.—1. RIFLE, 2. SALUTE. At the command SALUTE, carry the left hand smartly to the right side, palm of the hand down, thumb and fingers extended and joined, forearm and wrist straight, first joint of forefinger between the stacking swivel and the muzzle as the conformation of the man permits, and look toward the person saluted. (TWO) Cut away the left hand smartly to the side; turn the head and eyes to the front.

FIGURE 12.—Rifle salute at RIGHT SHOULDER ARMS and at ORDER ARMS.

■ 56. BEING AT RIGHT SHOULDER ARMS.—1. RIFLE, 2. SALUTE. At the command SALUTE, carry the left hand smartly to small of the stock, forearm horizontal, palm of the hand down, thumb and fingers extended and joined, first joint of the forefinger touching end of cocking piece (or, for the M1 rifle, touching the rear end of the receiver); look toward the person saluted. (TWO) Cut away the left hand smartly to the side; turn the head and eyes to the front.

■ 57. BEING AT ORDER ARMS.—1. FIX, 2. BAYONETS. At the command BAYONETS—

a. If the bayonet scabbard is carried on the belt, move the muzzle of the rifle to the left front and grasp the rifle

below the stacking swivel with the left hand; grasp the bayonet with the right hand, back of the hand toward the body; pressing the spring with the forefinger, draw the bayonet from the scabbard and fix it on the barrel, glancing at the muzzle; resume the order.

b. If the bayonet is carried on the haversack, draw and fix the bayonet in the most convenient manner.

c. These movements are not executed in cadence.

FIGURE 13.—To fix bayonets.

■ 58. BEING AT ORDER ARMS.—1. UNFIX, 2. BAYONETS. At the command BAYONETS—

a. If the bayonet scabbard is carried on the belt, take the position for fixing bayonets; grasp the handle of the bayonet with the right hand, pressing the spring, raise the bayonet until the handle is about 12 inches above the muzzle of the rifle; drop the point to the left, back of the hand toward the body and, glancing at the scabbard, return the bayonet, the blade passing between the left arm and the body; re-grasp the rifle with the right hand and resume the order.

b. If the bayonet scabbard is carried on the haversack, take the bayonet from the rifle as described above and return it to the scabbard in the most convenient manner.

c. These movements are not executed in cadence.

SECTION III

LOADINGS AND FIRINGS

■ 59. GENERAL RULES.—Except where otherwise indicated, these rules will be applicable alike to the U. S. rifle, caliber .30, M1903, and the U. S. rifle, caliber .30, M1.

a. For ceremonial firing, the front rank only of units larger than a squad executes the loading and firing. A squad is always formed in line preliminary to such firing.

b. Rifles, caliber .30, M1903, are loaded and locked before any orders for firing are given. Rifles, caliber .30, M1, are loaded while locked. (See par. 34b (2).)

c. Except during firing, if rifles have been ordered loaded and locked, they are kept loaded and locked without command until the command UNLOAD, or 1. INSPECTION, 2. ARMS. During firing, fresh clips will be inserted when the magazine or clip is exhausted.

d. Except when used as a single loader, the U. S. rifle, caliber .30, M1, is habitually loaded by placing a full clip of eight cartridges in the receiver.

■ 60. To LOAD.—a. The unit being in any formation, standing at a halt, the commands are: 1. WITH BALL (BLANK, DUMMY, GUARD) CARTRIDGES, 2. LOAD.

(1) *U. S. rifle, caliber .30, M1903.*—At the command LOAD, each front rank rifleman faces half right and carries the right foot 12 inches to the right and to such position as will insure the greatest firmness and steadiness of the body; raises or lowers the rifle and drops it into the left hand at the balance, left thumb extending along the stock, muzzle pointed into the air at an angle of 45°, and turns the cut-off up. With the right hand he turns up the bolt and draws it back; takes a loaded clip and inserts the end in the clip slots; places his thumb on the powder space of the top cartridge, the fingers extending around the rifle and tips resting on the magazine floor plate; forces the cartridges into the magazine by pressing down with the thumb; removes the clip; thrusts the bolt home, turning down the handle; turns the safety lock to the "safe" and carries the hand to the small of the stock. Automatic riflemen do not execute the ceremonial loadings or firings.

(2) *U. S. rifle, caliber .30, M1.*—At the command LOAD, each front rank rifleman faces half right and carries his

right foot 12 inches to the right and to such position as will secure the greatest firmness and steadiness of the body, raises or lowers the rifle and drops it into the left hand at the balance, right hand at the small of the stock, muzzle in the air at an angle of 45°. With the forefinger of the right hand, he pulls the operating rod handle smartly to the rear until the operating rod is caught by the operating rod catch. With his right hand he takes a fully loaded clip and places it on top of the follower. He places the right side of his right hand against the operating rod handle and with his thumb presses the clip down into the receiver until it engages the clip latch. He swings his thumb to the right so as to clear the bolt in its forward movement. He releases the operating rod handle. He then pushes forward on the operating rod handle with the heel of his right hand to make certain of complete closing of the bolt and carries his right hand to the small of the stock. Automatic riflemen do not execute the ceremonial loadings and firings.

b. For instruction in loading, the commands are: 1. SIMULATE, 2. LOAD.

(1) *U. S. rifle, caliber .30, M1903.*—At the command LOAD, execute loading as described in *a* (1) above, except that the cut-off remains “off” and the handling of the cartridge is simulated.

(2) *U. S. rifle, caliber .30, M1.*—At the command LOAD, execute loading as described in *a* (2) above except that the handling of cartridges is simulated.

c. (1) The U. S. rifle, caliber .30, M1903, may be used as a single loader by turning the cut-off to “off”. At the command LOAD, the magazine may be filled in whole or in part by pressing cartridges singly down and back until they are in the proper place. The use of the rifle as a single loader is, however, to be regarded as exceptional.

(2) To use the U. S. rifle, caliber .30, M1, as a single loader, at the command LOAD, take the position of LOAD and open the bolt. With the right hand, place one round in the chamber, seating it in place with the thumb. With the side of the right hand against the operating rod handle and the fingers extended and joined, force the operating rod handle slightly to the rear, depress the follower with the right thumb, and permit the bolt to ride forward about 1 inch over the follower. Then remove the thumb from the follower, release

① To execute position of load.

② To execute position of FIRE.
FIGURE 14.—The platoon in ceremonial firing.

the operating rod handle and push forward on the operating rod handle with the heel of the hand to be certain that the bolt is completely closed. Carry the right hand to the small of the stock.

■ 61. TO UNLOAD.—Being in any formation, the command is: UNLOAD.

a. *U. S. rifle, caliber .30, M1903.*—At the command UNLOAD, take the position of LOAD, turn the safety lock up, and move the bolt alternately backward and forward until all the cartridges are ejected. After the last cartridge is ejected, the chamber is closed by first thrusting the bolt forward slightly to free it from the stud holding it in place when the chamber is opened, pressing the follower down and back to engage it under the bolt, and then thrusting the bolt home. The trigger is then pulled, the cartridges are picked up, cleaned, and returned to the belt, and the rifle is brought to the order.

b. *U. S. rifle, caliber .30, M1.*—At the command UNLOAD, take the position of LOAD. Hook the right thumb over the operating rod handle, pull and hold the operating rod in the extreme rear position. Hold the rifle with the right hand, thumb on operating rod handle, fingers around trigger guard. Steady the rifle by pressing the stock against the right hip. Place the left hand over the receiver and release the clip latch with the left thumb. Catch the ejected clip in the left hand, return the clip to the belt, return the left hand to the balance. Place the right side of the right hand against the operating rod handle and force the operating rod slightly to the rear. Depress the follower with the right thumb and permit the bolt to ride forward about 1 inch over the follower. Remove the thumb from the follower and release the operating rod handle. Bring the rifle to the order.

■ 62. TO FIRE THE RIFLE.—a. *U. S. rifle, caliber .30, M1903, fully loaded with ball (blank or guard) ammunition.*—Squeeze the trigger for each shot. After each shot draw back and thrust home the bolt with the right hand, leaving the safety lock turned up to the "ready."

b. *U. S. rifle, caliber .30, M1.*—(1) *Fully loaded with clips of ball ammunition.*—Squeeze the trigger for each shot. When the eighth shot has been fired, the clip will be ejected automatically and the bolt will remain open for the insertion of a new clip.

(2) *Fully loaded with clips of blank or guard ammunition.*—Squeeze the trigger for each shot. After each shot, pull the operating rod handle to the rear with the right forefinger and release it. Push forward on the operating rod handle with the heel of the right hand to insure that the bolt is fully closed.

■ 63. TO FIRE BY VOLLEY.—*a.* Being in firing formation with rifles loaded, the commands are: 1. FRONT RANK, 2. READY, 3. AIM, 4. SQUAD, 5. FIRE. (For ceremonial purposes, blank ammunition is used and only the front rank executes the commands.)

(1) *U. S. rifle, caliber .30, M1903.*—At the command READY, take the position of LOAD, if not already in that position, and turn the safety lock to the "ready". At the command AIM, raise the rifle with both hands, butt placed and held firmly against the shoulder, left hand well under the rifle grasping it at or in front of the balance, rifle resting in the palm of the left hand, right elbow at the height of the shoulder, right cheek held firmly against the stock as far forward as it can be placed without straining. The rifle is raised 45° from the horizontal or, if ordered, at the horizontal. The left eye is closed, right eye looking through the notch of the rear sight. At the command FIRE, the trigger is squeezed rapidly; the rifle is then lowered to the position of LOAD and loaded.

(2) *U. S. rifle, caliber .30, M1.*—At the command READY, take the position of LOAD, if not already in that position. At the command AIM, raise the rifle with both hands, butt placed and held firmly against the shoulder, left hand well under the rifle grasping it at or in front of the balance, rifle resting in the palm of the left hand, right elbow at the height of the shoulder, right cheek held firmly against the stock as far forward as it can be placed without straining, and press the safety lock to its forward position with the trigger finger. The rifle is raised 45° from the horizontal or, if ordered, at the horizontal. The left eye is closed, right eye looking over the rear sight. At the command FIRE, the trigger is squeezed rapidly; the rifle is then lowered to the position of LOAD and loaded.

b. To continue the firing, the commands are: 1. AIM, 2. SQUAD, 3. FIRE.

(1) *U. S. rifle, caliber .30, M1903.*—Each command is executed as previously explained. LOAD (from the magazine) is

executed by drawing back and thrusting home the bolt with the right hand, leaving the safety lock turned up to the "ready".

(2) *U. S. rifle, caliber .30, M1.*—Each command is executed as previously explained. LOAD (from the clip) is executed by pulling the operating rod handle fully to the rear with the right forefinger and releasing it, leaving the "safety" in its forward position.

■ 64. TO CEASE FIRING.—The command is: CEASE FIRING. At the command CEASE FIRING, firing stops; rifles not already at the position of LOAD are brought to that position.

SECTION IV

CARRYING THE AUTOMATIC RIFLE

■ 65. GENERAL RULES.—*a.* Except as otherwise prescribed, the automatic rifle is habitually carried slung over the right shoulder, butt down, barrel to the rear, right hand grasping the sling, hand in front of armpit.

FIGURE 15.—Position of automatic rifle slung over right shoulder.

b. For marches and field exercises, the automatic rifle may be carried slung over either shoulder.

c. When troops are at ease, the automatic rifle is kept slung unless otherwise ordered.

d. When troops are at rest, the automatic rifle may be unslung and the position of ORDER ARMS taken.

e. Only the following movements of the manual are executed by the automatic rifleman:

(1) *Parade rest*.—If at SLING ARMS, execute as without arms keeping the right hand on the sling.

(2) *Inspection arms*.—At the command of execution, grasp the magazine with the left hand, at the same time press the magazine release with the right hand. Withdraw the magazine with the left hand and place it in the belt. Pull back the operating handle with the left hand.

(3) *Being at inspection arms*.—1. ORDER (PORT, RIGHT SHOULDER), 2. ARMS. At the command of execution, pull the trigger, replace the magazine, and resume the position of ATTENTION, the automatic rifle being kept slung.

f. Men armed with the automatic rifle salute with the hand salute when not in ranks. In ranks they do not salute.

g. For instruction, ceremonies, and drill, the organization commander may, at his discretion, substitute rifles for automatic rifles.

SECTION V

MANUAL OF THE PISTOL

■ 66. GENERAL.—a. The movements herein described differ in purpose from the manual of arms for the rifle in that they are not designed to be executed in exact unison. Furthermore, with only a few exceptions, there is no real necessity for their simultaneous execution. They are not therefore planned as a disciplinary drill to be executed in cadence with snap and precision, but merely as simple, quick, and safe methods of handling the pistol. Commands are prescribed for such movements only as may be occasionally executed simultaneously by the squad or larger unit.

b. In general, movements begin and end at the position of RAISE PISTOL.

c. Commands for firing, when required, are limited to COMMENCE FIRING and CEASE FIRING.

d. Officers and enlisted men armed with the pistol remain at the position of attention during the manual of arms, except when their units are presented to their commanders or are

presented during ceremonies, at retreat, and at guard mounting. In such cases they execute the hand salute at the command of execution, ARMS, of 1. PRESENT, 2. ARMS, and resume the position of attention at the command of execution of the next command.

e. Whenever the pistol is carried mounted the lanyard will be used. The lanyard should be of such length that the arm may be fully extended without constraint.

DISMOUNTED

■ 67. To RAISE PISTOL.—The commands are: 1. RAISE, 2. PISTOL. At the command PISTOL, unbutton the flap of the holster with the right hand and grasp the stock, back of the hand outward. Draw the pistol from the holster; reverse it, muzzle up, the thumb and last three fingers holding the stock, the forefinger extended outside the trigger guard, the barrel of the pistol to the rear and inclined to the front at an angle of 30°, the hand as high as, and 6 inches in front of, the point of the right shoulder. This is the position of RAISE PISTOL.

■ 68. To WITHDRAW THE MAGAZINE.—Without lowering the right hand, turn the barrel slightly to the right; press the magazine catch with the right thumb and with the left hand remove the magazine. Place it in the belt or pocket.

■ 69. To OPEN THE CHAMBER.—Withdraw the magazine and resume the position of RAISE PISTOL. Without lowering the right hand, grasp the slide with the thumb and the first two fingers of the left hand (thumb on left side of slide and pointing downward); keeping the muzzle elevated, shift the grip of the right hand so that the right thumb engages with the slide stop. Push the slide downward to its full extent and force the slide stop into its notch with the right thumb without lowering the muzzle of the pistol.

■ 70. To CLOSE THE CHAMBER.—With the right thumb press down the slide stop and let the slide go forward. Squeeze the trigger.

■ 71. To INSERT A MAGAZINE.—Without lowering the right hand, turn the barrel to the right. Grasp a magazine with the first two fingers and thumb of the left hand; withdraw it from the belt and insert it in the pistol. Press it fully home.

- ① To raise the pistol. ② To withdraw the magazine. ③ To pull the slide downward in loading.

- ④ To open the chamber. ⑤ To inspect the pistol.

FIGURE 16.—Manual of the pistol (dismounted).

■ 72. To LOAD PISTOL.—The commands are: 1. LOAD, 2. PISTOL. At the command PISTOL, if a loaded magazine is not already in the pistol, insert one. Without lowering the right hand, turn the barrel slightly to the left. Grasp the slide with the thumb and fingers of the left hand (thumb on right side of slide and pointing upward). Pull the slide downward to its full extent. Release the slide and engage the safety lock.

■ 73. To UNLOAD PISTOL.—The commands are: 1. UNLOAD, 2. PISTOL. At the command PISTOL, withdraw the magazine. Open the chamber as prescribed in paragraph 72. Glance at the chamber to verify that it is empty. Close the chamber. Take the position of RAISE PISTOL and squeeze the trigger. Then insert an empty magazine.

■ 74. To INSPECT PISTOL.—The commands are: 1. INSPECTION, 2. PISTOL. At the command PISTOL, withdraw the magazine. Open the chamber as prescribed in paragraph 69. Take the position of RAISE PISTOL. The withdrawn magazine is held in the open left hand at the height of the belt. After the pistol has been inspected, or at the command 1. RETURN, 2. PISTOL, close the chamber, take the position of RAISE PISTOL, and squeeze the trigger. Insert an empty magazine and execute RETURN PISTOL.

■ 75. To RETURN PISTOL.—The commands are: 1. RETURN, 2. PISTOL. At the command PISTOL, lower the pistol to the holster, reversing it, muzzle down, back of the hand to the right; raise the flap of the holster with the right thumb; insert the pistol in the holster and thrust it home; button the flap of the holster with the right hand.

MOUNTED

■ 76. GENERAL RULES.—The following movements are executed as when dismounted: RAISE PISTOL, RETURN PISTOL, CLOSE CHAMBER. The mounted movements may be practiced when dismounted by first cautioning, "Mounted position." The right foot is then carried 20 inches to the right and the left hand to the position of the bridle hand. Whenever the pistol is lowered into the bridle hand, the movement is executed by rotating the barrel to the right. Grasp the slide in the full grip of the left hand, thumb extending along the slide,

back of the hand down, barrel down and pointing upward and to the left front.

■ 77. To WITHDRAW THE MAGAZINE.—Lower the pistol into the bridle hand. Press the magazine catch with the forefinger of the right hand, palm of the hand over the base of the magazine to prevent it from springing out; withdraw the magazine and place it in the belt or pocket.

■ 78. To OPEN THE CHAMBER.—Withdraw the magazine. Grasp the stock with the right hand, back of the hand down, thrust forward and upward with the right hand, and engage the slide stop by pressure of the right thumb.

■ 79. To INSERT A MAGAZINE.—Lower the pistol into the bridle hand. Extra magazines should be carried in the belt with the projection on the base pointing to the left. Grasp the magazine with the tip of the right forefinger on the projection, withdraw it from the belt, and insert it in the pistol. Press it fully home.

■ 80. To LOAD PISTOL.—The commands are: 1. LOAD, 2. PISTOL. At the command PISTOL, lower the pistol into the bridle hand. If a loaded magazine is not already in the pistol, insert one. Grasp the stock with the right hand, back of the hand down, and thrust upward and to the left front; release the slide and engage the safety lock.

■ 81. To UNLOAD PISTOL.—The commands are: 1. UNLOAD, 2. PISTOL. At the command PISTOL, withdraw the magazine. Open the chamber. Glance at the chamber to verify that it is empty. Close the chamber. Take the position of RAISE PISTOL and squeeze the trigger. Then insert an empty magazine.

■ 82. To INSPECT PISTOL.—The commands are: 1. INSPECTION, 2. PISTOL. (The pistol is inspected mounted only at mounted guard mounting. The magazine is not withdrawn.) At the command PISTOL, take the position of RAISE PISTOL. After the pistol has been inspected, or on command, it is returned.

SECTION VI

MANUAL OF THE GUIDON

■ 83. GENERAL.—The guidon is a company identification flag. It is carried at ceremonies and when prescribed by the commander. In camp it is displayed at the company headquar-

FIGURE 17.—Manual of the guidon.

ters. In combat it is with the company baggage. The guidon bearer is a specially selected enlisted man designated by the company commander.

DISMOUNTED

■ 84. GENERAL RULES.—The guidon is brought to PRESENT ARMS, PARADE REST, and to the ORDER with the company. At the command of execution of other movements of the manual, the guidon is brought to the CARRY except for the execution of the manual at parades. When executing the FACINGS, SIDE STEP, and ALINEMENTS, the guidon is held at CARRY GUIDON. When marching at ROUTE STEP or at ease the guidon is at the CARRY, the lance held by either hand. When at the ORDER, unless otherwise prescribed, the guidon is brought to the CARRY at the command of execution for marching in quick time.

■ 85. CARRY GUIDON.—The lance of the guidon is held vertically in the right hand, resting in the hollow formed by the thumb and first finger, back of the hand to the right, arm extending downward, lance resting in the hollow of the shoulder, ferrule 6 inches from the ground as shown in figure 17. The CARRY is the habitual position when troops are marching.

■ 86. BEING AT ORDER GUIDON, TO EXECUTE CARRY GUIDON.—Grasp the lance with the left hand at the same time loosening the grip of the right hand on the lance. Raise the guidon vertically with the left hand, the lance sliding through the right hand until the ferrule is 6 inches from the ground, and then regrasp the lance with the right hand. Cut the left hand away smartly to the left side.

■ 87. BEING AT CARRY GUIDON, TO EXECUTE ORDER GUIDON.—Allow the lance to slide through the right hand until the ferrule is on the ground on line with and touching the toe of the right shoe, right hand grasping the lance as in the CARRY.

■ 88. BEING AT ORDER GUIDON, TO EXECUTE PARADE REST.—Execute in a manner similar to PARADE REST with the rifle.

■ 89. BEING AT CARRY OR ORDER GUIDON, TO EXECUTE PRESENT GUIDON.—a. Lower the guidon straight to the front, extending the right arm nearly horizontal until the lance, resting

in the pit of the right arm, is horizontal. This movement is executed at the command of execution, ARMS, of 1. PRESENT, 2. ARMS.

b. In passing in review the guidon bearer executes EYES RIGHT and PRESENT GUIDON at the second movement of the company commander's saber salute (or at the first movement of his hand salute) and returns to FRONT and CARRY GUIDON at the last movement of the company commander's salute.

■ 90. BEING AT PRESENT GUIDON, TO EXECUTE CARRY GUIDON.—Grasp the lance with the left hand, palm up, at a point just beyond the right hand. With the left hand carry the guidon up and back to the position of CARRY GUIDON as shown in figure 17, at the same time the right hand, retaining its grasp on the lance, is lowered to the right side. Cut the left hand away smartly to the left side.

■ 91. BEING AT PRESENT GUIDON, TO EXECUTE ORDER GUIDON.—The manual is executed as prescribed in paragraph 90 except that when the guidon is brought to the vertical position, the lance is allowed, if necessary, to slide through the right hand, the left hand steadying the lance, until the guidon is in the position of ORDER GUIDON as shown in figure 17.

■ 92. INDIVIDUAL SALUTE BY GUIDON BEARER.—At the CARRY or ORDER, the salute is given with the left hand in the same manner as a rifle salute at order arms.

■ 93. DOUBLE TIME.—At double time, the guidon is held diagonally across the body, the right hand grasping the lance at the position used at the CARRY, right forearm horizontal, elbow near the body, left hand grasping the lance opposite the junction of the neck and left shoulder.

MOUNTED

■ 94. GENERAL RULES.—When the guidon is carried mounted, the following modifications will prevail:

a. If leading the horse, the lance is held in the left hand in the same relative manner as in the CARRY, dismounted.

b. At STAND TO HORSE, the heel of the lance rests on the ground on line with and touching the toe of the left shoe, the lance being held with the left hand in the same relative manner as in the order, dismounted.

c. At the command **PREPARE TO MOUNT**, the heel of the lance is raised slightly from the ground while stepping back; upon halting, the heel is placed on the ground one foot in front of the left forefoot of the horse; the left hand continues to grasp the lance as well as a lock of the mane.

d. After mounting, the lance is grasped with the right hand and is then raised over the reins and is lowered on the right side of the saddle, the heel of the lance being inserted in the guidon socket. The right arm is passed through the sling.

e. When mounted, the heel of the lance being in the guidon socket, the right hand grasps the lance, forearm nearly horizontal, the arm through the sling, lance vertical. This is the position of **CARRY GUIDON**, mounted, and is the habitual position of the guidon when the guidon bearer is mounted.

f. (1) **PRESENT GUIDON** and the **RETURN TO THE CARRY** are executed as from **CARRY**, dismounted, except that the left hand is not used in executing these movements.

(2) The individual salute is not rendered by a guidon bearer when mounted.

g. At the command **PREPARE TO DISMOUNT**, the arm is disengaged from the sling, the heel of the lance is disengaged from the guidon socket; the lance, slightly inclined to the rear, is carried over the reins, the lance lowered until its heel rests on the ground one foot in front of the left forefoot of the horse and the lance grasped jointly in the left hand with a lock of the mane. After dismounting, the position of stand to horse is assumed.

h. When the organization is marching at **ROUTE STEP** or **AT EASE**, the guidon may be carried at will with the spearhead elevated.

SECTION VII

MANUAL OF THE COLOR AND STANDARD

■ 95. **USE AND CARE OF THE COLORS AND STANDARDS.**—The following rules will govern the use and care of the colors and standards:

a. The national and regimental flags carried by dismounted organizations are called the national color and the regimental color. The term "color" implies the national color. The term "colors" implies both the national color and regimental color.

b. The national and regimental flags carried by mounted or motorized organizations are called the national standard and the regimental standard. The term "standard" implies the national standard. The term "standards" implies both the national standard and the regimental standard.

c. In garrison, the colors and standards when not in use are kept at the office or quarters of the commanding officer and are escorted thereto and therefrom by the color guard or standard guard. In camp the colors or standards when not in use are displayed in front of the commanding officer's tent. From reveille to retreat, when the weather permits, they are displayed uncased. From retreat and to reveille and during inclement weather, they are cased and placed in the commanding officer's office, quarters, or tent.

d. Colors and standards are cased when furled and placed within protective covering.

e. The colors and standards may be carried in any formation in which two or more companies participate, and in escorts when ordered.

f. In separate organizations and commands entitled to colors or standards and in battalions not stationed with their regimental headquarters, the colors and standards are similarly cared for and displayed at the office, quarters, or tent of the commanding officer.

g. Battalions and squadrons stationed with their regimental headquarters do not display the colors or standards of their organizations.

h. At regimental formations, the colors or standards are posted with the regiment. When the regimental formation is broken up, as at drill or field exercises, the colors or standards join the regimental commander or are dismissed as directed.

■ 96. SALUTES NOT RENDERED BY THE NATIONAL COLOR OR STANDARD.—The national color or standard renders no salute.

■ 97. SALUTES BY THE REGIMENTAL COLOR OR STANDARD.—a. The regimental color or standard salutes in all military ceremonies while the *National Anthem* or *To the Color* is being played and when rendering honors to its regimental commander or an individual of higher rank, but in no other case.

b. If marching, the regimental color or standard salutes when six paces from the person entitled to the salute and resumes the CARRY when six paces beyond him.

c. In passing in review the color or standard guard executes **EYES RIGHT** at the command of the senior color sergeant, who commands: 1. **EYES**, 2. **RIGHT** and 1. **READY**, 2. **FRONT** at the saluting distances prescribed in *b* above. The regimental color or standard also salutes (*a* above) at the command **RIGHT** and resumes the **CARRY** at the command **FRONT**. The man on the right flank does not execute **EYES RIGHT**. In those organizations which do not execute **EYES RIGHT** in passing in review, the standard guard omits this compliment. Where applicable, the regimental standard salutes at the command of the senior, who commands: 1. **STANDARD**, 2. **SALUTE**. The return to the **CARRY** is made at the command: 1. **CARRY**, 2. **STANDARD**.

■ 98. **COLOR GUARD**.—*a*. The color guard consists of two color sergeants who are the regimental color bearers, and two experienced privates selected by the regimental commander, usually for long and honorable service. A position on the color guard is one of honor and responsibility. The privates so designated, when not engaged in the performance of their duties as members of the color guard, join their organizations. The senior color sergeant carries the national color and commands the color guard. He gives the necessary commands for movements and for rendering honors, when present, otherwise the senior remaining member does so. The junior color sergeant carries the regimental color. The regimental color is always placed on the left of the national color in whatever direction they face.

b. When battalions carry the color, a battalion staff sergeant acts as color bearer, and two experienced privates are selected by the battalion commander as members of the color guard. The general rules prescribed for the regimental color guard are applicable to the battalion.

c. The color guard is formed and marched in one rank at close interval, the color bearers in the center. The color guard does not execute **TO THE REAR MARCH**, **ABOUT FACE**, or **FIX BAYONETS**. When the unit to which it is attached moves to the rear for short distances, the color guard, at the command of the senior color sergeant, executes **COLUMN RIGHT (LEFT)** twice, marches to the new line, again executes **COLUMN RIGHT (LEFT)** twice, and halts in its proper place.

d. At the command of the senior color sergeant, the privates of the color guard **PRESENT ARMS** or, if armed with

the pistol, execute the **HAND SALUTE** on receiving and parting with the colors. After having parted with the colors, the guard is brought to **ORDER ARMS** by command of the senior remaining member who is placed as right man of the guard.

e. Having received the colors, the senior sergeant conducts the guard to its proper position before the color company, as outlined in *f* below. Having parted with the colors, the guard is dismissed by the senior sergeant.

f. At drills and ceremonies in which the colors are to participate, except escort of the color, the colors are received by the color company prior to the formation of the battalion with the following ceremony: the color company is formed, its company commander facing the front. The color guard, conducted by the senior sergeant, approaches from the front and halts at a distance of 10 paces from the company commander. The company commander then faces about, brings the company to the **PRESENT**, faces to the front, salutes, again faces about, and brings the company to the **ORDER**. The privates of the color guard execute **PRESENT** and **ORDER ARMS** with the color company. The color guard is then marched by the senior color sergeant directly to its post, as indicated. When the color company joins the battalion, the color guard takes its appropriate post in the battalion formation. When the color battalion joins the regiment, the color guard takes its appropriate post in the regimental formation. When the color joins the color company, it takes post on the left when the company is in line or mass and in rear when it is in column.

g. When it is desired to dismiss the color guard at the conclusion of a drill or ceremony in which the colors have participated, the color guard proceeds from its position and halts 10 paces in front of and facing the company commander of the color company. The company commander then faces about, brings the company to the **PRESENT**, faces to the front, salutes, again faces about, and brings the company to the **ORDER**. The privates of the color guard execute **PRESENT** and **ORDER ARMS** with the color company. The color guard then escorts the colors to the office, quarters, or tent of the commanding officer. The color guard is dismissed from organizations smaller than a company (funeral escort) in a similar manner.

h. In campaign, prior to engagement of the regiment and upon direction of the commanding officer, the colors are stored

with the regimental baggage under guard of one color sergeant. The other color sergeant remains with regimental headquarters.

■ 99. POSITION OF THE COLOR AT THE ORDER.—At the ORDER, the heel of the pike rests on the ground on line with and touching the toe of the right shoe. The right hand at a convenient place on the pike clasps it with the thumb, back of the hand to the right, and holds it in a vertical position.

■ 100. POSITION OF THE COLOR AT THE CARRY.—At the CARRY, the heel of the pike rests in the socket of the sling; the right hand grasps the pike at the height of the shoulder; the pike is inclined slightly to the front.

■ 101. POSITION OF THE COLOR AT PARADE REST.—*a.* PARADE REST with the color is similar to PARADE REST with the rifle, except that the pike is kept vertical.

b. The ORDER is resumed at the command ATTENTION.

c. The ORDER and PARADE REST are executed with the color company.

■ 102. POSITION OF THE REGIMENTAL COLOR AT THE COLOR SALUTE.—This position is assumed from the CARRY by slipping the right hand up the pike to the height of the eye, then lowering the pike by straightening the arm to the front. When the regimental color salutes with troops who execute PRESENT ARMS from the order, the position of CARRY is assumed at the command ARMS and the COLOR SALUTE executed.

■ 103. POSITION OF COLORS DURING MANUAL OF ARMS.—The colors habitually remain at the ORDER during the execution of the manual of arms.

SECTION VIII

MANUAL OF THE SABER

■ 104. GENERAL.—*a.* For garrison service, officers and warrant officers are equipped with the officer's saber. The saber is not carried in the field.

b. Dismounted, the scabbard is carried on the left side attached to the belt by the saber sling or chain and hooked to the belt by means of the upper ring, guard of the saber to the rear.

c. Mounted, the scabbard is carried in the saber carrier attached to the off side of the cantle of the saddle, guard of the saber to the rear.

d. Officers of a commander's staff draw and return saber with him.

e. The position of ORDER SABER is assumed by dismounted officers when in formation at attention, except as otherwise provided in *f*, *g*, *h*, and *i* below.

f. The position of CARRY SABER is assumed—

- (1) To give commands.
- (2) To change position at quick time.
- (3) When officially addressing or when officially addressed by another officer, if saber is drawn.
- (4) Preparatory to returning saber.
- (5) At the preparatory command for and while marching in quick time.

g. The position of PRESENT SABER is assumed—

- (1) To salute when the saber is drawn.
- (2) In executing PRESENT ARMS when the unit is presented to the colors, to any person, or when the *National Anthem* is played.
- (3) In executing EYES RIGHT (OR LEFT) when marching past a reviewing officer or stand, officers armed with the saber who are in the interior of a mass formation do not execute PRESENT SABER.

h. The position of PORT SABER is assumed when marching in double time.

i. The position of the saber at PARADE REST is assumed by dismounted officers whenever the unit executes PARADE REST.

j. Mounted officers do not execute ORDER SABER, PORT SABER, OR PARADE REST.

k. The manual of the saber is executed without command except for saber drill.

l. The saber may be carried in the scabbard while marching AT EASE or at ROUTE STEP.

DISMOUNTED

■ 105. To DRAW SABER.—a. The commands are: 1. DRAW, 2. SABER.

(1) At the command DRAW, unhook the saber with the thumb and first fingers of the left hand, thumb on the end

of the hook, fingers lifting the upper ring. Grasp the scabbard with the left hand at the upper band and bring the hilt of the saber a little forward, guard down, blade inclined downward to the rear at an angle of 45° . Grasp the hilt in the right hand, press the left hand against the left thigh and draw the saber 6 inches from the scabbard.

FIGURE 18.—Draw saber.

(2) At the command SABER, draw the saber smartly, raising the arm to its full extent to the right front at an angle of 45° with the horizontal, edge down, in prolongation of the arm. Make a slight pause and bring the saber down so that the back of the blade is against the point of the shoulder, edge to the front, arm nearly extended, elbow back, the grip clasped easily between the first and second fingers and the thumb, the third and fourth fingers back of the grip. At the same time, hook up the scabbard with the thumb and first two fingers of the left hand, thumb through the upper ring,

fingers supporting it. Drop the left hand by the side. This is the position of CARRY SABER, dismounted.

b. Members of dismounted organizations will not engage the wrist in the saber knot except when they intend to publish orders, call the roll, etc.

■ 106. To PRESENT SABER.—*a.* The commands are: 1. PRESENT, 2. SABER.

(1) At the command PRESENT, raise and move the saber to the front, base of the hilt as high as, and 3 inches in front of, the chin, edge to the left, point 6 inches farther to the front than the hilt, thumb extended on the left of the grip, all fingers grasping the grip.

FIGURE 19.—Present saber.

(2) At the command SABER, lower the saber smartly until the point is in prolongation of the right foot and near the ground, edge to the left, hand by the side, thumb on the left of the grip, arm extended. If marching, the arms swing naturally.

b. **PRESENT SABER** is executed when six paces from the person saluted or at the point of nearest approach if more than six paces. The second position is held until the person saluted has passed or the salute has been returned. In passing in review, salutes are rendered and **EYES RIGHT** executed when the leading element of the unit which is to execute **EYES RIGHT** on command is six paces from a point directly opposite the reviewing officer. The second position is held until a point six paces beyond the reviewing officer is passed by the rear-most element of that unit.

c. The commander of a battalion or larger unit salutes and executes **EYES RIGHT** when he is six paces from a point directly opposite the reviewing officer and holds the second position until he is six paces beyond (see also par. 234 g).

d. From **PRESENT SABER** the position of **CARRY** is assumed in two counts in the cadence of quick time. The first count brings the saber to the **ORDER**, the second count to the **CARRY**.

■ 107. To **RETURN SABER**.—When practicable **RETURN SABER** should be executed at the halt. The commands are: 1. RE-

FIGURE 20.—Return saber.

TURN, 2. SABER. At the command RETURN, carry the right hand opposite to, and 6 inches in front of, the left shoulder, saber vertical, edge to the left. At the same time unhook and lower the scabbard with the left hand and grasp it at the upper band. At the command SABER, drop the point to the rear by turning the right hand as shown in figure 20, or in the most convenient manner as the design of the saber permits. Turn the head slightly to the left, fixing the eyes on the opening of the scabbard, raise the right hand sufficiently to insert the blade and return it. Turn the head to the front and drop the right hand by the side. Hook up the scabbard with the left hand and drop the left hand by the side.

FIGURE 21.—Order saber.

■ 108. TO ORDER SABER.—The commands are: 1. ORDER, 2. SABER.

a. Being at CARRY SABER at the command SABER, drop the point of the saber directly to the front, point near the ground, edge down, thumb along the back of the grip.

b. Being at PRESENT SABER, at the command SABER, bring the saber to the position of order by turning the hand to the left.

■ 109. PARADE REST.—Being at ORDER SABER, the commands are: 1. PARADE, 2. REST. At the command REST, move the

left foot 12 inches to the left of the right foot, keeping the legs straight, so that the weight of the body rests equally on both feet. Place the left hand behind the body, resting in the small of the back, palm to the rear. At the command **ATTENTION**, resume the position of attention.

■ 110. **PORT SABER.**—The commands are: 1. **PORT**, 2. **SABER**. At the command **SABER**, the saber is carried diagonally across the breast, edge to the front, right hand at the height of the waist and in front of the right hip, left hand steadying the scabbard.

FIGURE 22.—Parade rest.

FIGURE 23.—Port saber.

MOUNTED

■ 111. **TO DRAW SABER.**—At the command **DRAW**, insert the hand through the saber knot, and execute the same movements as when dismounted, except that the left hand is not used. At the command **SABER**, execute the same movements as when dismounted, except that at **CARRY SABER**, mounted, the right hand rests on the thigh.

■ 112. **TO PRESENT SABER.**—Execute at the same command and in the same manner as when dismounted, except that the point of the saber is lowered to the level and a little to the front and right of the stirrup. The right hand is slightly in rear of the thigh.

■ 113. To RETURN SABER.—At the command RETURN, carry the hand to a position the height of and 6 inches in front of the right shoulder, the blade vertical, edge to the front, the grip grasped so that the pommel rests in the hollow of

FIGURE 24.—Return saber, mounted.

the hand. At the command SABER, turn the head and eyes toward the scabbard, raise the right hand vertically to the full extent of the arm, lower the blade, and return the saber as shown in figure 24. Disengage the wrist from the saber knot and resume the position of attention.

CHAPTER 4

DRILL FOR FOOT TROOPS

	Paragraphs
SECTION I. The squad.....	114-130
II. The platoon.....	131-146
III. The company.....	147-158

SECTION I

THE SQUAD

■ 114. GENERAL.—*a.* The squad is a group of soldiers organized primarily as a combat team. It consists of one squad leader and other personnel as authorized by appropriate Tables of Organization. When the squad leader is absent, he is replaced by the second in command. If the second in command is also absent, the next senior member of the squad acts as leader.

b. As far as practicable, the squad is kept intact. The normal formation of the squad is a single rank or single file. This permits variation in the number of men composing the squad.

c. The squad in line marches to the left or to the front only for minor changes of position.

■ 115. TO FORM THE SQUAD.—*a.* The command is: FALL IN. At the command FALL IN, the squad forms in line as shown in figure 27. On falling in, each man except the one on the left extends his left arm laterally at shoulder height, palm of the hand down, fingers extended and joined. Each man, except the one on the right, turns his head and eyes to the right and places himself in line so that his right shoulder touches lightly the tips of the fingers of the man on his right. As soon as proper intervals have been obtained, each man drops his arm smartly to his side and turns his head to the front.

b. To form at close intervals, the commands are: 1. AT CLOSE INTERVAL, 2. FALL IN. At the command FALL IN, the men fall in as in *a* above, except that close intervals are obtained by placing the left hands on the hips as shown in figure 28. In this position the heel of the palm of the hand rests on the hip, the fingers and thumb are extended and joined, and the elbow is in the plane of the body.

FIGURE 25.—The squad.

2ND IN
COMMAND

2ND IN
COMMAND

FIGURE 26.—Details of infantry rifle company squads.

c. The squad falls in on the right file if the squad leader is not in ranks. If the squad is formed under arms, pieces are at once inspected.

■ 116. PREVIOUS INSTRUCTIONS APPLICABLE.—The squad executes the positions, movements, and manual of arms as prescribed in chapters 2 and 3, all men executing the movements simultaneously.

FIGURE 27.—FALL IN.

■ 117. TO DISMISS THE SQUAD.—The commands are: 1. INSPECTION, 2. ARMS, 3. PORT, 4. ARMS, 5. DISMISSED, or 3. UNLOCK PIECES, 4. DISMISSED (if armed with the M1 rifle).

■ 118. TO COUNT OFF.—*a.* The command is: COUNT OFF. At the command COUNT OFF, each man of the squad, except

FIGURE 28.—1. AT CLOSE INTERVAL, 2. FALL IN.

the one on the right flank, turns his head and eyes to the right. The right flank man calls out, "One". Each man in succession calls out, "Two", "Three", etc., turning his head and eyes to the front as he gives his number.

b. This command may be given whenever it is desired that the men know their relative position in the squad.

■ 119. TO ALINE THE SQUAD.—*a.* If in line, the commands are: 1. DRESS RIGHT (LEFT), 2. DRESS, 3. READY, 4. FRONT. At the command DRESS, each man except the one on the left extends his left arm (or if at close interval, places his left hand upon his hip), and all aline themselves to the right. The instructor places himself on the right flank one pace from and in prolongation of the line and facing down the line. From this position he verifies the alinement of the men, ordering individual men to move forward or back as is necessary. Having checked the alinement, he faces to the right in marching and moves three paces forward, halts, faces to the left and commands: 1. READY, 2. FRONT. At the command FRONT, arms are dropped quietly and smartly to the side and heads turned to the front.

b. If in column the command is: COVER. At the command COVER, men cover from front to rear with 40 inches distance between men.

■ 120. BEING IN LINE AT NORMAL INTERVAL, TO OBTAIN CLOSE INTERVAL.—The commands are: 1. CLOSE, 2. MARCH. At the command MARCH, all men except the right flank man face to the right in marching and form at close interval, as prescribed in paragraph 115 *b*.

■ 121. BEING IN LINE AT CLOSE INTERVAL, TO EXTEND TO NORMAL INTERVAL.—The commands are: 1. EXTEND, 2. MARCH. At the command MARCH, all men except the right flank man face to the left in marching and form at normal interval as prescribed in paragraph 115 *a*.

■ 122. BEING IN LINE, TO MARCH TO THE FLANK.—The commands are: 1. RIGHT (LEFT), 2. FACE, 3. FORWARD, 4. MARCH. The movements are executed as explained in paragraphs 19 *a* and 22, all men stepping off simultaneously.

■ 123. TO MARCH TO THE OBLIQUE.—*a.* For the instruction of recruits, the squad being in column or correctly alined, the

instructor causes each man to face half right (left), points out his position, and explains that it is to be maintained in the oblique march.

b. The squad being in any formation, the commands are: 1. RIGHT (LEFT) OBLIQUE, 2. MARCH. At the command MARCH, given as the right foot strikes the ground, each individual advances and plants the left foot, faces half right in marching and steps off in a direction of 45° to the right of his original front. He preserves his relative position, keeping his shoulders parallel to those of the guide (man on right front of line or column), and so regulates his step that the ranks remain parallel to their original front.

c. The command HALT is given on the left foot when halting from the right oblique and on the right foot when halting from left oblique. At the command HALT, given as the left foot strikes the ground, each individual advances and plants the right foot, turns to the front on the ball of the right foot, and places the left foot by the side of the right foot.

d. To resume the original direction, the commands are: 1. FORWARD, 2. MARCH. At the command MARCH, each individual faces half left in marching and then moves straight to the front.

e. If at HALF STEP or MARK TIME while obliquing, the FULL STEP is resumed by the command: 1. OBLIQUE, 2. MARCH.

f. To give volume to the command the word "oblique" is pronounced to rhyme with "strike."

■ 124. TO MARCH TOWARD A FLANK WHILE IN MARCH.—a. The commands are: 1. BY THE RIGHT (LEFT) FLANK, 2. MARCH. At the command MARCH, each individual executes the movement as prescribed in paragraph 30.

b. This movement is used when a quick movement to the right or left for a short distance is required. Normally the unit is halted, faced in the desired direction, and started forward again by the commands: 1. FORWARD, 2. MARCH.

■ 125. BEING IN COLUMN, TO CHANGE DIRECTION.—The commands are: 1. COLUMN RIGHT (LEFT) (HALF RIGHT) (HALF LEFT), 2. MARCH. At the command MARCH, the leading man executes the movement as prescribed in paragraph 29 a and b. The other men in the column execute the same movement successively and on the same ground as the leading man.

■ 126. BEING IN LINE, TO TAKE INTERVAL AND ASSEMBLE.—*a.* To take interval, the commands are: 1. TAKE INTERVAL TO THE LEFT (RIGHT), 2. MARCH. At the command MARCH, the right flank man stands fast and extends his left arm at shoulder height, palms of the hand down, fingers extended and joined until the man on his left obtains the proper interval, then he drops his arm. Other men face to the left in marching and step out until they have an interval of two arms' length from the man on their right. Each man, except the one on the left who raises his right arm only, extends both arms laterally at shoulder height. Each man, except the right flank man, then turns his head and eyes to the right and places himself in line so that the finger tips of his right hand touch lightly the finger tips of the left hand of the man on his right. As soon as each man alines himself at two arms' length intervals from the man on his right, he drops his right arm to the side and turns his head and eyes to the front. He drops his left arm to the side when the man on his left has obtained his proper interval. If under arms, rifles will be slung prior to the execution of this movement.

b. To assemble, the commands are: 1. ASSEMBLE TO THE RIGHT (LEFT), 2. MARCH. At the command MARCH, the right flank man stands fast. All other men face to the right in marching and form at normal intervals as in paragraph 115 *a.*

■ 127. TO STACK ARMS.—The squad being in line at normal or close interval, the commands are: 1. STACK, 2. ARMS. The second man from the right and the second man from the left of the squad make the stacks. If there are less than six men in the squad, only one stack is made, the second man from the right making it. If there are more than eight men in the squad, three stacks will be made, the center or right center man making the center stack. The stack is made as follows: At the command ARMS, the man on the left of the stackman regrasps his rifle with the right hand at the balance, carrying it to the horizontal position, barrel up, and passes his rifle to the stackman who grasps it with his left hand between the upper sling swivel and stacking swivel and places the butt between his feet, barrel to the front, muzzle inclined slightly to the front, the thumb and forefinger raising the stacking swivel. The stackman then throws the butt of his own rifle two feet in advance of that of his left file and 6 inches to the right of his right toe; at the same time he

allows his right hand to slip to the stacking swivel and engages his rifle with that of his left file. The man on the right of the stackman raises his rifle with his right hand, regrasps it with his right hand at the balance, steps to the left front keeping his right foot in place, and carries his rifle well forward, barrel to the front; the left hand guiding the stacking swivel engages the lower hook of the swivel of his own rifle with the free hook of that of his left file, and then turns the barrel outward into the angle formed by the other two rifles and lowers the butt to the ground so that it will form a uniform stack with the other two rifles. He then assumes the position of attention. Other rifles of the squad are passed toward the nearest stack and laid on the stack by the stackman.

①
FIGURE 29.—To stack arms.

②

FIGURE 29.—To stack arms.

■ 128. **TO TAKE ARMS.**—The squad being in line behind the stacks, the commands are: 1. TAKE, 2. ARMS. At the command ARMS, the procedure of stacking arms is reversed. The loose rifles are first passed back. In breaking the stack, the stackman grasps his rifle and that of the man on his left, so that the rifles will not fall when the man on the right raises and disengages his rifle. Each man, as he receives his rifle, resumes the position of ORDER ARMS.

■ 129. **COLUMN OF TWOS.**—When marching small groups, not at drill, the group may be marched in column of twos by forming it in two ranks and giving the command: 1. RIGHT (LEFT), 2. FACE.

■ 130. TO FORM COLUMN OF TWOS FROM SINGLE FILE AND RE-FORM.—*a.* The squad being in column, at a halt, to form column of twos, the commands are: 1. FORM COLUMN OF TWOS, 2. MARCH. At the command MARCH, the leading man stands fast; the second man in the squad moves by the oblique until he is to the left of and abreast of the corporal with normal interval, and halts; the third man moves forward until behind the corporal with normal distance and halts; the fourth man moves by the oblique until he is to the left of and abreast of the third man with normal interval, and halts; and so on.

b. The squad being in column of twos, in marching, to re-form single file, the squad is first halted. The commands are: 1. FORM SINGLE FILE FROM THE RIGHT, 2. MARCH. At the command MARCH, the leading man of the right column moves forward, the leading man of the left column steps off to the right oblique, then executes LEFT OBLIQUE so as to follow the right file at normal distance. Remaining twos follow successively in like manner.

SECTION II

THE PLATOON

■ 131. FORMATIONS OF MORE THAN ONE SQUAD.—*a.* The squads form in line, one behind the other, with 40 inches distance between ranks.

b. Squads are usually arranged to produce a three- or four-rank formation so that by facing to the right the unit will march in column of threes or column of fours depending on the number of squads.

c. A two-squad unit forms in two ranks and marches in column of twos.

d. A three-squad unit forms in three ranks and marches in column of threes.

e. A four-squad unit forms in four ranks and marches in column of fours.

f. A platoon composed of two sections of two squads each forms in four ranks and marches in column of fours.

g. Movements are described herein for COLUMN OF THREES or FOURS and may be executed by either formation.

h. When in line, the platoon is alined as prescribed for the squad in paragraph 119. The alinement of each rank is verified by the platoon leader.

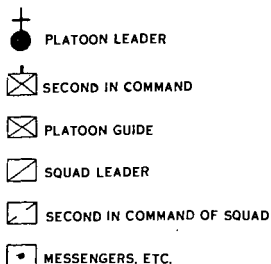

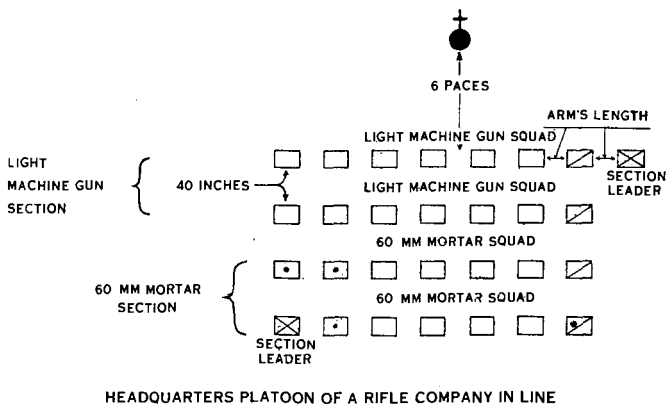

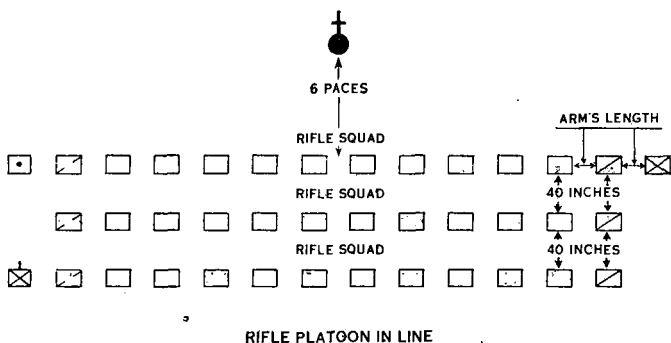

FIGURE 30.—Platoon formations.

i. The platoon being in line takes interval and assembles as prescribed for the squad in paragraph 126. This movement may be ordered after ranks are opened for the display of field equipment or for other special purpose. It is not utilized in forming for physical training.

j. The platoon is ordinarily formed for physical training from column of threes or fours in accordance with the commands and method prescribed in paragraph 31, chapter 4, Basic Field Manual, volume I. The extension to the left is executed on the right squad of the column which stands fast. The even-numbered men in all squads are designated to uncover.

■ 132. COMPOSITION AND FORMATION OF THE PLATOON.—The platoon consists of platoon headquarters and several squads. Platoon headquarters consists of a platoon leader and one or more assistants. For purposes of drill and ceremonies, a three-squad or four-squad formation should be arranged and the size of the squads equalized. Figure 30 shows how the platoon formation applies to a rifle platoon and to the headquarters platoon of a rifle company.

■ 133. POSITION OF INDIVIDUALS.—a. The platoon leader takes position six paces in front of the center of his platoon when in line. In march formation (column of threes or fours), he marches at the head of his platoon as shown in figure 31.

b. The second in command of a platoon takes position on the left of the left man of the rear rank when squads are in line unless otherwise indicated. When squads are in column, he follows the rear man in the right squad of the unit. The second in command observes the conduct of the unit, sees that the proper formation is maintained, and that commands are promptly and properly executed. The platoon guide (a sergeant or other specially designated noncommissioned officer) is posted on the right of the right flank man of the front rank when in line. In column, he takes post in front of the right flank man. He is responsible for maintaining the proper direction and cadence of march of the platoon.

c. Other noncommissioned officers (such as mess and supply sergeants, clerks, etc.) and privates (such as cooks, armorers, etc.), when attached to the platoon, fall in on the left when in line (or in rear when squads are in column) and march as part of regularly organized squads.

■ 134. TO FORM THE PLATOON.—*a.* The command is: **FALL IN.** At the command **FALL IN**, the first squad forms in line, as prescribed in paragraph 115 *a*, its center opposite and three paces from the platoon sergeant. The other squads form in rear of the first squad and in the same manner, with 40 inches distance between ranks. Members of the rear squads extend their arms to obtain their approximate intervals but cover the corresponding members in the first squad. The guide places himself as shown in figure 30.

b. To form with close interval, the commands are: 1. **AT CLOSE INTERVAL**, 2. **FALL IN.** At the command **FALL IN**, the movement is executed as prescribed in *a* above except that squads form at close interval (par. 115 *b*).

c. The platoon is ordinarily formed and dismissed by the platoon sergeant (see also par. 149).

■ 135. TO DISMISS THE PLATOON.—The commands are: 1, **INSPECTION**, 2. **ARMS**, 3. **PORT**, 4. **ARMS**, 5. **DISMISSED**, or 3. **UNLOCK PIECES**, 4. **DISMISSED** (if armed with the M1 rifle).

■ 136. TO MARCH THE PLATOON.—*a.* The normal formation for marching is in column of threes (or fours) with squad columns abreast, squad leaders at the head of their squads.

b. The platoon in line marches to the left or to the front only for minor changes of position.

c. The platoon being in line to march to the right, the commands are: 1. **RIGHT**, 2. **FACE**, 3. **FORWARD**, 4. **MARCH.** This marches the platoon in column of threes (or fours) to the right.

■ 137. GUIDE IN MARCHING.—Except when otherwise directed, men in ranks keep the proper distance and interval and aline themselves on the men toward the flank on which the guide is marching. When it is desired to guide toward the left, the command is: **GUIDE LEFT.** The guide and the platoon leader then change their relative positions.

■ 138. BEING IN COLUMN OF THREES (OR FOURS) AT NORMAL INTERVAL BETWEEN SQUADS, TO MARCH (OR FORM) AT CLOSE INTERVAL.—*a.* The commands are: 1. **CLOSE**, 2. **MARCH.** At the command **MARCH**, the squads close to the center by obliquing until the interval between men is 4 inches. The center squad (or squads) take up the half step until the dress has been regained. The distance, 40 inches, remains unchanged.

1. Rifle platoon in line faced to the front

2. At the commands: 1. Right 2. FACE, The platoon faces to the right. Platoon leader and guide change to new positions.
At the commands: 1. Forward 2. MARCH It moves off

3. At the commands: 1. Close 2. MARCH The squad columns close to the center to 4-inch intervals

PLATOON IN LINE BEING MARCHED TO THE RIGHT

FIGURE 31.—Platoon in line, marched to the right.

b. If this movement is executed from the halt, the squads close toward the center by executing RIGHT or LEFT STEP until 4-inch intervals are reached. If in column of threes, the first and third squads LEFT and RIGHT STEP two steps. If in column of fours, the second and third squads LEFT and RIGHT STEP one step, the first and fourth squads LEFT and RIGHT STEP three steps.

■ 139. BEING IN COLUMN OF THREES (OR FOURS) AT CLOSE INTERVAL BETWEEN SQUADS, TO MARCH (OR FORM) AT NORMAL INTERVAL.—a. The commands are: 1. EXTEND, 2. MARCH. At the command MARCH, the squads open to the right and left from the center by obliquing until the interval between men is one arm's length. The center squad (or squads) will take up the half step until the dress has been regained.

b. If this movement is executed at the halt, the squads execute RIGHT or LEFT STEP until they have secured the proper interval by reversing the procedure outlined in paragraph 138 b.

■ 140. BEING IN COLUMN OF THREES (OR FOURS), TO CHANGE DIRECTION.—The commands are: 1. COLUMN RIGHT (LEFT), 2. MARCH. At the command MARCH, given as the right foot strikes the ground, the right flank man of the leading rank faces to the right in marching as prescribed in paragraph 29 a and b, and takes up the half step until the other men of his rank are abreast of him, then he resumes the full step. The other men of the leading rank oblique to the right in marching without changing interval, place themselves abreast of the pivot man and conform to his step. The ranks in rear of the leading rank execute the movement on the same ground, and in the same manner, as the leading rank.

■ 141. BEING IN COLUMN OF THREES (OR FOURS), TO FORM LINE TO THE FRONT.—The commands are: 1. COLUMN RIGHT, 2. MARCH, 3. PLATOON, 4. HALT, 5. LEFT, 6. FACE. Column right is executed as prescribed in paragraph 140. The command HALT is given after the change of direction is completed.

■ 142. BEING IN ANY FORMATION IN MARCH, TO MARCH TOWARD A FLANK.—The commands are: 1. BY THE RIGHT (LEFT) FLANK, 2. MARCH. This movement is executed as prescribed for the squad in paragraph 124. If the platoon is in column

at close (4-inch) intervals, the squads in rear of the squad which becomes the leading squad take up the half-step until they each reach 40 inches distance from the squad ahead. This movement is used only for short distances.

■ 143. **STACK ARMS.**—Before stacking arms ranks are opened. Arms are then stacked by each squad as prescribed in paragraph 127.

■ 144. **BEING IN LINE, TO OPEN AND CLOSE RANKS.**—*a.* To open ranks the commands are: 1. **OPEN RANKS**, 2. **MARCH**, 3. **READY**, 4. **FRONT**. At the command **MARCH**, the front rank takes three steps forward, halts, and executes **DRESS RIGHT**. The second rank takes two steps forward, halts, and executes **DRESS RIGHT**. The third rank takes one step forward, halts, and executes **DRESS RIGHT**. The fourth rank, if any, executes **DRESS RIGHT**. The platoon leader places himself on the flank of the platoon toward which the dress is to be made, one pace from and in prolongation of the front rank and facing down the line. From this position he alines the front rank. The second and third ranks are alined in the same manner. In moving from one rank to another, the platoon leader faces to the left in marching. After verifying the alinement of the rear rank, he faces to the right in marching, moves three paces beyond the front rank, halts, faces to the left and commands: 1. **READY**, 2. **FRONT**.

b. To close ranks, the commands are: 1. **CLOSE RANKS**, 2. **MARCH**. At the command **MARCH**, the front rank stands fast; the second rank takes one step forward and halts; the third rank takes two steps forward and halts; and the fourth rank, if any, takes three steps forward and halts. Each man covers his file leader.

■ 145. **TO FORM FOR SHELTER TENTS.**—The platoon being in line the commands are: 1. **FORM FOR SHELTER TENTS TO THE LEFT (RIGHT)**, 2. **MARCH**, 3. **DRESS RIGHT (LEFT)**, 4. **DRESS**, 5. **READY**, 6. **FRONT**, 7. **COUNT OFF**.

a. At the command **FORM FOR SHELTER TENTS TO THE LEFT (RIGHT)**, the second in command moves to a position on the right of the guide who is on the right of the right man of the front rank. The messenger takes position on the left of the left man of the rear rank.

b. At the command **MARCH**, all squads except the front squad face to the left in marching and step off. Squad

leaders by giving the appropriate commands: 1. BY THE RIGHT (LEFT) FLANK, 2. MARCH, and 1. SQUAD, 2. HALT, move their squads into line abreast of the squad(s) already on line.

c. At the commands 3. DRESS RIGHT (LEFT), 4. DRESS, 5. READY, 6. FRONT, and 7. COUNT OFF, given by the platoon leader the entire rank executes these movements as prescribed in paragraphs 118 and 119.

d. On direction of the platoon leader, the odd numbers draw their bayonets and thrust them into the ground alongside the outside of the left heel near the instep. The bayonet indicates the position of the front tent pole. Men not equipped with bayonets mark the place with the left heel. Odd and even numbers (Nos. 1 and 2; Nos. 3 and 4; etc.) pitch tents together.

e. To assemble, the platoon is faced to the right and re-formed from single file into column of threes (or fours) to the right (left) as prescribed in paragraph 146 c (2). The platoon sergeant and messenger resume their normal posts.

■ 146. COLUMN OF TWOS AND SINGLE FILE AND RE-FORM.—The platoon may be marched in column of twos or single file by the procedure given below. This is not a precise movement. It is practiced in drill so that when necessary the movement may be executed smoothly and without delay. The change of column is always made from a halt.

a. (1) The platoon being in column of threes, at a halt, to form column of twos, the commands are: 1. COLUMN OF TWOS FROM THE RIGHT (LEFT), 2. MARCH. At the command MARCH, the right two squads march forward; the left squad forms column of twos as prescribed for the squad and then executes COLUMN HALF RIGHT and COLUMN HALF LEFT so as to follow in column the leading squads. Forty-inch distances are maintained.

FIGURE 32.—Column of twos from column of threes.

FIGURE 33.—Re-form column of threes from column of twos.

(2) The platoon being in column of twos, at a halt, to re-form in column of threes, the commands are: 1. **COLUMN OF THREES TO THE LEFT (RIGHT)**, 2. **MARCH**. At the command **MARCH**, the leading two squads stand fast. The rear squad forms single file from the right as prescribed in paragraph 130 b and moves to its normal place beside the leading squads by executing **COLUMN HALF LEFT** then **COLUMN HALF RIGHT**. It is halted when its leading file is on line with the leading rank of the platoon.

b. (1) The platoon being in column of fours, at a halt, to form column of twos, the commands are: 1. **COLUMN OF TWOS FROM THE RIGHT (LEFT)**, 2. **MARCH**. At the command **MARCH**, the right two squads march forward; the left two squads initially stand fast, then follow the leading two squads by executing **COLUMN HALF RIGHT** and **COLUMN HALF LEFT**. Forty-inch distances are maintained.

(2) The platoon being in column of twos, at a halt, to re-form in column of fours, the commands are: 1. **COLUMN OF FOURS TO THE LEFT (RIGHT)**, 2. **MARCH**. At the command **MARCH**, the leading two squads stand fast. The two rear squads move to their normal places by executing **COLUMN HALF LEFT** then **COLUMN HALF RIGHT** and are halted when the leading files are on line with the leading rank of the platoon.

c. (1) The platoon being in column of threes (or fours), at a halt, to form single file, the commands are: 1. **COLUMN OF FILES FROM THE RIGHT (LEFT)**, 2. **MARCH**. At the command **MARCH**, the right squad of the platoon moves forward. The other squads stand fast initially and then successively follow the leading squad by executing **COLUMN HALF RIGHT** and **COLUMN HALF LEFT**. Distances of 40 inches are maintained.

(2) The platoon being in single file, at a halt, to re-form in column of threes (or fours), the commands are: 1. **COLUMN OF THREES (OR FOURS) TO THE LEFT (RIGHT)**, 2. **MARCH**. At the command **MARCH**, the leading squad stands fast. The other

squads move to their normal places by executing COLUMN HALF LEFT, then, at the proper time, COLUMN HALF RIGHT and are halted when the leading file is on line with the leading rank of the platoon.

d. Whenever commands are given involving movements of squads in which one squad stands fast, takes up the march, continues the march, or changes formation, the squad leader gives the appropriate commands.

SECTION III

THE COMPANY

■ 147. GENERAL.—a. The company consists of a company headquarters and two or more platoons.

b. For close-order drill and ceremonies, company headquarters personnel present are attached to platoons to equalize the strength thereof. A usual disposition for this purpose is shown in figure 36. Members of the company headquarters are formed for marches or special purposes as shown in figure 35 or as directed by the company commander or higher authority.

c. The first sergeant takes post as follows for drills and ceremonies:

(1) *With the company in line.*—At normal distance in rear of the squad leader of the rear squad of the left center (or center) platoon.

(2) *With the company in column of platoons (the rifle platoons being in columns of threes and the headquarters platoon in column of fours).*—At normal distance in rear of the left squad of the rear platoon for drills and ceremonies. For march formations, his position is as shown in figure 35.

(3) *With the company in mass formation.*—At normal distance in rear of the second in command of the left (or left center) platoon.

d. The first sergeant takes post in march formation at normal distance behind the company commander.

e. The guidon bearer takes post as follows for drills and ceremonies:

(1) *With the company in line or in mass formation.*—One pace to the rear and three paces to the left of the company commander.

(2) *With the company in column of threes or fours.*—As shown in figure 35.

f. For marches in the field, the guidon is disposed with the company headquarters baggage or as otherwise directed. If carried by the guidon bearer he takes the position shown in figure 35.

■ 148. RULES FOR COMPANY DRILL.—*a.* The platoon, rather than the company, is the basic close-order drill unit. Only such formations are prescribed for the company as are necessary for marches, drills, and ceremonies.

b. Platoon leaders repeat such preparatory commands as are to be immediately executed by their platoons, such as FORWARD, and the men execute the movement if it applies to their platoons at the command of execution, such as MARCH and HALT, given by the company commander. In movements executed in ROUTE STEP and AT EASE, the platoon leaders repeat the command of execution if necessary. Platoon leaders do not repeat the company commander's commands in having the company fall out, stack arms, take arms, or in executing the manual of arms, nor those commands which are not essential to the execution of a movement by their platoons. In giving commands or cautions, platoon leaders may prefix the numbers of the platoons, as: FIRST PLATOON, HALT; OR SECOND PLATOON, FORWARD.

c. Whenever commands are given involving movements of the company in which one platoon stands fast or continues the march, its platoon leader commands: STAND FAST, or cautions, CONTINUE THE MARCH, as the case may be.

d. The company does not march forward when in line except for minor changes in position.

■ 149. TO FORM THE COMPANY.—*a.* The first sergeant takes post nine paces in front of the point where the center of the company is to be, faces that point and commands: FALL IN. At the command FALL IN, the company forms in three (or four) ranks with normal interval between men (unless close interval is directed) and three-pace intervals between platoons as indicated in figure 34.

b. Each platoon sergeant takes post three paces in front of the point where the center of his platoon will be. The platoons form in their proper places under supervision of the platoon sergeants.

c. The platoon sergeants then command: REPORT. Remaining in position (at ORDER ARMS if armed with the rifle),

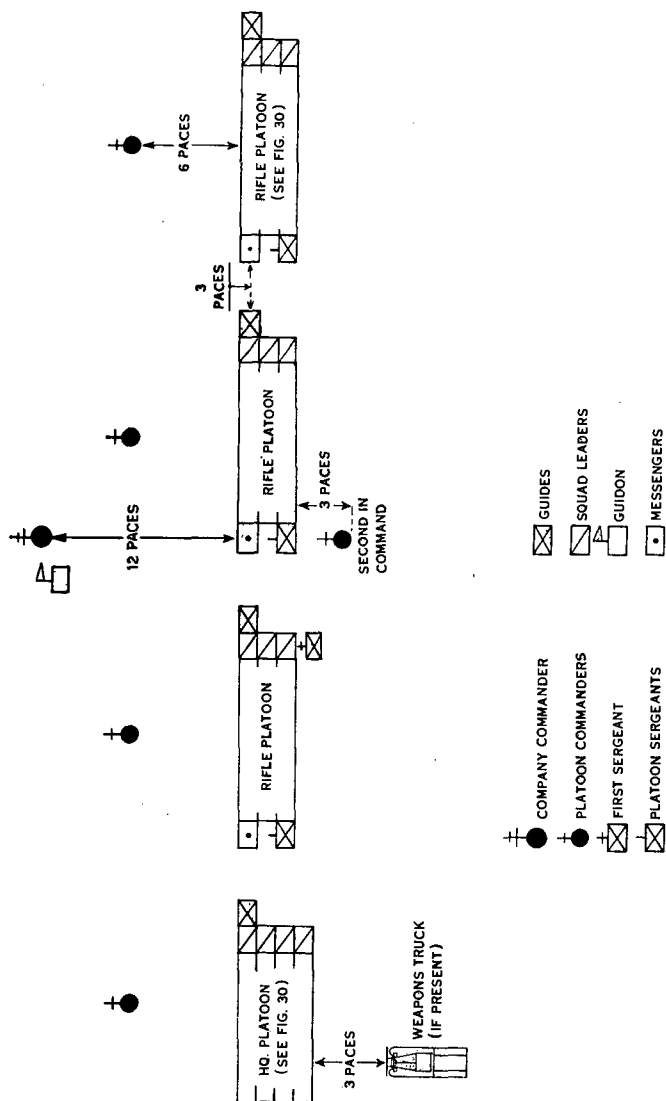

FIGURE 34.—Rifle company in line.

the squad leaders, in succession from front to rear in each platoon, salute and report, "All present", or "Private (——) absent." Platoon sergeants then command: 1. INSPECTION, 2. ARMS, 3. LOCK PIECES (if armed with the M1 rifles), 4. ORDER, 5. ARMS, and face about. At the command REPORT given by the first sergeant, the platoon sergeants successively, beginning with the right platoon, salute and report, "All present or accounted for", or "—— men absent."

d. All platoons having reported, the first sergeant commands: POSTS. The platoon sergeants face about and move by the most direct routes to the positions shown in figure 34. The first sergeant then faces the company commander, salutes, and reports, "Sir, all present or accounted for", or "Sir, —— men absent", and without command faces about and moves by the most direct route to the position shown in figure 34.

e. If the platoons cannot be formed in regularly organized squads, the platoon sergeants command: 1. INSPECTION, 2. ARMS, 3. LOCK PIECES (if armed with M1 rifles), 4. RIGHT SHOULDER, 5. ARMS, and call the rolls. Each man, as his name is called, answers "Here", and comes to ORDER ARMS. The platoon sergeants then divide the platoons into squads and report as described above.

f. The company commander places himself 12 paces in front of the center of and facing the company in time to receive the report of the first sergeant. The second in command and officers commanding platoons take their posts immediately after the first sergeant has reported and draw saber with the company commander.

g. In forming the company, all who are required to salute and make a report maintain the position of salute until it is returned.

■ 150. BEING IN LINE, TO MARCH TO THE RIGHT.—a. The company is faced to the right and marched as prescribed for the platoon in paragraph 136 c. The company commander, first sergeant, and guidon take positions shown in figure 35. The second in command of the company will normally take post in rear of the second in command of the rear platoon at 40 inches distance. For drills and ceremonies, the first sergeant takes position as prescribed in paragraph 147 c (2).

b. The company marches to the left from line only for minor changes of position.

FIGURE 35.—Rifle company in march formation.

■ 151. TO FORM WITH CLOSE INTERVAL BETWEEN MEN.—The commands are: 1. AT CLOSE INTERVAL, 2. FALL IN. At the command FALL IN, the company forms as prescribed in paragraph 149 with each platoon forming as prescribed in paragraph 134 b. This formation is used only for roll calls or where space is limited.

■ 152. TO DISMISS THE COMPANY.—a. The company being in line at a halt, the company commander directs the first sergeant, "Dismiss the company." The officers fall out; the first sergeant moves to a point nine paces in front of the center of the company, salutes the company commander, faces toward the company, and commands: 1. INSPECTION, 2. ARMS, 3. PORT, 4. ARMS, 5. DISMISSED, or, for troops armed with the U. S. rifle, caliber .30, M1, 1. INSPECTION, 2. ARMS, 3. UNLOCK PIECES, 4. DISMISSED.

b. Dismissal may also take place by the command: DISMISS YOUR PLATOONS. The platoons being in line at a halt are then dismissed on direction of the individual platoon leaders to the platoon sergeants. Each platoon sergeant takes post three paces in front of the center of his platoon and commands: 1. INSPECTION, 2. ARMS, 3. PORT, 4. ARMS, 5. DISMISSED, or for troops armed with the U. S. rifle, caliber .30, M1, 1. INSPECTION, 2. ARMS, 3. UNLOCK PIECES, 4. DISMISSED.

■ 153. TO ALINE THE COMPANY.—The company being in line at a halt, to aline the company the command is: DRESS RIGHT (CENTER or LEFT). At the command DRESS RIGHT, the platoon leader of the base platoon dresses his platoon immediately. When DRESS CENTER is given, the leader of the center platoon dresses his platoon to the right. Each platoon leader dresses his platoon toward the center (right or left) of the company as soon as the base platoon or the platoon next toward the base platoon has completed its dress. When in mass formation the commands are given by the company commander, and the alinement of each rank is verified expeditiously by the platoon leader of the base platoon.

■ 154. PREVIOUS INSTRUCTION APPLICABLE.—The company marches, executes changes of direction, closes and extends intervals between squads in column of threes or fours, opens and closes ranks, stacks and takes arms as in platoon drill.

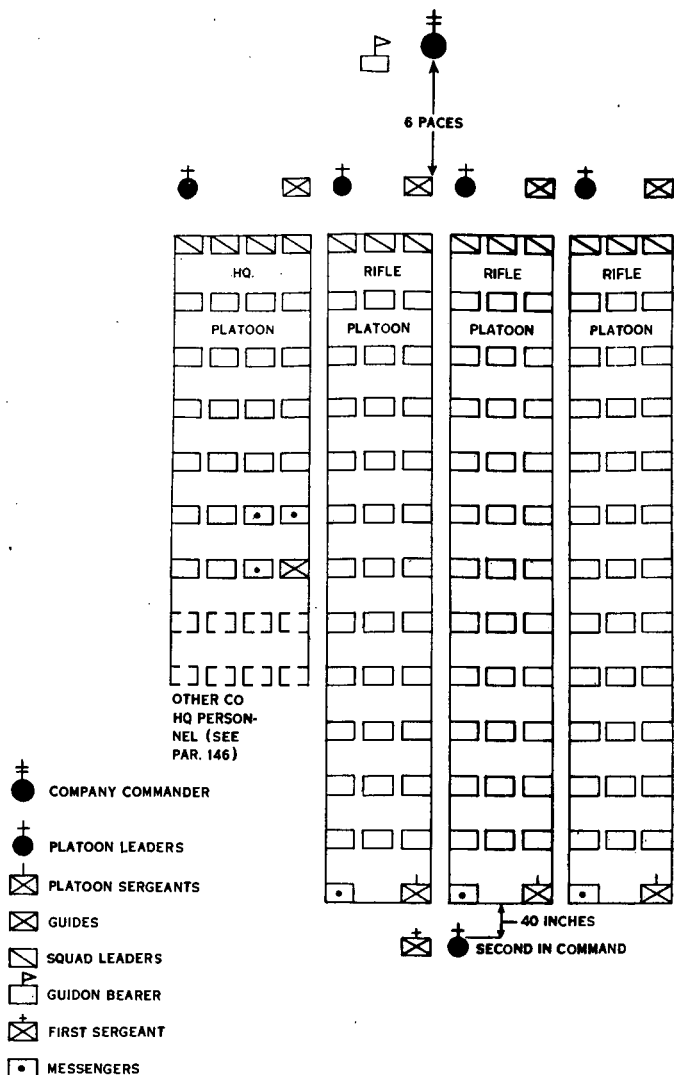

FIGURE 36.—Rifle company in mass formation (interval between men 4 inches; distance between men 40 inches).

■ 155. BEING IN COLUMN OF THREES OR FOURS AT CLOSE INTERVAL, TO FORM COMPANY MASS.—*a.* The company being at a halt, the commands are: 1. COMPANY MASS LEFT (RIGHT), 2. MARCH. At the command MARCH, the leading platoon stands fast. The rear platoons move to position alongside the leading platoon(s) at 4-inch intervals by executing COLUMN HALF LEFT then COLUMN HALF RIGHT. Each platoon is halted when its leading rank is on line with the leading rank of the platoon(s) already on line. This forms the company in mass, with 4-inch intervals between all men in ranks.

b. The company being in march, the commands are the same as given in *a* above. The movement is executed as described in *a* above, except that immediately after the command MARCH, the leading platoon is halted by the commands: 1. PLATOON, 2. HALT, given by its own leader.

■ 156. BEING IN COLUMN OF THREES OR FOURS, TO FORM EXTENDED MASS FORMATION.—The commands are: 1. COMPANY MASS () PACES LEFT (RIGHT), 2. MARCH. At the command MARCH, the movement is executed as described in paragraph

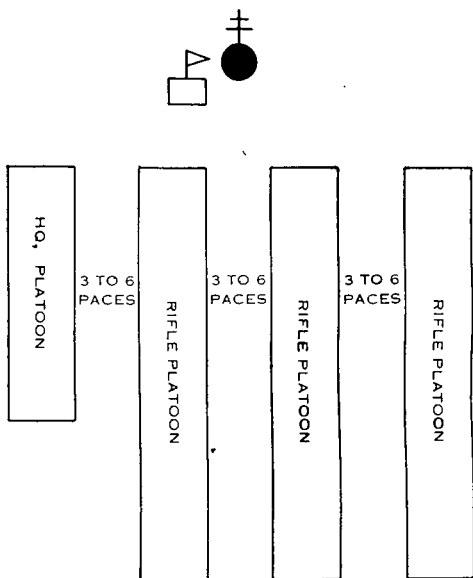

FIGURE 37.—Rifle company in extended mass formation.

155 except that the rear platoons move to position alongside the leading platoon(s) at the intervals ordered by executing COLUMN LEFT and COLUMN RIGHT. Each platoon is halted when its leading rank is on line with the leading rank of the platoon(s) already on line. This formation is used for drills and ceremonies if it is desired to increase the size of the mass in order to present a more impressive appearance. The company in this formation drills in the same manner as for mass formation, maintaining the interval between platoons. The extended mass formation is also utilized in forming the company for inspection as prescribed in paragraph 241.

■ 157. BEING IN MASS FORMATION, TO CHANGE DIRECTION.—*a.* The commands are: 1. COLUMN RIGHT (LEFT), 2. MARCH, 3. FORWARD, 4. MARCH. The right flank man of the line of guides and platoon leaders is the pivot of this movement. At the command MARCH, he faces to the right in marching and takes up the half step. Other first rank man executes a RIGHT OBLIQUE, advances until opposite his place in line, executes a second RIGHT OBLIQUE and, upon arriving abreast of the pivot man, takes up the half step. Each succeeding rank executes the movement on the same ground and in the same manner as the first rank. All take the full step at the command MARCH, which is given after the entire company has changed direction.

b. In turning to the left on a moving pivot, each rank dresses to the left until the command MARCH and after that the dress is to the right unless otherwise announced.

c. The company commander faces to the rear and marches backward until the change in direction has been completed.

■ 158. BEING IN COMPANY MASS, TO FORM COLUMN OF THREES (OR FOURS).—Being at a halt, the commands are: 1. COLUMN OF THREES (OR FOURS), 2. RIGHT PLATOON, FORWARD, 3. MARCH. At the command MARCH the right platoon marches forward. The other platoons follow in column in their normal formation successively by executing COLUMN HALF RIGHT and COLUMN HALF LEFT upon the commands of their respective leaders.

CHAPTER 5

DRILL FOR UNITS WITH ANIMAL-DRAWN CARTS OR PACK ANIMALS

■ 159. GENERAL.—Units equipped with animal-drawn carts or pack animals follow the same drill as is prescribed in

chapter 6 for units with motor carriers with the modifications indicated in the succeeding paragraphs.

■ 160. THE SQUAD AND ITS TRANSPORTATION.—*a.* The squad consists of a squad leader, a crew to handle the weapons or equipment, mule leaders, and one or more carts or pack animals depending upon the equipment. Some weapons may be provided with a wheeled mount which is attached to and trailed by one of the carts.

b. Each member of the gun squad except the squad leader is given a number as prescribed in the special gun drill for the weapon. The squad leader is not numbered. Mule leaders take the last numbers in the squad. Assistant mule leaders take the next lower numbers.

c. If the squad has two carts (a gun cart and an ammunition cart) or pack mules instead of carts, they are formed one behind the other with two paces distance and remain in this formation at all times.

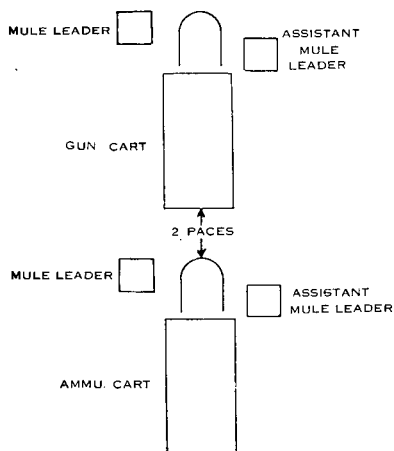

FIGURE 38.—Squad with two carts.

The two carts taken together maneuver in the manner prescribed for a single truck in the drill for units with motor carriers. Carts or pack animals form and march with two paces distance and not with the distances prescribed for motor vehicles.

■ 161. TO HANDLE THE MULE.—*a. Leading.*—The mule, when hitched, is led by means of the reins or halter tie rope. The mule leader takes position on the left side of the mule, holding the reins near the bit with his right hand, and holding the loose ends of the reins in his left hand. The assistant mule leader takes position one pace to the right of the hip of the mule. At drill and ceremonies the mule is led with the reins. On the march, the halter tie rope may be used. The mule is led with a loose rein and urged on from the rear, if necessary, by the assistant mule leader. The mule leader should not face or threaten the mule when leading him.

b. Gathering.—The mule leader raises his right hand until it touches the mule's lower jaw and at the same time exerts a slight pressure with the reins in the direction in which the movement is to be made. The object of gathering the mule is to attract his attention and prepare him for the movement. At all preparatory commands involving a movement of the cart, the mule is gathered in time to cause the movement to begin at the command of execution.

c. Changing direction.—The mule is led outward and away from the pivot in all changes of direction with carts in order to increase the radius of turning. The mule, while actually led in a turn to the right, may be better controlled if the mule leader places his right shoulder against the mule and guides him in the turn.

CHAPTER 6

DRILL FOR UNITS WITH MOTOR CARRIERS

	Paragraphs
SECTION I. General.....	162-164
II. The squad and section.....	165-169
III. The platoon.....	170-177
IV. The company.....	178-186

SECTION I

GENERAL

■ 162. PURPOSE.—*a.* This chapter provides drill for units having motor carriers to transport weapons, ammunition, or other combat equipment. In this type of unit all personnel,

except the drivers and certain commanders and their assistants, march on foot. Units to which this drill may apply are—

(1) Machine gun, mortar, and antitank units.

(2) Headquarters and other units which have motor carriers to transport their combat equipment.

b. The sole purpose of the drill is the orderly formation and movement of such units. It is practiced for smoothness of execution. All personnel must be proficient in drill for foot troops.

■ 163. TRANSPORTATION.—*a.* When fully equipped, there should be one or more motor carriers per weapon squad. In peace strength units, there may be available only one truck or carrier per section (one motor carrier for each two squads). Each unit should make the adaptations to fit its requirements.

b. One or more passenger cars may be included in the company's transportation. Normally the company commander, first sergeant, and one or more messengers ride in one car at the head of the company. The second in command, transport sergeant, mechanic, and a messenger ride in another car at the rear of the company. Platoon commanders march on foot with their platoons at carrier drill.

c. The fire-control equipment of the platoon is carried in the platoon commander's car or on one of the squad carriers. The fire-control equipment of the company is carried in the company commander's car or in one of the squad carriers.

d. For the movement of the entire company by motor, additional trucks are provided by higher headquarters.

■ 164. RULES FOR MEN ARMED WITH THE RIFLE.—Men armed with the rifle execute INSPECTION ARMS, ORDER ARMS, SLING ARMS, and UNSLING ARMS but no other movements of the manual when in formations with their units. They will be instructed, however, in the entire manual of arms. At all formations for drill and ceremonies, such men fall in at ORDER ARMS and after executing INSPECTION ARMS (and LOCK PIECES if armed with the M1 rifle) will, upon command, execute SLING ARMS as prescribed in paragraph 39 *a.* Rifles remain at the position of sling arms until they are unslung as prescribed in paragraph 39 *b.* Men in ranks may remove their rifles from their shoulders when at REST or AT EASE.

SECTION II

THE SQUAD AND SECTION

■ 165. ORGANIZATION OF THE SQUAD.—*a.* The weapons squad (machine gun, mortar, antitank) consists of a squad leader and men to operate the weapon and to serve it with ammunition.

b. When equipped with a motor carrier (truck or other vehicle) the weapon, its accessories and ammunition, are transported by the carrier. The members of the squad, except the carrier operator, march on foot. Antitank guns designed for towing are trailed.

c. The gun squad secures and carries equipment and forms as prescribed in the gun drill for the weapon. Whenever the squad is at a halt, the men ground the equipment they are carrying. Before starting any movement, the squad leader directs, "Carry equipment."

■ 166. TO FORM AT THE TRUCK.—Being in any formation, without equipment, or with the squad carrying its equipment, to form at the truck, the commands are: 1. AT YOUR TRUCK(S), 2. FALL IN. At the command FALL IN, the squad moves to its truck and forms as shown in figure 39. If one truck serves two squads, the squads form abreast.

■ 167. TO LOAD TRUCKS.—Being in formation at the truck(s), the command is: LOAD TRUCK(S). At this command the gun and equipment are loaded into the truck under the direction of the squad leader. If one truck serves two squads, the section leader directs the loading. When the loading is completed, the squad re-forms without command as shown in figure 39.

■ 168. TO UNLOAD TRUCKS.—Being in formation at the truck(s), the command is: UNLOAD TRUCK(S). At this command, equipment is removed from the truck under the direction of the squad (or section) leader and the squad (or squads) re-forms without command as shown in figure 39.

■ 169. SECTION OPERATING ALONE.—When the section operates alone, it drills as prescribed for the platoon.

SECTION III

THE PLATOON

■ 170. ORGANIZATION.—*a.* The gun platoon consists of a headquarters and two or more squads or sections.

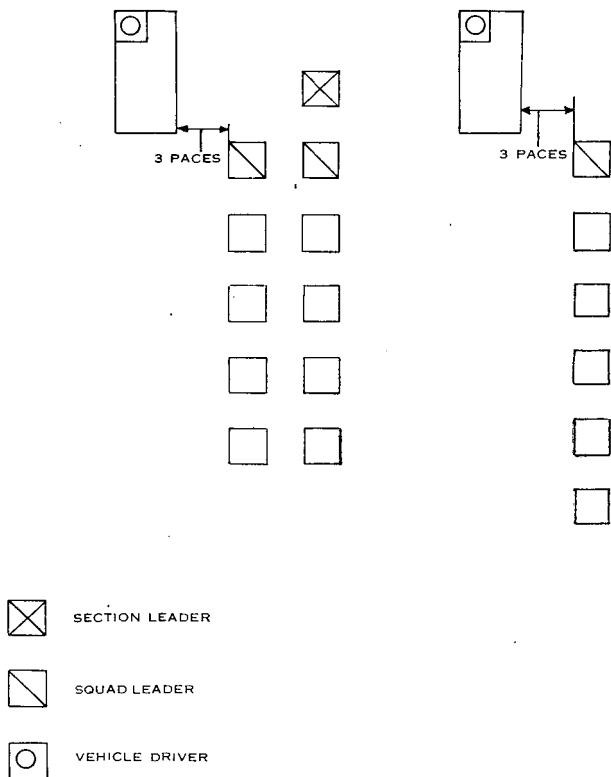

FIGURE 39.—To form at the truck.

b. The motor carriers of the platoon are grouped under the command of a designated noncommissioned officer who rides in the right carrier when in line and in the leading carrier when in column. He controls the motor carriers by command or by arm signals (ch. 11).

■ 171. TO FORM WITH MOTOR TRANSPORTATION.—*a.* The platoon is formed as shown in figure 40. Additional noncommissioned officers or privates authorized by Tables of Organization are placed on the left when the platoon is in line, and in rear when it is in column.

b. In forming the platoon in either line or column, the loaded carriers may move to the selected position and the

FIGURE 40.—Formations of the platoon.

foot elements then form in front of them or the foot elements, after loading the carriers, may form first and the carriers then take their proper positions.

c. The distance between carriers in column is three paces when halted and six paces when moving. When carriers are operating independently, other prescribed or suitable road distances and speeds are used. The interval between vehicles in line depends on the frontage of the unit behind which they form. It should not be less than three paces.

d. When moving the platoon with transportation, the platoon leader gives arm signals in addition to oral commands in order to be understood while the motors are running.

e. The engines of vehicles are started at the command or signal **START ENGINES** which is given prior to the command for any movement. Engines are kept running until the command or signal **STOP ENGINES** is given. At drill the engines are kept running at the halts unless the halt is to be of some duration or when it is necessary to give oral instructions.

■ 172. **BEING IN COLUMN, AT A HALT, TO MARCH FORWARD.**—The commands are: 1. **START ENGINES**, 2. **FORWARD**, 3. **MARCH**. At the command **MARCH**, the foot element of the platoon moves forward as prescribed for foot troops in paragraph 22. The leading vehicle follows at six paces. Other vehicles follow with six paces distance between trucks. If the engines are already running, the command to start engines is omitted.

■ 173. **TO HALT.**—The commands are: 1. **PLATOON**, 2. **HALT**. At the command **HALT**, the foot elements halt as prescribed for foot troops in paragraph 24 *a*, vehicles close to three

FIGURE 41.—The platoon being in line to form column to the right.

paces distance and stop. To place the vehicles in any desired position, the platoon leader gives the necessary instruction to the noncommissioned officer in charge of the transportation.

■ 174. MOVEMENTS WITH MOTOR TRANSPORTATION.—*a.* The platoon with motor transportation marches in column formation only.

b. The platoon in line may move a short distance to the front or rear for the purpose of alinement with other units or getting in proper formation. The trucks move under the direction of the noncommissioned officer in charge of transportation.

■ 175. BEING IN LINE, TO FORM COLUMN.—The commands are: 1. RIGHT, 2. FACE, 3. FORWARD, 4. MARCH. The foot element executes RIGHT FACE and FORWARD MARCH as for foot troops. The vehicle on the right moves forward and follows the platoon at six paces distance. The other vehicles move forward and turn to the right each following the preceding truck at six paces distance. The foot troops march at close interval or at normal interval as described in paragraphs 138 and 139.

■ 176. BEING IN COLUMN, TO CHANGE DIRECTION.—The commands are: 1. COLUMN RIGHT, 2. MARCH, executed as for foot troops; the trucks follow.

■ 177. BEING IN COLUMN, TO FORM LINE.—The platoon leader signals HALT to the vehicles. The foot troops of the platoon are then marched to and formed in line at the desired point. At the platoon leader's signal, the vehicles move to their respective places in rear of the line.

SECTION IV

THE COMPANY

■ 178. GENERAL.—*a.* The company consists of a company headquarters and two or more platoons. The platoon is the basic drill unit. Squads, sections, and platoons are numbered consecutively within the company from right to left or from front to rear. These designations do not change. The company commander may direct the platoon leaders to form their platoons in any prescribed formation.

FIGURE 42.—To form line from column.

b. For marches in which no tactical situation is involved, the personnel of the company may be marched as a unit in front of the combined company vehicles.

c. For drill or ceremonies, company headquarters personnel whose positions are not otherwise prescribed are attached to platoons without interfering with the permanent squad organization.

d. When posted with the company commander, dismounted, in line or mass formation, the guidon is one pace to his rear and three paces to his left. When he is in formation riding in his vehicle it is flown therefrom. In

the field, it is disposed with the company headquarters' baggage or as otherwise directed.

■ 179. TO FORM WITH MOTOR TRANSPORTATION.—The procedure is similar to that prescribed for the platoon in paragraph 171. The second in command, assisted by the company and platoon transport noncommissioned officers and chauffeurs, brings up the vehicles. The foot elements are formed in line in accordance with the procedure given in paragraph 149.

■ 180. FORMATIONS.—The formations of the company with motor carriers are LINE, COLUMN, and MASS. The battalion heavy weapons company is shown in LINE, in COLUMN, and in MASS in figures 43, 44, and 45. The regimental headquarters company is shown in LINE and in MASS in figures 46 and 47.

■ 181. BEING IN LINE, TO FORM COLUMN.—The commands are: 1. RIGHT, 2. FACE, 3. FORWARD, 4. MARCH. This movement is executed as for the platoon. The motor carriers wait until the last platoon of the company's foot elements has passed and then follow, taking the formation shown in figure 44.

■ 182. BEING IN COLUMN, AT CLOSE INTERVAL, TO FORM COMPANY MASS.—*a.* The company being at a halt, the commands are: 1. COMPANY MASS THREE PACES LEFT (RIGHT), 2. MARCH. At the command MARCH, the foot elements execute the movement as prescribed for foot troops in paragraph 156. As soon as the foot elements are in place, the vehicles move forward and form in columns in rear of their respective platoons as shown in figures 45 and 47.

b. The company being in march, the commands are the same as given in *a* above. The movement is executed as in *a* above, except that immediately after the command or signal MARCH, the leading platoon is halted by its own leader and all vehicles stop.

■ 183. BEING IN MASS FORMATION, TO FORM COLUMN OF THREES (OR FOURS).—Being at a halt, the commands are: 1. COLUMN OF THREES (OR FOURS), 2. RIGHT PLATOON, FORWARD, 3. MARCH. At the command MARCH, the foot elements execute the movement as prescribed for foot troops in paragraph 158. As soon as the foot elements have completed the movement, the motor

FIGURE 44.—Battalion heavy weapons company in column.

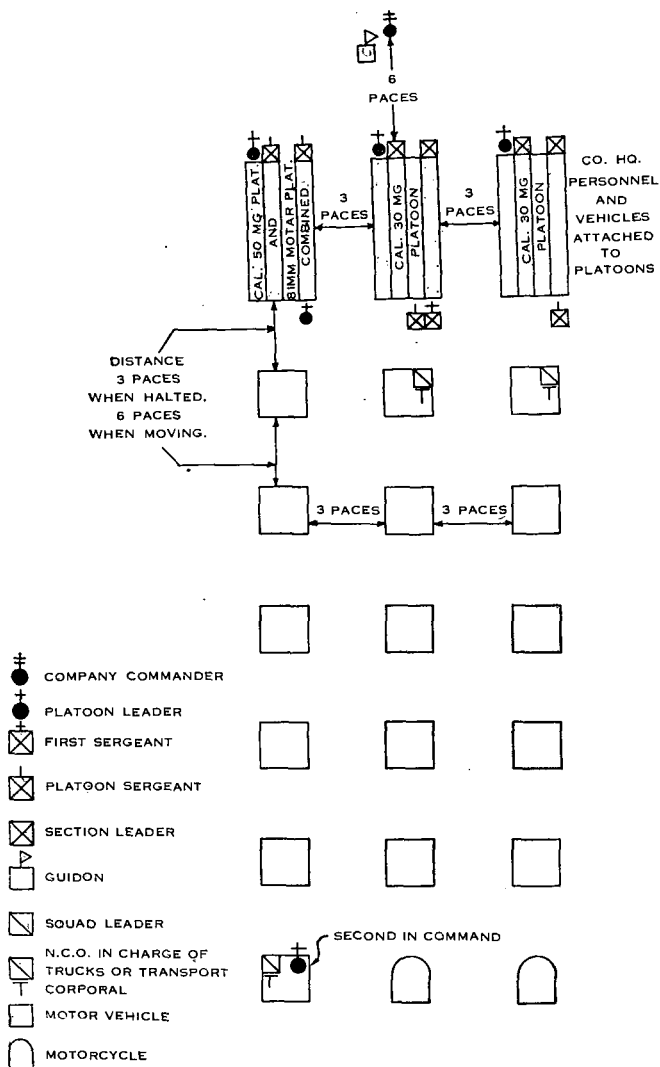

FIGURE 45.—Battalion heavy weapons company in mass formation.

Figure 46.—Regimental headquarters company in line.

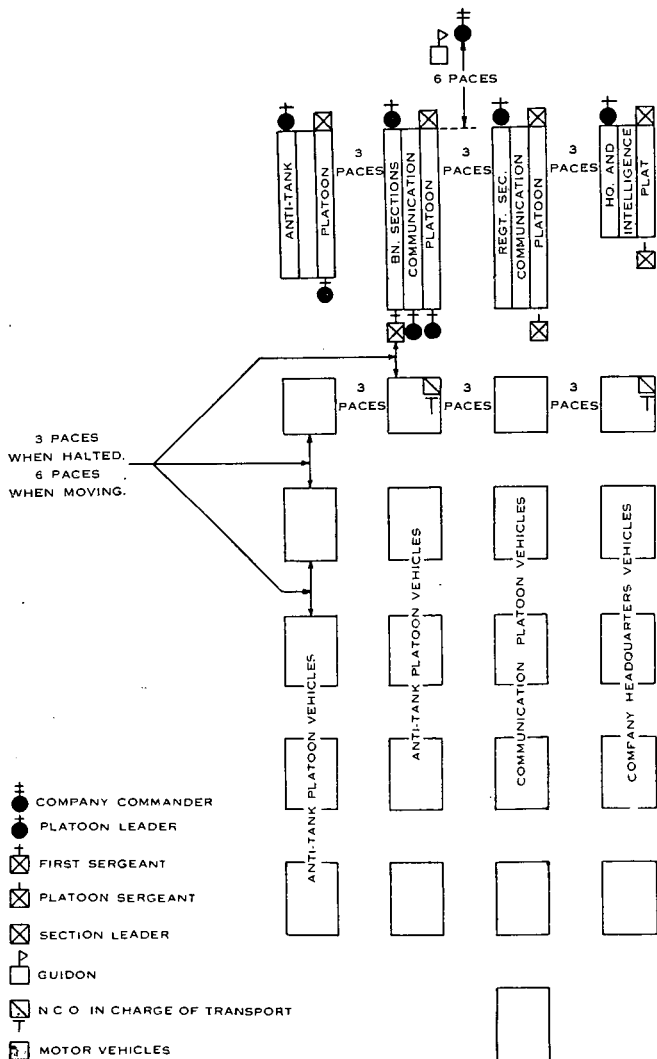

FIGURE 47.—Regimental headquarters company in mass formation.

vehicles of the right platoon move forward to position as shown in figure 44, followed in column, successively, by the vehicles of the other platoons.

■ 184. BEING IN MASS FORMATION, TO CHANGE DIRECTION.—The commands are: 1. COLUMN RIGHT (LEFT), 2. MARCH. The movement is executed as prescribed for foot troops in paragraph 157. The vehicles on the inside of the turn preserve the prescribed six-pace distance. The vehicles on the outside of the turn increase their speed to keep abreast.

■ 185. OTHER FORMATIONS OR MOVEMENTS AS REQUIRED.—The company commander explains the formation or movement to his platoon leaders and the officer (and noncommissioned officers) in charge of the trucks. Subdivisions of the company carry out such directions in the most convenient manner.

■ 186. TO DISMISS THE COMPANY.—The company is dismissed in the same manner as prescribed for foot troops in paragraph 152.

CHAPTER 7

DRILL FOR MOTOR AND WAGON UNITS

	Paragraphs
SECTION I. General.....	187-188
II. The single vehicle.....	189-194
III. Drill for vehicles in single column or line.....	195-200
IV. Drill for vehicles in mass formation...	201-205
V. Company drill	206-210

SECTION I

GENERAL

■ 187. PURPOSE AND SCOPE.—a. This chapter provides drill for units in which all personnel ride in vehicles. Such units are—

- (1) Motorized machine gun, mortar, and antitank units in which the weapons and their crews are carried in trucks.
- (2) Service companies (either motor or wagon).
- (3) Motorized headquarters units.

b. The sole purpose of the drill is the orderly formation and movement of such units. The movements are practiced at first in small groups with empty vehicles, later with the entire organization and with full loads. All personnel must be proficient in drill for foot troops. Personnel handling weapons are also trained in the gun drills for their weapons. All drivers will be instructed in traffic regulations and trained to drive in convoy. Officers and non-commissioned officers who command such units will be trained in convoy operation and control. (FM 25-10.)

■ 188. SIGNALS.—Signals are generally given by whistle and by hand and arm movements. Because of the noise of motors, sound signals are of little value except at halts. The bugle may be used in rear areas for such signals as ATTENTION, ASSEMBLE, and FORWARD. Whistle and voice may be used at halts to attract attention. Hand and arm signals may be used both at a halt and in movement. All operating personnel, whether drivers or not, must be thoroughly trained in the use of the standard signals given in chapter 11 and impressed with the necessity for the prompt and rapid transmission of signals from one end of the column to the other. In movement, signals are given by the commander, who makes certain that the subordinate commanders receive them and promptly pass them on. Drivers use the driver's signals to warn the vehicle in rear of their movement.

SECTION II

THE SINGLE VEHICLE

■ 189. THE VEHICLE AND ITS LOAD.—a. Units armed with machine guns, mortars, or cannons carry these weapons in their unit trucks together with ammunition, accessories, and the personnel of the gun squad. Mortars and machine guns are loaded into the truck. Antitank guns, if designed for towing, are trailed.

b. Before entrucking, gun squads secure equipment as prescribed in the gun drill for the weapon. Headquarters personnel secure their fire control, communication, or other equipment.

■ 190. To FORM AT THE TRUCK.—The squad(s) being in any formation with or without weapons or equipment, the commands are: 1. AT YOUR TRUCK(S), 2. FALL IN.

a. At the command FALL IN, drivers, if not already there, take their seats at the controls. Other members of the squad (or occupants of the vehicle) form in single file as shown in figure 48.

FIGURE 48.—To form at the truck.

b. As soon as they are in place, the men ground the equipment they are carrying. Men who are moving a weapon on wheels retain their positions at the tugs and do not form a single column. Men and equipment are kept three paces to the right of the truck to permit trucks to move after loading or unloading is completed.

c. If the number of men in the column causes it to extend past the center of the next vehicle in rear, the leader forms it in column of twos.

■ 191. To LOAD TRUCK.—The squad(s) being in formation at the truck the command is: LOAD TRUCK(S). The weapon and other equipment are loaded into the truck under the direction of the senior noncommissioned officer. Weapons capable of antiaircraft fire are, if practicable, set up on their mounts in firing position in the truck. Ammunition and equipment are stowed under the seats. If the weapon is of the trailer type it is attached to the rear of the truck for towing. The men mount the truck and take seats at attention. The senior noncommissioned officer or private present in the truck signals, "Ready to start."

■ 192. To UNLOAD TRUCK.—The squad(s) being in the truck, the command is: UNLOAD TRUCK(S). At this command, the men will dismount in an orderly manner as prescribed by the unit commander and based on the gun drill of the weapon concerned. All take their proper loads and form at the truck as shown in figure 48. A towed cannon is disconnected and moved clear of the truck. The men who move it remain at their position at the tugs.

■ 193. To DISMOUNT LEAVING EQUIPMENT IN TRUCK.—The squad(s) being in the truck, the command or signal is: DISMOUNT. Men (except the driver) get out of the truck and take position in column at the right of the truck as shown in figure 48, leaving the equipment in the truck. If followed by the command FALL OUT, men leave ranks and the driver dismounts. They remain in the vicinity of the truck.

■ 194. To ENTRUCK.—The command or signal is: MOUNT. The driver takes his place and the men get into the truck. The senior officer, noncommissioned officer, or private in the vehicle checks the men and when all are present signals, "Ready to start" to his next senior commander.

SECTION III

DRILL FOR VEHICLES IN SINGLE COLUMN OR LINE

■ 195. GENERAL RULES.—*a.* The number and type of vehicles in a section or platoon are governed by Tables of Organization. A section of weapons usually consists of two guns with a truck for each gun and its crew. A battalion section of the service company transportation platoon may have seven or more vehicles. Since the vehicles of a section or platoon normally form in line or in column, the number of vehicles is immaterial to the drill.

b. Complicated maneuvers are not executed with vehicles. Movements are generally limited to getting the vehicles into a column formation where they can follow a leader.

c. Signals are given as a warning. On the command or signal to move, the leading (or right) vehicle moves out. The other vehicles follow successively in column, each starting in time to follow at a distance prescribed to suit the occasion.

d. All conform to the speed of the commander's vehicle. For drill and ceremonies with foot troops, vehicles conform to the foot-rate of march (about 3 miles per hour). Move-

ments should be practiced at this speed. Some practice should be given at 10 miles per hour for use when it is not necessary to conform to foot-troop speed.

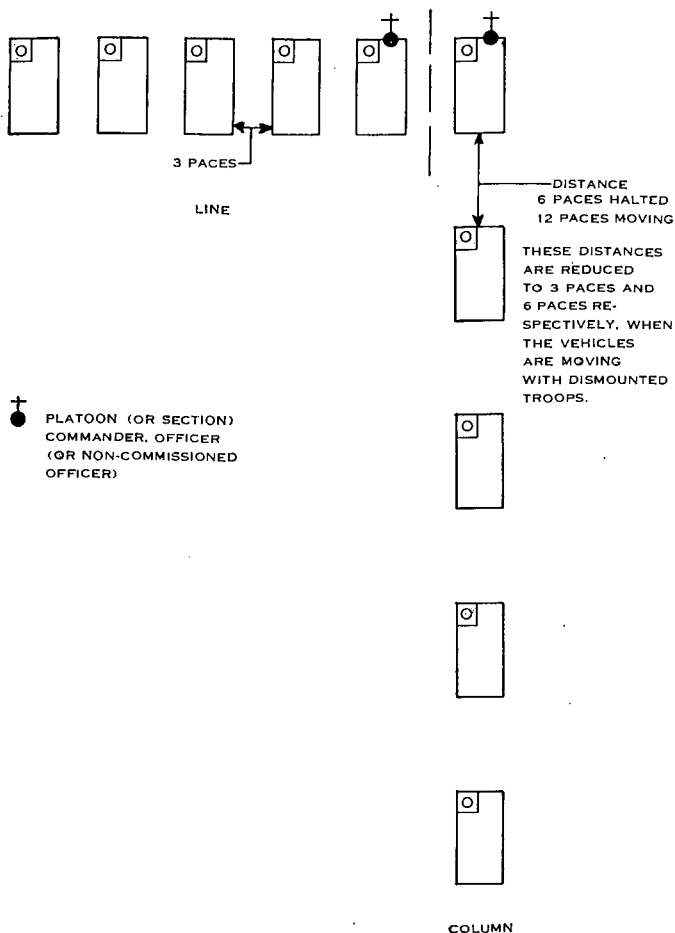

FIGURE 49.—Formation of a group in line or column.

■ 196. FORMATIONS.—The formations for a group such as a section or platoon are line and column.

a. In line, the front edges of the vehicles are alined.

b. The commander of the unit rides in the right vehicle when in line and the leading vehicle when in column.

c. The second in command (and a mechanic, if the section or platoon has one) rides in the left vehicle when in line and the rearmost vehicle when in column.

d. Vehicles are arranged in any convenient manner. When necessary, the distances and intervals may be changed to meet requirements of space.

e. Engines of trucks are started at the command or signal **START ENGINES** which is given prior to the command for any movement. Engines are kept running until the command or signal **STOP ENGINES** is given. At drill, engines are kept running at halts unless the halt is to be of some duration.

■ 197. To **FORM COLUMN OR LINE**.—The vehicles being in any formation, the commander places his vehicle at the desired position, signals **ASSEMBLE**, and then extends his arm horizontally pointing down the line or column on which the vehicles are to form. The vehicles then move to position in

TO FORM COLUMN AND MOVE TO THE RIGHT

TO FORM COLUMN AND MOVE TO THE FRONT

FIGURE 50.—Being in line to form column.

FIGURE 51.—Being in column to form line.

column or line as indicated. The commander or an assistant may dismount and direct the formation.

■ 198. BEING IN LINE, TO FORM COLUMN.—The commander gives the signal FORWARD OR (TO THE RIGHT), indicating the direction, gets in his car and moves in the desired direction. Other vehicles, in succession from the right, turn and follow at the prescribed distance.

■ 199. BEING IN COLUMN, TO HALT.—The warning signal stop is given by the commander and driver in the leading vehicle. The commander has his vehicle slow down and stop. Other vehicles close to three paces and stop.

■ 200. BEING IN COLUMN, TO FORM LINE.—The commander halts the leading truck six or more paces in rear of the desired line, signals ASSEMBLE, and then extends his arm horizontally indicating the line on which the trucks are to form. The leading truck then moves forward six or more paces (so as to give the truck in rear space to maneuver). Other trucks move to the line and halt.

SECTION IV

DRILL FOR VEHICLES IN MASS FORMATION

(Two or more columns)

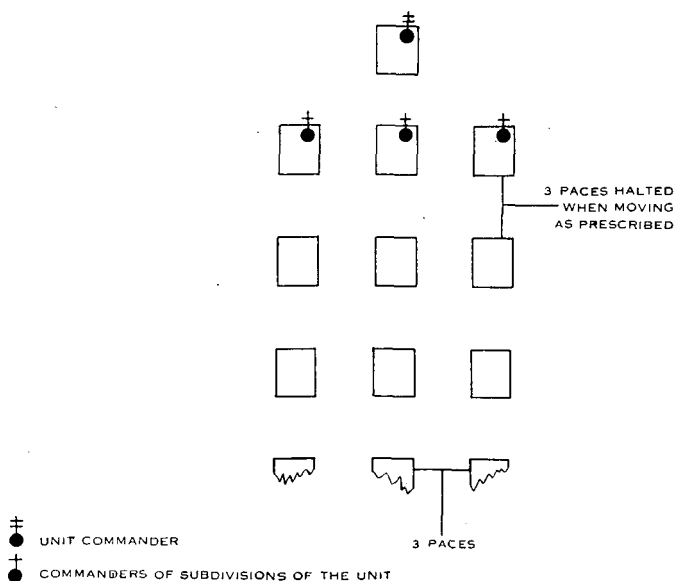

■ 201. GENERAL.—*a.* When a unit consists of two or more subdivisions, the trucks of each subdivision (section or platoon) are formed in parallel lines or columns.

b. The commander's car (or the vehicle in which he rides) takes position six paces in front of the center of the formation.

c. Each column of vehicles should, when practicable, be a complete unit of an organization. For drill and ceremonies, if the subdivisions of an organization vary greatly in size, it is advisable to redistribute vehicles so as to have columns of approximately the same length. The formation should consist preferably of three or four columns so that it may be moved in column of threes or fours. Small units may use two columns and move in column of twos.

d. Each column forms, secures equipment, loads, and maneuvers as is prescribed for a unit in single line or column in section III of this chapter.

e. Vehicles aline themselves to the right in each line.

THE NUMBER OF COLUMNS ABREAST MAY BE TWO THREE OF FOUR, DEPENDING ON THE NUMBER OF SUBDIVISIONS IN THE UNIT OR THE SPACE AVAILABLE FOR ITS FORMATION.

FIGURE 52.—Vehicles in mass formation.

■ 202. TO FORM IN COLUMN OF THREES (OR OTHER NUMBER).—

The commander announces or sends word to the commanders of subdivisions that the unit will form with platoons (or other subdivision) abreast. He places his vehicle in the desired position and the subdivisions (sections or platoons) form successively as shown in figure 52.

■ 203. BEING IN FORMATION WITH SEVERAL COLUMNS ABREAST, TO MOVE FORWARD.—The commander signals FORWARD and causes his vehicle to move forward. Other vehicles follow, extending their distance to 6 paces or to other distance as prescribed.

■ 204. BEING IN FORMATION WITH SEVERAL COLUMNS ABREAST, TO CHANGE DIRECTION.—If at a halt the commander signals FORWARD indicating the direction of march. If moving, the

FIGURE 53.—Being in formation with several columns abreast, to change direction.

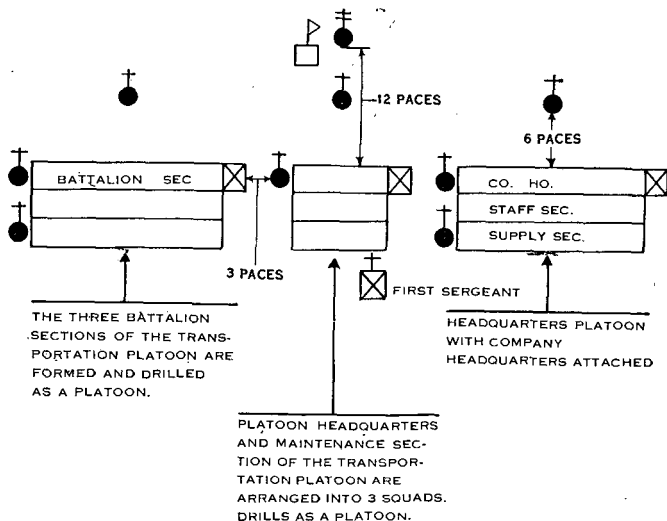

FIGURE 54.—Being in formation with several columns abreast, to form a single column.

change in direction is indicated by the driver's signal, TURN RIGHT or TURN LEFT. The commander causes his vehicle to move in the desired direction. Other vehicles conform. The speed of the vehicles on the outside of the turn is increased.

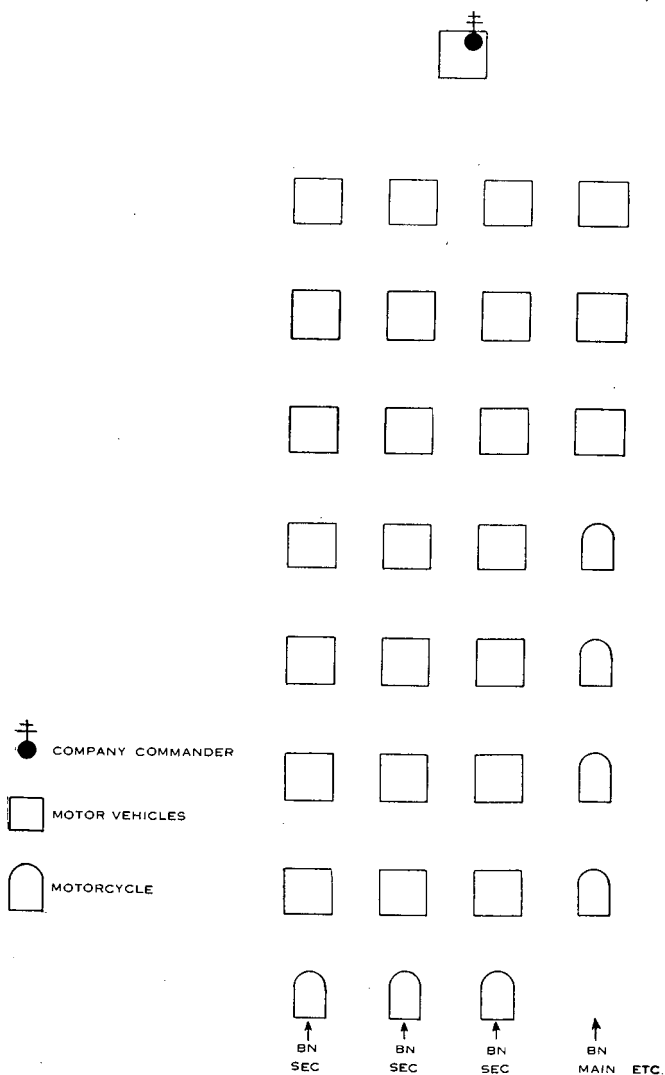

■ 205. BEING IN FORMATION OF SEVERAL COLUMNS ABREAST, TO FORM A SINGLE COLUMN.—*a.* The commander signals or announces COLUMN and points to the column leader who is to lead off. He then moves his vehicle in the desired direction. The leader of the designated column causes his vehicle to follow at the prescribed distance. Other vehicles of that column follow. Other columns follow in succession.

b. If executed while moving, the commander increases the speed of his vehicle. Vehicles in the designated column follow the commander's vehicle at the increased speed. Other trucks continue at the original speed until their turn comes to follow, when their speed is increased to conform to the speed of the vehicles ahead. When the movement has been completed the original speed is resumed.

① Foot elements in line.

FIGURE 55.—Service company.

② Motorized, in mass formation.

FIGURE 55.—Service company.

SECTION V

COMPANY DRILL

■ 206. GENERAL.—*a.* Weapons companies and other motorized units with 8 to 18 vehicles may be formed and drilled as a single unit. Units with large numbers of vehicles, such as service companies, are formed in several subdivisions based on the organization as shown in figure 55 ① and ②.

b. Drill as a company should be directed toward efficient and orderly formation and movement. The essential movements are—

(1) Movement into a mass or other designated formation from a single column.

(2) Movement in mass formation including changes in direction.

(3) Breaking into a single column from mass formation while moving and while at a halt.

c. For ceremonies, the formation and movements should be explained in advance.

■ 207. FORMATIONS.—*a.* Figures 52 to 56, inclusive, give several formations which may be used as a guide. The detailed arrangement of vehicles and the grouping of subdivisions may be modified to meet the requirements of each specific organization.

b. When the company commander is riding in formation in his vehicle, the guidon is flown therefrom. If the guidon is posted with the company commander, dismounted, in line or mass formation, the guidon is one pace to his rear and three paces to his left. In the field it is disposed with the company headquarters' baggage or as otherwise directed.

■ 208. TO FORM COMPANY WITH PERSONNEL AND LOADS IN VEHICLES.—*a.* The men are formed as for foot troops, except that the drivers and other personnel connected with the operation of the vehicles, under the second in command or a designated commander, proceed to the vehicles and bring them to a convenient place for loading.

b. After the company has formed and reports received, the first sergeant with the platoon or other leaders arranges the subdivisions so as to conform to the number of vehicles. Extra men and small headquarters groups are attached to regular squads.

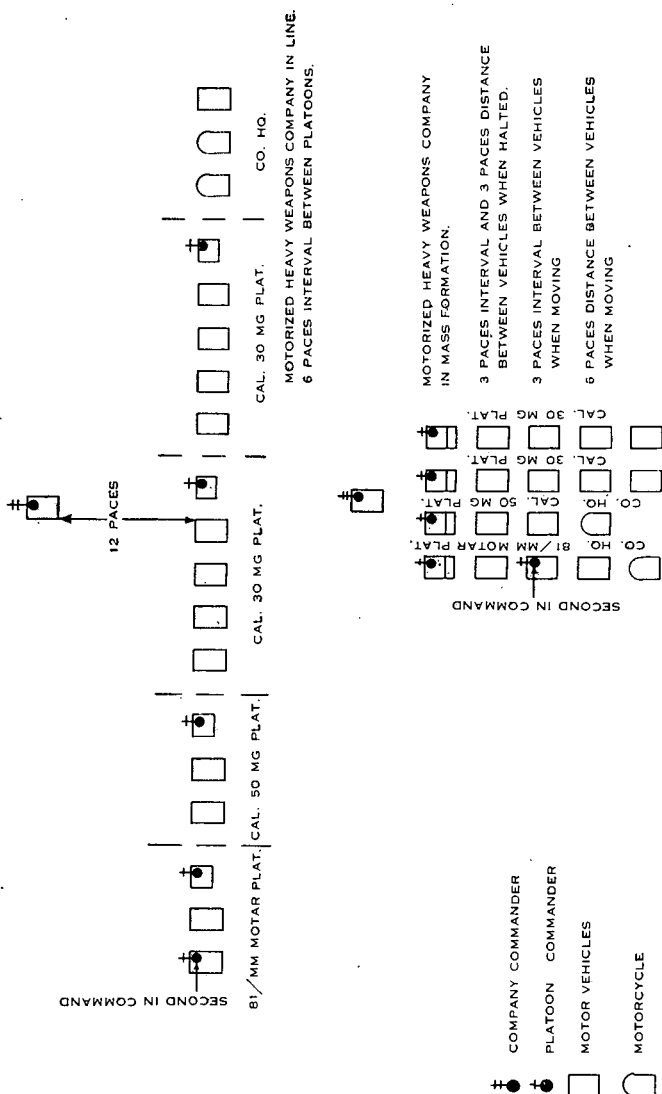

Figure 56.—Battalion heavy weapons company, motorized, in line and in mass formation.

c. At the command **SECURE EQUIPMENT AND FALL IN AT YOUR TRUCKS**, each squad leader conducts his squad to its truck and forms as prescribed in paragraph 166.

d. Loading and unloading are executed as prescribed in paragraphs 167 and 168.

■ 209. **MOVEMENTS.**—*a.* The company, if all vehicles are massed as one unit, drills as prescribed in section IV.

b. If the company is formed into several masses, the company commander gives instructions to the commander of the subdivisions of the company. The leading subdivision starts the movement and other subdivisions conform. The leading subdivision is responsible for maintaining the proper direction and speed. For ceremonies, the company commander places his car at the prescribed distance in front of the center of his company when in march or at a halt. For drill, he moves about so as best to observe the performance of his unit.

■ 210. **TO DISMISS THE COMPANY.**—*a.* The vehicles are unloaded and sent to the park under a designated officer. Transportation personnel remain with the trucks.

b. The remainder of the company may be called to attention, arms inspected, and squad leaders directed to store their equipment and dismiss their squads, or the company may be re-formed as for foot troops, marched to its camp or barracks, and then dismissed.

CHAPTER 8

FORMATIONS OF THE BATTALION AND REGIMENT

	Paragraphs
SECTION I. General-----	211-213
II. The battalion-----	214-217
III. The regiment-----	218-225

SECTION I

GENERAL

■ 211. **GENERAL.**—*a.* The regiment does not drill by command. Its battalions form and march as directed by the regimental commander. When practicable, the formation and movement of the subdivisions of the battalion and regiment should be made clear to subordinate commanders before starting the movement.

b. The battalion drills by command when in mass formation. Such drill is limited to movements for ceremonies where the units of the battalion execute the manual, facings, and marching, as one body at the command of the battalion commander. These movements are executed by the battalion as prescribed for the company.

c. The assembly of units in mass formation is directed by the battalion commander. Each company commander moves his company to its place in the most convenient manner.

d. To assume any formation, the battalion or regimental commander indicates the character of the formation desired, the point where the right (left) of the battalion or regiment is to be, and the direction in which the line or column is to face.

e. Upon completion of the movement ordered by the battalion commander, companies may be given AT EASE until another movement is ordered. In ceremonies, units remain at attention until ordered to stand at ease by the next higher commander.

f. After a battalion is halted, its subdivisions make no movement to correct alinement or position unless so directed by the battalion commander.

g. When a unit is presented to its commander or to a reviewing officer, the officer who presents it faces his unit in giving the commands 1. PRESENT, 2. ARMS. When all elements of his unit are at PRESENT ARMS, he faces to the front and salutes (PRESENT SABER if armed with a saber, or the HAND SALUTE if armed with a pistol). His staff salutes and terminates the salute with him. His guidon or flag bearer (if any) executes and terminates PRESENT GUIDON with his salute.

h. Formations should be such that the squad columns are all either perpendicular to or parallel to the front.

■ 212. COMMANDS AND ORDERS.—The commands or orders of the battalion or regimental commander are given orally, by bugle, by signal, or by means of staff officers or orderlies who communicate the desired directions.

■ 213. STAFF.—a. The staff of a commander forms in his rear in one rank at a distance of one and one-half paces, the second officer in line immediately in rear of the commander. Enlisted personnel form one and one-half paces in rear of the commissioned staff. If only one officer is present, he is

posted one pace to the right and one and one-half paces to the rear of the commander. Staff officers are arranged from right to left generally in order of rank, the senior on the right, but the commander may cause them to be arranged in any order desired by him. Enlisted personnel forming with the staff are posted in the same order from right to left as the officers of the staff, except that the bearer of a general officer's flag is on the right.

b. When necessary to reduce the front of the staff, as in marching, it forms a column of threes under the direction of the senior staff officer and follows the commander.

SECTION II

THE BATTALION

■ 214. FORMATIONS.—Formations for the battalion are shown in figures 57 to 60, inclusive.

a. The band, when attached to the battalion, is posted by the adjutant as indicated in figures 58 and 59.

b. Attached units take position as directed by the battalion commander and conform to the formation and movements of the units of the battalion.

c. In whatever direction the battalion faces, the companies are designated numerically from right to left in line and from head to rear in column; that is, first company, second company, third company.

d. The terms "right" and "left" apply to actual right and left as the troops face.

e. The designation "center company" indicates the right center or the actual center company, according to whether the number of companies is even or odd.

f. Personnel and vehicles of the battalion headquarters detachment may be attached to the weapons company for ceremonies.

g. The battalion commander supervises the formation from such positions as will best enable him to correct alinements, intervals, and distances. With his staff (less the adjutant) he takes post in time to receive the report.

h. Officers armed with a saber in the interior of a mass formation remain at CARRY SABER at all times except when the battalion is at rest or at ease.

i. Any formation or combination of formations may be employed to meet existing conditions of space or purpose.

* COMPANIES FORM ABREAST WITHOUT INTERVAL (FOR A WIDER FRONTAGE COMPANIES MAY FORM WITH THREE PACES INTERVAL.)

VEHICLES OF HEAVY WEAPONS COMPANY WITH BN. HQ. AND RIFLE CO. VEHICLES ATTACHED VEHICLES ARE 3 PACES BEHIND REAR OF FOOT ELEMENTS WHEN HALTED AND 6 PACES WHEN MOVING. 3 PACE INTERVALS AND 3 PACE DISTANCES ARE MAINTAINED BETWEEN VEHICLES WHEN HALTED. THREE PACE INTERVALS AND SIX PACE DISTANCES ARE MAINTAINED BETWEEN VEHICLES WHEN MOVING.

FIGURE 60.—Battalion in mass formation.

■ 215. TO FORM IN LINE WITH COMPANIES IN LINE (FOR CEREMONIES).—*a.* The adjutant indicates the line on which the battalion is to form with two flags, one on each flank. The adjutant takes post on the right of the line and facing down the line.

b. When the band is present, the adjutant causes *Adjutant's Call* to be sounded.

c. Companies are marched from the left flank in column of threes (or fours) to their positions in line, the line of march being sufficiently off the line on which the battalion is to form to permit the expeditious alinement of guides of the right company by the adjutant. As each company arrives at its position, it is halted (taking care to halt in rear of the position it is to occupy), faced to the front, and the company commander orders, **GUIDES ON THE LINE**. At this command, the guide of each platoon moves (at the trail) to his position on the line indicated by the flags and faces the adjutant. The adjutant will aline the guides of the right company accurately; the guides of other companies will cover accurately the guides already on the line, the guides indicating the right of their respective platoons. As soon as the guides have established themselves on the line, the company is alined as prescribed in paragraph 153. The right man of the front rank places himself so that his chest touches the guide.

d. When all units have reached their positions on the line, the band stops playing and the adjutant moves by the most direct route to a position midway between the battalion and the battalion commander and faces the battalion.

e. When all units are dressed, the adjutant commands: 1. **GUIDES**, 2. **POST**. At this command, the guides move to their normal position in ranks.

■ 216. TO FORM IN LINE WITH COMPANIES IN MASS FORMATION (FOR CEREMONIES) (fig. 59).—The procedure is the same as in forming in line except that—

a. Companies are marched from either flank in mass formation to their position in line, the line of march being well in rear of the line on which the battalion is to form. When opposite its place in line, each company executes **COLUMN LEFT (RIGHT)**. As soon as this column movement has been initiated, the company commander orders, **GUIDE OF RIGHT PLATOON ON THE LINE**. At this command, the guide of the right platoon

moves out at the double time to the line indicated by the flags, halts, comes to the order arms, and faces the adjutant. The guide indicates the right of the company.

b. At the command 1. GUIDES, 2. POST, the guides move to their normal positions.

■ 217. TO DISMISS THE BATTALION.—The battalion commander commands: DISMISS YOUR COMPANIES.

a. Each company commander salutes the battalion commander and marches his company to the place of dismissal and dismisses it as prescribed in paragraph 152.

b. The battalion commander then dismisses the staff including enlisted personnel.

SECTION III

THE REGIMENT

■ 218. IN COLUMN WITH BATTALIONS IN COLUMN OF THREES OR FOURS (fig. 61).—For marches, vehicles are grouped and follow the regiment or move as a separate detachment at normal motor speed.

■ 219. IN COLUMN WITH BATTALIONS IN MASS FORMATION.—See figure 62.

■ 220. IN LINE OF BATTALIONS.—The battalions may be—

a. In mass formation (fig. 63).

b. In line of company masses (fig. 64).

■ 221. VARIATION IN FORMATION.—a. Motor vehicles of weapons units may be grouped into one mass.

b. The weapons companies may be grouped into a provisional battalion.

c. Motor vehicles may form in rear of foot troops.

■ 222. TO FORM THE REGIMENT.—a. The regimental commander prescribes the formation, whether it will be with or without vehicles, the place where the regiment is to form, the direction in which the regiment will face, the hour of forming, location of head of column (or right of the line), and the order in column or line of the headquarters, band, battalions, special and attached units, and trains.

b. The regimental commander gives his orders, either orally or in writing. They may be given directly to the officers concerned or may be communicated to them through his staff.

INFANTRY DRILL REGULATIONS

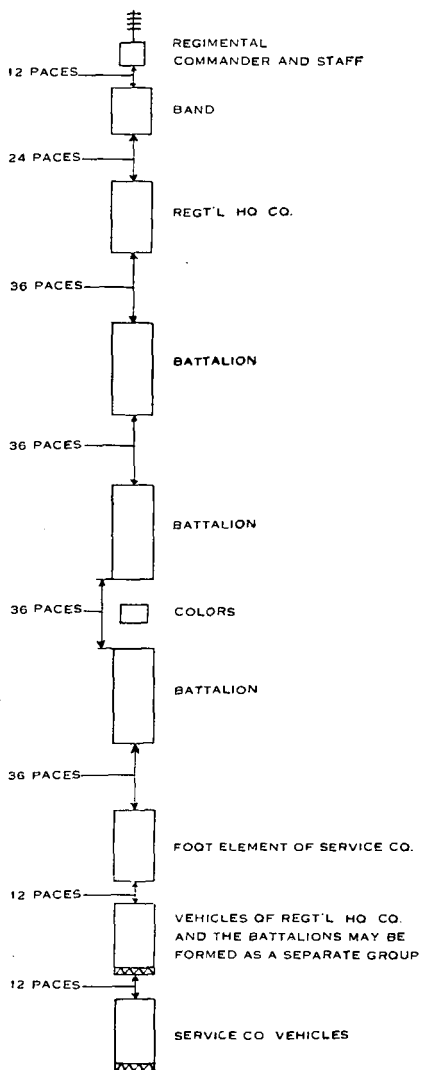

FIGURE 61.—Regiment in column with battalions in column of threes or fours.

FIGURE 62.—Regiment in column with battalions in mass formation.

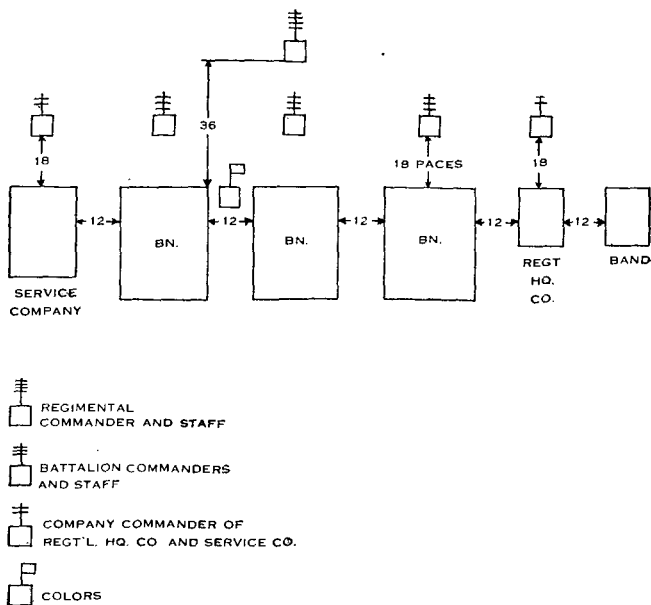

FIGURE 63.—Regiment in line with battalions in mass formation.

c. Before forming the regiment, the regimental commander may cause the positions which are to be taken by the larger elements to be indicated by markers.

d. Battalion commanders and commanders of special and attached units move their commands to the place of formation and dispose them as ordered.

e. Upon arrival at their designated places in the prescribed formation, battalion and special unit commanders report the fact to the regimental commander; if units are combined, the commander thereof reports the arrival of the combined units at their designated place.

f. Battalions and special units are given rest upon arrival at their designated places.

g. For ceremonies, the procedure as described for the formation of a battalion is followed except that battalion adjutants take post on the line on which the regiment is to form at *Adjutant's Call*. Battalion adjutants face down the line

FIGURE 64.—Regiment in line with companies in mass formation.

from position six paces from the point where the right flank of each battalion will rest. When all units of their battalions are on line they move to their posts by the most direct routes.

■ 223. To MARCH.—*a.* The regiment being in any formation, the regimental commander prescribes the formation in which the regiment will march and the route to be followed and puts the command in motion by prescribing the hour, by giving the commands, 1. FORWARD, 2. MARCH, by bugle, or by signal.

b. To march in route column, the regiment is not usually formed and put into march as a unit. Battalion commanders and special and attached unit commanders are informed in orders of the destination, route, hour of starting, initial point, order of march, and, if necessary, the distance between elements. They are held responsible for having their commands take their places in the column at the prescribed times and places.

c. The regiment may be formed for march in route column with the foot elements of the different types of platoons and companies in columns of threes or fours in accordance with the formations indicated in figures 35 and 44. If requirements of road space, air defense, or other considerations render it desirable, the foot elements of all platoons and companies within the regiment may be formed in column of threes, in column of twos on one side of the road, or in column of twos with single files on each side of the road.

■ 224. To HALT.—To halt the regiment, the regimental commander may either prescribe the hour when the column will be halted or he may give the command or signal HALT.

■ 225. To DISMISS THE REGIMENT.—To dismiss the regiment, the regimental commander orders the battalion and special and attached unit commanders to dismiss their organizations. The order may be given directly to the commanders concerned or it may be communicated to them through staff officers or messengers.

SECTION I

REVIEWS AND PRESENTATION OF DECORATIONS

■ 226. ELEMENTS OF A REVIEW.—A review consists of four parts:

- a. Formation of troops.
- b. Presentation and honors.
- c. Inspection (passing around the troops).
- d. March in review.

■ 227. COMMANDER OF TROOPS.—The senior officer present in the ceremony is designated as commanding officer of troops. He is responsible for the formation, presentation, and march in review. A commander reviewing his own troops designates some other officer as commanding officer of troops. When the review is given for a visiting higher commander or civilian dignitary, the local commander designates a commanding officer of troops so that he may accompany and receive the review with the visitor.

■ 228. PREPARATIONS.—The line on which the troops are to form and along which they are to march is marked out or otherwise designated. The post of the reviewing officer is marked with a flag which will be placed opposite the center of the line of troops.

■ 229. FORMATIONS.—a. Any of the formations prescribed for the battalion or regiment may be used. Such formation may be modified to meet the local situation. The formation used depends on the space available and the formation in which the units are to pass in review. When practicable, the formation selected should have all squad columns either perpendicular or parallel to the line on which the troops form.

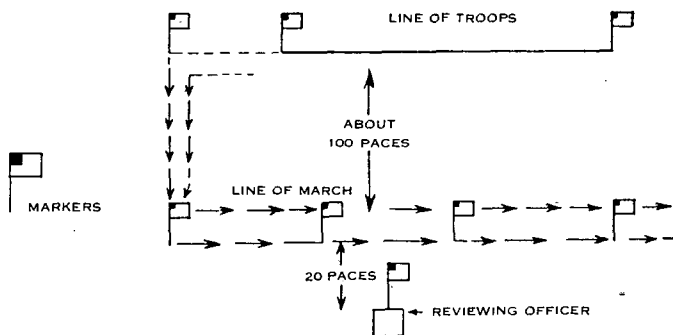

FIGURE 65.—To illustrate paragraph 228.

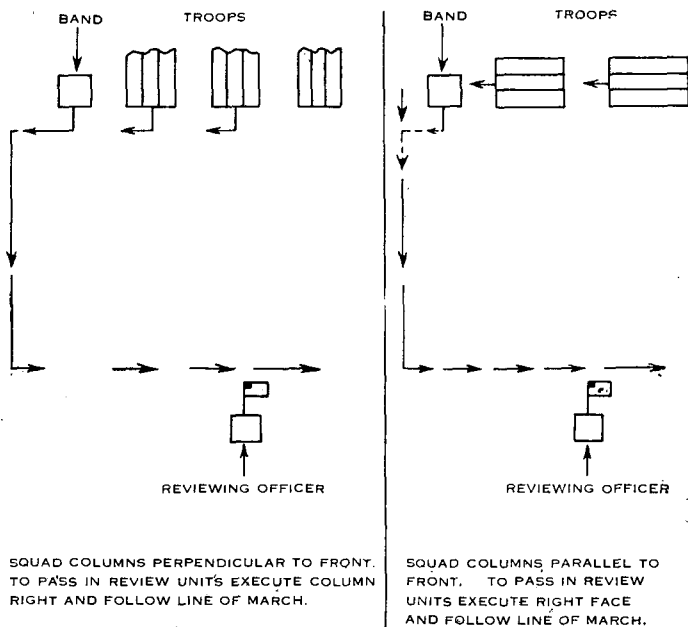

FIGURE 66.—To illustrate paragraph 229.

b. The following is a list of normal review formations (may be modified to meet local conditions):

- | | <i>Approximate
frontage</i> |
|---|---------------------------------|
| (1) For a battalion: | |
| (a) Battalion in line with companies in mass formation (fig. 59)----- | 100 paces |
| Companies in extended or with mass formation (fig. 37)----- | 130 paces |
| Troops pass in review in company mass formation. | |
| (b) Battalion in line with companies in line (fig. 58)----- | 400 paces |
| Troops pass in review in column of threes (or fours). | |
| (2) For a regiment: | |
| (a) Regiment in line with companies in mass formation (fig. 64)----- | 340 paces |
| Troops pass in review in company mass formation. | |
| (b) Regiment in line with battalions in mass formation (fig. 63)----- | 150 paces |
| Troops pass in review in battalion mass formation. | |
| (3) Two or more regiments: | |
| Regiments in line with each regiment in line of battalion masses. | |
| Troops pass in review in battalion mass formation. | |

c. In reviews of a regiment or larger group, especially when troops pass in review in mass formation, special arrangements are made to provide for breaking up into march columns after troops have passed the reviewing officer. This may be done by assigning areas which do not block the line of march into which different units can move while still in mass formation.

■ 230. FORMATION FOR REVIEW.—a. Battalions and regiments are formed as prescribed. In reviews in which two or more arms are present the troops are arranged *as directed by the commander of troops*. The following order, from right to left in line, may be used as a guide: infantry regiments and other units which contain foot troops; horse cavalry; horse artillery; motorized artillery; tanks and mechanized cavalry; motorized service units. In each category the units are arranged in order of the rank of their commanders.

b. Troops move to position in the most convenient manner. In large reviews, the commanding officer of troops prescribes the routes and time of arrival. If the frontage of units has been measured and marked, they may arrive in any convenient order and occupy their place in line. If this is not done, units must form successively from the right. The former method is preferable in large mixed commands.

c. When commanders are mounted in motor vehicles, they dismount and take posts as prescribed or as directed from the time their units arrive on the line until the command **PASS IN REVIEW**.

d. (1) When all units are formed and alined, the troops are presented to the commander of troops by a designated staff officer. The commander of troops and his staff take position so as to be in front of the post of the reviewing officer, midway between the line of the next lower commanders in the formation and the post of the reviewing officer if not already in such position.

(2) If the formation contains more than one regiment, the regimental commanders direct their regiments to present arms starting with the center (or right center) regiment and continuing simultaneously toward both flanks. If the formation consists of a single regiment, the same principle is followed. Battalions execute **PRESENT ARMS**, **ORDER ARMS**, or other movements of the manual at the commands of the battalion commanders. If the formation consists of a single battalion, it presents arms at the command of the adjutant.

(3) The commander of troops returns the salute of the staff officer who presented the command and directs him to take his post. He then draws saber (if so armed) and brings the command to the order and gives **REST** or **AT EASE**. The commander of troops and his staff then form so as to face the post of the reviewing officer.

(4) Staff and orderlies salute only when the command is presented to the reviewing officer. At other times they stand at attention at **ORDER ARMS**.

■ 231. **REVIEWING PARTY.**—a. When the formation has been completed, the reviewing officer with his staff and orderlies moves to his position opposite the center of the line of troops to receive the review.

b. The local commander (if not acting as commander of troops), distinguished civilians invited to accompany the re-

viewing officer, staffs, and enlisted personnel take positions facing the troops as shown in figure 67 with one and one-half paces distance between ranks. When an organization is to be reviewed before an inspecting or other officer junior in rank to the local commander, the latter takes position on the left of the local commander.

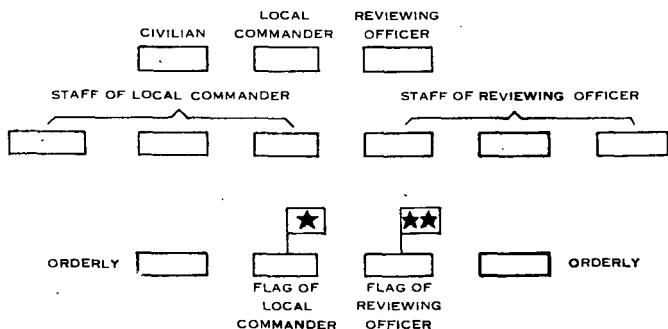

FIGURE 67.—The reviewing party.

c. An officer from the local staff is designated to escort distinguished civilians and to indicate to them their proper places. If a civilian is to receive the review, he takes position on the right of the local commander and, if necessary, timely explanation of the ceremony is made to him. The reviewing party is mounted only when the commander of troops is likewise mounted. When the commander of troops is in a motor vehicle, the reviewing officer receives the review on foot.

■ 232. PRESENTATION AND HONORS.—a. As the reviewing officer moves to his position, the commander of troops brings his command to attention. Troops come to attention at the commands of their respective battalion commanders.

b. When the reviewing officer is in position, the commander of troops faces his troops and directs PRESENT ARMS, which is executed in the same manner prescribed in paragraph 230. When all units have come to PRESENT ARMS, he turns about and salutes the reviewing officer. His staff and orderlies salute with him. When the honors are completed, the commander of troops terminates his salute (his staff conforming) and brings the troops to ORDER ARMS. If the formation consists of more than one battalion, he orders AT EASE.

c. The band (or a designated band near the center of the command, if more than one band is present) or field music then sounds the honors.

d. When artillery is present in the review and when the commander of troops deems it practicable, a salute may be fired. The first gun is fired with the first note of the honors. The detachment firing the salute rejoins its unit after the salute is fired. The salute may be fired for those entitled to a gun salute in addition to the salute provided in AR 600-25 for visiting officials. Its use should be limited to special ceremonial occasions and when the presence of civilian spectators makes desirable an especially impressive ceremony.

e. When the grade of the reviewing officer entitles him to the honor, each regimental color salutes with its command.

f. The reviewing officer, his staff, and all military spectators salute at the first note of the music and retain the salute until music and gun salute are completed.

g. *Honors.*—The officials named below will be rendered salutes and honors as follows:

	Guns. salute	Ruf- fles and flour- ishes	Music	Cross reference to AR 600-30

Vice consuls or consular agents accredited to the United States.	5			

■ 233. INSPECTION.—*a.* The reviewing officer and his party move forward to the commander of troops. The two exchange salutes. Staffs do not salute. The commander of troops then conducts the reviewing party around the formation, beginning with the unit on the right of the line and passing in front of the line and then back around the rear of the formation. While passing around the troops, the reviewing officer may direct that his staff, flag, and orderlies remain at the post of the reviewing officer, or that only his personal staff and flag accompany him. The commander of troops and the local commander accompany the reviewing officer while he passes around the troops and march on that side of the reviewing officer which is away from the troops. The staffs of the commander of troops, of the local commander (if present), and of the reviewing officer follow, each staff following its own commander in column of files. In passing around the troops, the staffs maintain the formation

in which they commence their march. If the inspection is to be made in motor cars, the reviewing party enters cars which drive up to the post of the reviewing officer after completion of the honors. One seat in each car on the side away from the troops during the inspection is left vacant. The cars move to the post of the commander of troops. The commander of troops enters the car with the reviewing officer. A staff officer enters each of the other cars. Orderlies and flag remain at their posts.

b. The reviewing officer makes such general inspection of the command as he may desire while passing around the troops. A detailed inspection is not a part of the ceremony of review.

c. The band of an organization plays while the reviewing officer is in front or rear of the organization.

d. If the formation is standing at ease, each company or massed unit is brought to attention as the reviewing party approaches.

e. As the reviewing party approaches each front line company or battalion (if the battalion is in mass formation), its commander gives the commands, 1. EYES, 2. RIGHT. The men execute EYES RIGHT and as soon as the reviewing officer comes into their line of vision they follow him with their eyes, turning the head, until the reviewing officer reaches their front when the head and eyes of each man, individually, remain fixed to the front.

f. On arriving again at the right of the band after passing around the line, the commander of troops salutes the reviewing officer and halts (or dismounts from his car). The reviewing officer and the commander of troops with their staffs then return to their respective posts.

■ 234. TO MARCH IN REVIEW.—*a.* When the reviewing party is again in place, the commander of troops commands: PASS IN REVIEW. At the command PASS IN REVIEW, the band of the right unit changes direction, if necessary, and halts.

b. When the band has halted, the commander of the unit next to the band gives the command to put the troops in march in the formation designated for the review. Troops pass in review in quick time only.

c. Other units move out in succession so as to follow at the prescribed distance.

d. The band and each unit change direction at the points indicated without command from the commander of troops. At each change of direction the commander of each mass formation (company or battalion) in turn commands: 1. COLUMN LEFT, 2. MARCH, 3. FORWARD, 4. MARCH. The third and fourth commands are given so that the unit steps off at full step when the change of direction is completed.

e. Regimental commanders and battalion commanders move into position in the column at the head of their troops after the first change of direction.

f. The commander of troops moves in to position at the head of the column after the second change in direction.

g. Each commander, when he arrives six paces from the front of the reviewing officer, salutes. He terminates the salute when his staff has passed six paces beyond the reviewing officer. His staff salutes and terminates the salute with him.

h. Each band executes COLUMN LEFT when it has passed the reviewing officer. It executes a second COLUMN LEFT and a third COLUMN LEFT so as to place the band in front of and facing the reviewing officer and at least 12 paces from the left flank of the marching troops. It continues to play until the regiment has passed. It then ceases playing and follows in rear of its regiment. The band of the following regiment commences to play as soon as the preceding band has ceased. In large commands, two bands may remain alongside of each other after they have turned out of column to alternate in playing the troops by. Such an arrangement is necessary to rest the musicians if the playing of march music is to be long continued. In large commands, bands may be massed and posted as directed by the commander of troops as another alternative.

i. Each company commander (or the senior company commander if the battalion is in mass formation), when six paces from the front of the reviewing officer, without turning his body, commands: 1. EYES, 2. RIGHT; 3. READY, 4. FRONT. He gives the command RIGHT when he is six paces from the front of the reviewing officer, and the command FRONT when the rear of his unit has passed six paces beyond the reviewing officer. He brings his saber to the first position of PRESENT SABER at the command EYES and to the second position at the command RIGHT. He resumes the carry at the command

FRONT. In each company or mass formation the men on the right do not execute EYES RIGHT.

j. When passing in review, at the commands 1. EYES, 2. RIGHT, the following salute:

(1) The officer who gives the command and his staff execute PRESENT SABER (OR HAND SALUTE if armed with pistol). Orderlies execute HAND SALUTE. Guidon or flag bearers execute PRESENT GUIDON. They all terminate the salute (or come to carry saber or guidon) with the commander.

(2) In battalion mass formation at the commands 1. EYES, 2. RIGHT, company commanders and officers in the front rank of the mass execute PRESENT SABER (OR HAND SALUTE if armed with pistol). No others salute.

(3) In a company not part of a battalion, mass formation platoon leaders execute PRESENT SABER (OR HAND SALUTE if armed with pistol).

(4) All terminate the salute at the command FRONT. Those with saber or guidon return to the carry.

(5) The band leader and the drum major execute and terminate the salute at the points prescribed for other commanders.

(6) If the reviewing officer is entitled to a color salute, the regimental color salutes when at six paces from his front and is raised when at six paces beyond him.

k. Troops march in review with the guide toward the flank on which the reviewing officer is posted.

l. After saluting the reviewing officer in passing in review, the commander of troops turns out of the column and takes post on the side of the reviewing officer toward the direction of march of the command, and returns saber. The members of his staff accompany him, take post on the corresponding side of the reviewing officer's staff, and return saber with him. When the rear element of his command has passed, the commanding officer of the troops, without changing his position, salutes the reviewing officer with the hand salute. He and the members of his staff then rejoin the command. If the person reviewing the command is not mounted, the commanding officer and his staff, on turning out of the column after passing the reviewing officer, dismount preparatory to taking post. In such case the salute of the commanding officer, prior to rejoining his command, is made before remounting. If the commanding officer and his staff are in motor

cars, the cars are parked on the side of the reviewing officer toward the direction of march and in rear of the lines occupied by the reviewing officer, the commanding officer, and their staffs.

m. All individuals at the reviewing stand salute the color as it passes. When passing around the troops, the reviewing officer and those accompanying him salute the color when passing in front of it.

n. The reviewing officer returns the salute of the commanding officer of the troops and the salutes of subordinate commanders down to include the battalion commanders. Those who accompany the reviewing officer do not salute.

o. A review is ordinarily held on occasions of the presentation of decorations or of the decoration of the colors. After the reviewing officer has passed around the line and resumed his post, the commanding officer of the troops from his own post commands (or orders, or signals): 1. PERSONS TO BE DECORATED AND ALL COLORS, CENTER, 2. MARCH. At the command MARCH, persons to be decorated and all colors move by the most direct route and take post as follows:

(1) The persons to be decorated in a single rank in the center of the command and 10 paces in front of the line of company commanders according to the rank of the decorations to be conferred. Those receiving similar awards take position in accordance with their military rank.

(2) Colors to be decorated in single rank five paces in front of the center of the line of persons to be decorated in groups according to rank of decoration to be bestowed, highest ranking decoration on the right.

(3) All other colors with color guards in single rank five paces in rear of the center of the persons to be decorated and in the same relative position as their location in the command.

(4) The commander of troops takes post five paces in front of the center of the leading element. He then commands: 1. FORWARD, 2. MARCH. At the command MARCH, the commanding officer, the persons to be decorated, and the colors advance, the band playing. The commander of troops marches on the reviewing officer. In all ranks the guide is center. The detachment is halted by the commander of troops when he has reached a point 10 paces from the reviewing officer by the commands: 1. DETACHMENT, 2. HALT. He

then salutes the reviewing officer and reports, "Sir, the persons (colors) to be decorated are present." The reviewing officer returns the salute and directs that the command be presented. The commander of troops returns to his post in front of the center of his command by moving around the right flank of the persons or colors to be decorated and then directly to his post. On reaching his post he commands: **PRESENT ARMS**, faces about, and salutes. The band then plays the *National Anthem*. If only field music is present, it sounds *To the Color*. On completion of the music, the commanding officer of the troops brings the command to the order. If the formation consists of more than one battalion, he directs **AT EASE**. The persons to be decorated salute and terminate the salute at the commands of **PRESENT ARMS** and **ORDER ARMS** given by the commander of troops.

(5) A designated staff officer then reads the order announcing the awards. After the reading of the order, the reviewing officer, accompanied if necessary by his staff or designated members thereof, advances to the colors and to the line of persons to be decorated, fastens the appropriate streamer to the staff of the color, and pins the decoration awarded on the left breast of each person. He then directs the commanding officer of the troops to march the command in review and resumes his post. The persons decorated form line on the left of the reviewing officer or as otherwise directed, and the colors return to their posts by the most direct route.

SECTION II

ESCORTS

■ 235. **ESCORT OF THE COLOR.**—*a.* The regiment being in line, the regimental commander details a company to receive and escort the national color to its place. For this ceremony the regimental color forms with the color guard at its post with the regiment.

b. The band moves straight to its front until clear of the line of battalion commanders, changes direction if necessary, and halts. The designated company forms column of threes or fours 15 paces in rear of band with the color bearer in rear of leading platoon. The escort then marches without music to the regimental commander's office or quarters and forms line facing the entrance. The color bearer, preceded

by the senior lieutenant and followed by a sergeant of the escort, obtains the color.

c. When the color bearer returns, followed by the lieutenant and the sergeant, he halts before the entrance, facing the escort. The lieutenant places himself on the right and the sergeant on the left of the color bearer. The escort then presents arms and the field music sounds *To the Color*. The lieutenant and the sergeant salute at the command of the company commander. Arms are brought to the order; the lieutenant and the sergeant return to their posts. The company is formed in column, the band taking post in front of the column. The color bearer places himself in the center of the space in rear of the leading platoon. The escort then marches back to the regiment, the band playing. The march is conducted so that the escort arrives at a point about 50 paces in front of the right of the regiment and then passes parallel to its front. When the color arrives opposite the center of the regiment, the escort is formed in line facing the regiment. The color bearer moves to a position six paces in front of the regimental commander.

d. The color bearer having halted, the regimental commander, who, prior to the arrival of the color bearer, has taken post 30 paces in front of the center of the regiment, turns about and brings the regiment to PRESENT ARMS. The regimental commander then turns to the front and salutes. The field music sounds *To the Color* when the regimental commander salutes. The regimental commander then turns about and brings the regiment to the order and the color bearer moves to his post beside the regimental color bearer. The escort executes PRESENT ARMS and ORDER ARMS at the command of its commander who then forms it in column to the right and, preceded by the band, marches it to its place, passing around the left flank of the regiment. The band plays until the escort passes the left of the line. The band then returns to its post on the right, passing in rear of the regiment. The regiment may be given the command REST when the escort passes the left of the line.

e. Escort of the color is executed by a battalion according to the same principles as for a regiment.

■ 236. ESCORT OF HONOR.—a. Escorts of honor are detailed for the purpose of receiving and escorting personages of high

rank, civil or military. The troops detailed for this duty are selected for their soldierly appearance and superior discipline.

b. The escort forms in line, opposite the place where the personage is to present himself, the band on the flank of the escort toward which it is to march. On the appearance of the personage, the escort will be brought to attention and, when he has taken position from which to receive them, the honors due his rank will be rendered. Ordinarily the person so honored will inspect his escort. The escort then forms column and takes up the march. The personage with his staff or retinue takes position in rear of the column. When the personage leaves the escort, line is again formed, and, when he has taken position from which to receive them, the same honors are rendered as on his arrival.

c. When the position of the escort is at a considerable distance from the point where the personage is to be received, for instance, where a courtyard or wharf intervenes, a double line of sentinels, facing inward, is posted from that point to the escort. The sentinels successively salute as the personage passes.

d. An officer is designated to accompany the personage.

SECTION III

PARADES

■ 237. CEREMONIAL PARADE.—a. This parade is the same as a review except that the appearance and movement of troops in formation are the primary considerations. For this reason the troops usually form without heavy weapons or transportation, and all companies form and execute the movements prescribed for foot troops. Small headquarters companies and detachments are attached to larger units. The march to the initial formation is made to music (band, bugles, or drums). Escort of the color (par. 235) or the presentation of decorations (par. 234 o) may be included in a ceremonial parade after the troops have been presented to the reviewing officer.

b. At evening parade, as soon as the troops are formed and brought to present arms, the commander of troops commands: SOUND RETREAT (or gives a signal to the band or bugles). The bugles sound *Retreat* and immediately afterward the band plays the *National Anthem* (if no band is present the bugles sound *To the Color*). When the eve-

ning parade is held on an Army post, the evening gun is fired at the last note of retreat and the post flag is lowered as the band plays the *National Anthem*.

c. The commanding officer of troops remains facing the troops and salutes at the first note of the *National Anthem*. At the last note of the *National Anthem* he faces the reviewing officer and salutes him. The reviewing officer returns the salute. The commanding officer of troops brings the troops to ORDER ARMS and the ceremony proceeds as for a review except that the reviewing officer does not inspect or pass around the troops.

■ 238. STREET PARADES.—a. For street parades, troops are formed and marched in the most convenient manner. Street parades may include transportation. Weapons transportation with the weapon towed or set up in the vehicles when practicable adds to the effect of a street parade. Cargo vehicles are included only when it is desired to increase the size of the display.

b. Among the formations which may be used for street parades are column of threes or fours; two or more columns of threes or fours abreast; mass formation.

c. Transportation marches in single column or column of twos, threes, or fours as the street width permits.

d. In long street parades, rifles may be carried slung over the right shoulder with bayonets fixed.

SECTION IV

INSPECTIONS

■ 239. GENERAL.—The company is the basic unit for inspection. Battalion, regimental and higher commanders or inspecting officers should inspect each company in its own area or have each company march to a designated place at a specified time, for inspection. Under special conditions an entire battalion or regiment may be formed and inspected in one large formation.

■ 240. COMPANY INSPECTION.—a. *Formation*.—The company forms in line or in an inspection formation of column of platoons as described in paragraph 241. If transportation is to be included in the formation it forms in line three paces in rear or as directed. Drivers of motor vehicles remain

with their vehicles. Drivers and mule leaders of animal transportation stay with their animals. Drivers or animal leaders lay out their equipment as directed. Transportation may be inspected separately from the foot elements as directed.

b. Procedure.—(1) The company being in column of platoons (par. 241) the company commander commands: **PREPARE FOR INSPECTION**. At this command, platoon leaders cause ranks to be opened. They then place themselves, facing to the front, three paces in advance of the right flank of their platoons.

(2) Ranks having been opened, the company commander commands: **REST** and returns saber. He then inspects the company. During the inspection, officers, noncommissioned officers, and guidon bearers not in ranks come to attention at **ORDER ARMS** as the inspecting officer approaches, and after being inspected resume the position of **REST**. The company commander may direct the second in command and/or the first sergeant to join him and take down notes as he inspects. The company commander, commencing at the head of the column, then makes a minute inspection of the arms, equipment, dress, and appearance of the personnel of the company. As he approaches each platoon, its leader brings the platoon to attention and salutes. As soon as inspected, the platoon leader returns saber, places himself on the right of the company commander, and accompanies him throughout the inspection of the platoon.

(3) The inspection is made from right to left in front and from left to right in rear of each rank.

(4) Each man executes **INSPECTION ARMS** as the company commander or inspecting officer reaches his position.

(5) The company commander takes the rifle, grasping it with the right hand just above the lower band, the man dropping his hands. He inspects the rifle and, with the hand and rifle in the same position as in receiving it, hands it back to the man, who takes it with the left hand at the balance and executes **ORDER ARMS**.

(6) Should the piece be inspected without handling, each man executes **ORDER ARMS** as soon as the company commander has passed to the next man.

(7) A man armed with the automatic rifle executes **INSPECTION ARMS** as the company commander reaches his posi-

tion. The inspection completed, he pulls the trigger, replaces the magazine, and resumes the position of the soldier, the automatic rifle being slung.

(8) Enlisted men armed with the pistol execute INSPECTION PISTOL. When the company commander has passed, they execute RETURN PISTOL.

(9) Upon completion of the inspection of each platoon, its leader takes his post, faces down the line, and commands: 1. CLOSE RANKS, 2. MARCH, and adds REST after ranks have been closed. He then takes his post in front of the center of the platoon.

(10) The company commander may direct the platoon leaders to make the detailed inspection of arms or other equipment of the men of their platoons.

■ 241. INSPECTION OF PERSONAL FIELD EQUIPMENT WHILE IN RANKS.—The company forms in column of platoons (with each platoon in line) by forming extended mass formation to the right at 24 paces (par. 156 and fig. 37) and then executing LEFT FACE. The company commander, after the inspection of arms has been completed in a platoon, causes that platoon to take interval and prepare for inspection of equipment. Intervals having been taken, the platoon leader commands: 1. UNSLING EQUIPMENT, 2. DISPLAY EQUIPMENT.

a. At the command UNSLING EQUIPMENT, each man draws his bayonet and with his left hand thrusts it into the ground, ring to the front, the bayonet outside of and against his left heel near the instep to mark the line for the rear edge of equipment when displayed. Men not armed with the rifle mark the place with the left heel. Each man then lays his rifle on the ground, muzzle to the front, barrel to the left, butt near the toe of his right foot, unslings his equipment and places it on the ground at his feet, haversack to the front, the pack one foot in front of his toes.

b. At the command DISPLAY EQUIPMENT, packs are opened and equipment displayed as prescribed in paragraph 15, chapter 3, Basic Field Manual, volume I. Equipment is displayed in the interval to the left of each man. When equipment is displayed, each man resumes his original position in ranks.

c. The company commander then passes along the ranks as before, inspects the equipment, and directs the platoon leader to have packs rolled and the platoon assembled. The platoon leader then commands: ROLL PACKS.

d. Each man assembles his equipment and, leaving the equipment in its position on the ground at his feet, resumes the position of **ATTENTION**.

e. All equipment being assembled, the platoon leader commands: **SLING EQUIPMENT**.

f. Packs are slung and belts fastened and rifles taken.

g. The platoon leader then causes the platoon to assemble. The inspection is completed as already explained.

h. In units which have special combat equipment such as machine guns, mortars, signal or command post equipment, the company commander, after packs have been opened (or after the individual inspection has been completed), directs **LAY OUT MACHINE GUN (MORTAR OR OTHER) EQUIPMENT FOR INSPECTION**. Gun squads under the direction of their leaders break ranks and lay out their weapons and accessories for inspection as prescribed in the gun drill for the weapon. Headquarters personnel lay out the fire-control, communication, or other combat equipment. The gun or equipment is laid out in rear of its vehicle. If no transportation other than that drawn by hand is present, the equipment is displayed three paces from the flank of each squad on the side from which interval was taken. The rear of the equipment is placed on line with the rear edge of the individual field equipment.

■ **242. BATTALION INSPECTION.**—*a.* The battalion is formed in column of companies, each company being formed as prescribed for the company. Any other convenient formation may be used. Before the inspection, the battalion commander indicates whether heavy weapons and special equipment are to be laid out for inspection or left on their transportation.

b. The headquarters, rifle, and weapons units are prepared and inspected in the manner prescribed for the company.

c. The battalion being in column of platoons, with all personnel dismounted, the battalion commander commands: **PREPARE FOR INSPECTION**. At this command each company and the band, if present, are prepared for inspection. Buglers rejoin their companies. The color bearer and the color guard proceed to the head of the column and take position three paces in rear of the staff.

d. The battalion commander then commands: **REST**, returns saber, and inspects his staff and the color guard. When

the battalion commander approaches the staff, the officers, without command, come to attention at ORDER SABER. When they have been inspected, they return saber and accompany the battalion commander. As the battalion commander approaches the color guard, the color bearer commands: 1. COLOR GUARD, 2. ATTENTION. The color guard may be dismissed as soon as inspected.

e. The battalion commander commencing at the head of the column makes an inspection of the arms, accouterments, dress, and appearance of the personnel of the band and of the several companies.

f. When the inspection of the band has been completed, it may be dismissed or it may take position at the rear of the column and play during the inspection.

g. As the battalion commander approaches each company, its commander faces toward it and commands: 1. COMPANY, 2. ATTENTION, faces to the front, and salutes. As soon as he has been inspected, the company commander faces about and commands: REST, returns saber, and accompanies the battalion commander. The inspection proceeds as prescribed for company inspection.

h. The battalion commander may direct the company commanders to make the detailed inspection of the arms or other equipment of their companies. He may require officers of his staff to assist in the inspection, especially by checking equipment.

i. When a company has been inspected, the battalion commander directs that it be dismissed or otherwise occupied.

j. When desired, the battalion commander may cause companies not under inspection to stack arms, fall out, and resume their places in time to be inspected.

k. If the inspecting officer is an officer other than the battalion commander, the latter prepares the battalion for inspection as prescribed in the preceding paragraphs. Upon the approach of the inspecting officer, the battalion commander brings the battalion to attention, faces to the front, and salutes. The inspecting officer inspects the battalion commander who then commands: REST, returns saber, and accompanies the inspecting officer. The inspection then proceeds as previously prescribed.

SECTION V

FUNERALS

■ 243. GENERAL.—*a.* Military funerals are divided into three classes as follows:

(1) With chapel service, followed by march to the grave (or place of local disposition), with the prescribed escort.

(2) Without chapel service, but with funeral procession forming at the entrance to the cemetery or at a point within a reasonable marching distance therefrom.

(3) With graveside service only.

b. A full military funeral normally consists of the following elements:

(1) Band.

(2) Escort appropriate to the grade of the deceased, including firing party and bugler (AR 600-30).

(3) Colors.

(4) Clergy.

(5) Caisson and casket bearers.

(6) Caparisoned horse (if the deceased was mounted).

(7) Honorary pallbearers.

c. The services of an Army chaplain will be provided unless otherwise requested by the family of the deceased or its representative. A civilian clergyman may be substituted for or act in conjunction with the Army chaplain. The desires of the family are paramount and will be given the fullest consideration as to the selection of elements involved, but the funeral will be conducted in accordance with these regulations.

d. The commanding officer or his representative will assist in making funeral arrangements and will supervise the conduct of the funeral.

e. The selection of honorary pallbearers, if they are desired, will be made by the family of the deceased, or its representatives, otherwise by the commanding officer.

f. At a military funeral, all persons in the military service in uniform or in civilian clothes, attending in their individual capacity, will stand at attention uncovered and hold the headdress over the left breast at any time when the casket is being moved by the casket bearers and during services at the grave, including the firing of volleys and the sounding of *Taps*. During the prayers, they will also bow their heads.

In cold or inclement weather, they will remain covered and execute the hand salute at any time when the casket is being moved by the casket bearers and during the firing of volleys and sounding of *Taps*.

g. Whenever arms are presented at a military funeral of a person entitled to personal honors, the prescribed ruffles and flourishes will be sounded, followed immediately by the *National Anthem (To the Colors)* if only field music is present, or the march prescribed for the grade of the deceased, *except* where arms are presented at the close of the benediction at the grave.

h. The word "chapel" as used herein is interpreted to include the church, home, or other place where services are held, exclusive of the service at the grave.

i. The word "casket" is interpreted to include the receptacle containing the cremated remains of the deceased.

■ 244. WITH CHAPEL SERVICE.—*a.* Prior to the beginning of the service, the funeral escort is formed in line opposite and facing the chapel, the band on the flank toward which it is to march.

b. Members of the immediate family, relatives, and friends of the deceased will be requested to enter the chapel and be seated before the casket is taken in. Members of the immediate family and relatives should occupy front seats on the right of the chapel.

c. The conveyance bearing the remains to the chapel should arrive in front of the chapel a few moments before the time set for the chapel service. When all is in readiness to move the casket into the chapel, the commander of the escort will bring the escort to ATTENTION and command: 1. PRESENT, 2. ARMS. At the command ARMS, the band plays an appropriate air; the casket is removed from the conveyance by the casket bearers and carried between the ranks of honorary pallbearers, if present, into the chapel. When the casket has been carried into the chapel, the band ceases playing. The escort is then brought to the ORDER and may be permitted to stand at ease.

d. If honorary pallbearers are present, they will be formed in two ranks (each facing the other) forming an aisle from the conveyance to the entrance of the chapel. At the first note of the music and while the casket is being borne between ranks of honorary pallbearers, they will stand at ATTENTION,

uncovered, and hold the headdress over the left breast. In cold or inclement weather, they will remain covered and will execute the **HAND SALUTE**. They will then follow the casket in column of twos and occupy pews to the left front.

e. When the casket has been placed upon the church truck, the casket bearers will form behind the honorary pallbearers and be seated behind them to the left front of the chapel. If there are no honorary pallbearers, the casket bearers will follow the casket in a column of twos and be seated as indicated above. Upon completion of the chapel service, the casket bearers will follow the honorary pallbearers or, if none are present, the chaplain, to the entrance of the chapel.

f. Upon completion of the chapel service, the honorary pallbearers will follow the chaplain in column of twos as the casket is moved to the entrance of the chapel. They will again form an aisle from the entrance of the chapel to the caisson or hearse and proceed as prescribed in *d* above. When the casket has been placed on the caisson they will, if marching, form column of files on each side of the caisson, the leading member of each column opposite the front wheels of the caisson. If riding, they will enter their conveyances at this time.

g. The casket will be moved to the entrance immediately behind the honorary pallbearers and casket bearers followed by the family group. As soon as the honorary pallbearers have taken their positions (*f* above), casket bearers will carry the casket to the caisson and form in column of twos behind it. The family group will remain at the chapel entrance until the honorary pallbearers have broken ranks to enter their conveyances or have taken their positions at the caisson. The family group will then be conducted to their conveyances.

h. The funeral escort and band will follow the procedure prescribed in *c* above when the casket appears at the entrance of the chapel at the conclusion of the service. The band will cease playing when the casket has been secured to the caisson.

i. The procession is then formed in the following order:

- (1) Band.
- (2) Escort, including colors, firing party, and bugler.
- (3) Clergy.
- (4) Caisson and honorary pallbearers, if walking.

- (5) Casket bearers.
- (6) Caparisoned horse, if the deceased was mounted.
- (7) Honorary pallbearers, if riding in cars.
- (8) Family.
- (9) Patriotic or fraternal organizations.
- (10) Friends.

j. When the procession has been formed, the band and the escort are put in march by the commander of the escort. Elements in rear conform. The procession marches slowly to solemn music.

k. As the procession approaches the grave, marching elements march directly to positions previously determined. The band and military escort will be formed in line, facing the grave; other marching elements being placed as near as practicable to the grave. The firing party will be so placed that it will not fire directly over the mourners.

l. As soon as the caisson is halted, honorary pallbearers will be formed in two ranks, each facing the other, extending from the caisson toward the grave, with sufficient distance between ranks to permit passage of the casket. The casket bearers will remove the casket from the caisson, bear it between the lines of honorary pallbearers to the grave, and place the casket on the lowering device. They will remain in place facing the casket. They will raise the flag from the casket and hold it in a horizontal position, waist high, until the conclusion of *Taps*. The flag is then folded as prescribed in Army Regulations, care being taken that it does not touch the ground. It is then handed to the superintendent of the cemetery or his representative for disposition in accordance with Army Regulations. As soon as the casket, preceded by the chaplain and cemetery representative (or funeral director), has passed between the honorary pallbearers, they will face toward the grave and follow the casket in column of twos, followed by the family and friends. Upon arrival at the grave they will be formed in line in an appropriate position, facing the grave. When the grave is too near the road to permit the above formation, they will be directed to take their position at the grave prior to removal of the casket from the caisson. Upon the removal of the casket from the caisson, they will remain covered but will uncover and remain uncovered until the conclusion of *Taps*. In cold or inclement weather, they will render the hand salute while the

casket is being borne between their ranks and will again salute during the firing of musketry and the sounding of *Taps*.

m. As the casket bearers remove the casket from the caisson, the commander of the escort commands: 1. PRESENT, 2. ARMS. At the command ARMS, the band plays an appropriate air. When the casket has been placed over the grave the escort is brought to the order and the band ceases playing. The commander of the escort then commands: 1. PARADE, 2. REST. The escort executes PARADE REST with officers and men inclining their heads.

n. When the escort has been brought to PARADE REST, the chaplain conducts the graveside service. At the conclusion of the benediction, he will move two steps to the side or rear.

o. When the service has been completed, the commander causes the escort to resume attention. He then commands: 1. ESCORT, LESS FIRING PARTY, 2. PRESENT, 3. ARMS, 4. FIRING PARTY, 5. FIRE THREE VOLLEYS. The firing party then fires three volleys of blank cartridges, assumes the position of READY, and remains in this position until the conclusion of *Taps*. At the command ARMS the bugler takes position at the head of the grave and sounds *Taps* immediately following the last volley.

p. At the conclusion of *Taps*, rifles of the firing party will be locked. The entire escort is then brought to the order. The band and escort are put in march in quick time by the commander of the escort. Other elements conform. The band will not play during the march from the grave. At the first halt, the rifles of the firing party are unloaded and inspected.

q. When the distance to the place of interment is considerable, the escort, after leaving the chapel, may march at ease in quick time until brought to attention in the vicinity of the grave. The band does not play while the escort is marching at ease. The field music may alternate with the band in playing.

■ 245. WITHOUT CHAPEL SERVICE BUT WITH PROCESSION AND GRAVESIDE SERVICE.—*a.* When the escort for a military funeral forms at or near the entrance to the cemetery, the officer in charge will supervise the transfer of the casket from the hearse to the caisson.

b. If honorary pallbearers are present, they will be formed in single line facing the caisson, the leading honorary pall-

bearers opposite the front wheel and on the side opposite to that on which the hearse is to be halted. If more than twelve are present they will form in double rank.

c. While the casket is being transferred from the hearse to the caisson, the escort is brought to PRESENT ARMS and the band plays an appropriate air. The honorary pallbearers uncover or salute as outlined in paragraph 244 *d*. During the transfer of the casket, the family and friends remain in their conveyances.

d. The funeral procession is then formed and proceeds as prescribed in paragraph 244 *j* to *q*, inclusive.

■ 246. GRAVESIDE SERVICE.—*a*. For this type of funeral all elements of a full military funeral, except the caisson and caparisoned horse, may be present and used as outlined in paragraph 244 *l* to *q*, inclusive. If, however, troops are not conveniently available or the family desires to eliminate other elements, the following will suffice:

- (1) Clergy.
- (2) Casket bearers.
- (3) Firing party.
- (4) Bugler.

b. All military elements participating in a graveside service will be in position prior to the arrival of the remains.

■ 247. CREMATED REMAINS.—*a*. (1) In cases where the remains are cremated and the ashes interred with military honors, the provisions of paragraphs 244, 245, and 246 with necessary modifications will govern.

(2) For all phases of the funeral where the cremated remains are carried by hand, one enlisted man will be detailed to carry the receptacle containing the ashes. Four enlisted men will also be detailed as flag bearers. When the receptacle containing the ashes is carried from the conveyance into the chapel, from the chapel to the conveyance or conveyance to the grave, the flag bearers will follow the receptacle, the flag being folded as prescribed in paragraph 2 *g*, AR 260-10, and carried by the leading flag bearer on the right.

(3) When the receptacle has been placed on the stand before the chancel of the chapel or when placed in the conveyance, the flag will be folded and placed beside the receptacle. If the caisson is equipped with a casket container for the receptacle, the open flag will be laid upon the con-

tainer as prescribed for a casket, otherwise the flag will be carried, folded as prescribed, by the active flag bearers.

(4) When no hearse or caisson is used, suitable transportation will be provided for the receptacle bearer and the flag bearers.

b. In cases where the remains are conducted to a crematory and the ashes are to be interred with military honors at a later time, the ceremony will consist only of the escort to the crematory. Arms will be presented as the remains are borne into the crematory. The firing of volleys and sounding of *Taps* are omitted. In case the funeral ceremony is held at the crematory and no further military honors are anticipated, the volleys may be fired and *Taps* sounded at the discretion of the commanding officer and dependent upon local conditions.

■ 248. CEREMONY PRIOR TO SHIPMENT OF REMAINS.—In cases where the remains of a deceased officer or soldier are moved to a railway station or other point for shipment to a distant place for interment or final disposition, funeral services, modified as necessary, may be carried out essentially as prescribed in paragraphs 244, 245, and 246. If no further military honors are anticipated at the place of interment or final disposition, the volleys of musketry may be fired and *Taps* sounded at the discretion of the commanding officer and dependent upon local conditions. If military honors are anticipated at the place of final disposition, the firing of volleys and sounding of *Taps* will be omitted.

■ 249. CANNON SALUTE.—a. When the funeral of an officer on the active or retired list who was entitled to a salute takes place at or near a military post, minute guns will be fired while the remains are being borne to the place of interment (or place of local disposition). The first gun will be fired immediately after the procession is put in motion.

b. Immediately after the remains have been lowered into the grave (upon completion of the benediction) a salute corresponding to the grade of the deceased (as prescribed in Army Regulations) will be fired, followed by three salvos of artillery, guns firing simultaneously, or three volleys of musketry.

■ 250. PARTICIPATION OF AVIATION.—When aviation participates in a military funeral, the participation will be so timed

that planes will appear over the procession while the remains are being borne to the grave.

■ 251. PARTICIPATION OF FRATERNAL OR PATRIOTIC ORGANIZATIONS.—*a.* At the request of the immediate family of the deceased, or its representative, fraternal or military organizations of which the deceased was a member may be permitted to take part in the funeral services.

b. If the ritual is military or semimilitary in nature, the rites will begin immediately upon the conclusion of the Army religious service. If the ritual contains the firing of three volleys of musketry and the sounding of *Taps*, the military firing party and bugler may be used. This sounding of *Taps* will conclude the funeral services.

c. Nonmilitary rituals by fraternal organizations will be held at the conclusion of *Taps*. The military escort will be marched away from the site of the grave promptly and quietly at the termination of the military ceremonies.

■ 252. DUTIES OF THE CHAPLAIN.—The chaplain will take position in front of the chapel prior to the arrival of the remains. He will precede the casket when it is borne into the chapel and again while the casket is borne from the chapel to the caisson or hearse. While the remains are being placed on the caisson or in the hearse, he will stand uncovered at the rear and to the side facing the caisson or hearse. When the casket has been secured, he will take his position in front of the caisson or hearse. In the event that the chaplain is wearing vestments, he may, at his discretion, proceed directly from the chancel to the sacristy at the conclusion of the service and devest, joining the procession just prior to its movement from the chapel. When the procession is formed at the entrance to the cemetery or other point and the chapel service is omitted, he will take a similar position near the caisson while the remains are being transferred from the hearse to the caisson. If riding, his conveyance will be placed in position in front of the caisson or hearse. In cold or inclement weather, the chaplain may remain covered except when reading such parts of the service as require that he be uncovered.

■ 253. PRELIMINARY ARRANGEMENTS.—The officer detailed in charge of a military funeral, accompanied by the commander of the escort and the superintendent of the cemetery or his

representative, will visit the places involved and make careful arrangements prior to the time set for the funeral. Positions at the grave to be occupied by various elements of the funeral, arrangements for traffic control, etc., will be definitely determined.

■ 254. FLORAL TRIBUTES.—*a.* In the absence of a funeral director, the officer in charge, assisted by the chaplain and such details as may be required, will cause all floral tributes to be properly arranged in the chapel and at the grave. He will call upon the commanding officer for necessary transportation for the prompt transfer of floral tributes from the chapel to the grave. The conveyance bearing floral tributes will be loaded promptly at the conclusion of the chapel service and will precede the funeral procession, moving as rapidly as practicable to the site of the grave. The funeral procession will not move from the chapel until the conveyance carrying floral tributes has cleared the escort.

b. The officer in charge will be responsible that cards are removed and a record made giving a brief description of the floral piece pertaining to each card. The cards and record will be turned over to a member of the family of the deceased after completion of the funeral services.

CHAPTER 10

EXTENDED ORDER

	Paragraphs
SECTION I. General.....	255-256
II. Rifle squad.....	257-263
III. Rifle platoon.....	264-278
IV. Company	279
V. Weapons squads, sections, and platoons..	284-282

SECTION I

GENERAL

■ 255. GENERAL RULES.—*a.* The dispositions and movements given in this chapter are to provide for the orderly deployment of small units for battle and for movement under battle-field conditions. They are not intended as disciplinary drills or drills of precision and for practice are executed AT EASE. They should be held upon ground affording concealment and cover. When such terrain is available or may be found

within reasonable proximity to the garrison, only such preliminary training is given on flat or bare drill grounds as is necessary to teach the mechanism of deployment and to illustrate the different dispositions and movements.

b. Straight lines are avoided except when halted behind linear cover. The dispositions and the distances and intervals given herein should be modified to meet the existing terrain, enemy fire, and space available. The usual distance or interval between individual men in extended order is five paces, which is generally indicated in the descriptions and figures which follow. These distances and intervals are variable and leaders, including squad leaders, will order distribution, distances, and intervals suited to the circumstances and to the terrain.

c. The commander prescribes the distribution of his unit and may initially prescribe the dispositions of subordinate units. Thereafter during the advance, the subordinate commanders may vary the dispositions in their units in order to make the best use of ground and cover.

d. Platoon, section, and squad leaders deploy, assemble, and maneuver their units as far as practicable by arm signals. Whistle signals are sparingly used. In general, use of the whistle is limited to occasions when it is impossible to attract attention by other means. The habitual use of the whistle as a preliminary to a command is prohibited. (For signals see ch. 11.)

e. A deployed unit advances, halts, moves to the flank or to the rear, passes from a walk to a run and the reverse on receiving the appropriate signals or commands. Changes in the direction of march are usually effected by the assignment of a new march direction to the base squad. Movements may be interrupted by the signal or command HALT or DOWN. On halting, a deployed line faces to the front (direction of the enemy). If halted by the command DOWN, the men take cover.

f. Deployment as skirmishers is made at a run. Other movements are made at a walk unless otherwise ordered.

■ 256. INDIVIDUAL INSTRUCTION.—The soldier is taught how to set the sight of his rifle, to fire, to lie down, to crawl, to make the best use of ground and cover, and the duties of a scout (ch. 9, BFM, vol. I) prior to or concurrently with the instruction in battlefield formations and movements.

a. To set the sight.—The unit or group being in any firing formation, the commands are: **RANGE, SIX HUNDRED** or **BATTLE SIGHT**. The sight is set as ordered.

b. To commence firing.—(1) Being in any firing formation, the command is: **COMMENCE FIRING**. Each man, independently, aims carefully and deliberately at the aiming point or target, fires, reloads, and continues firing until ordered to cease firing.

(2) To increase (decrease) the rate of fire in progress, the instructor commands or signals: **FASTER (SLOWER)**.

c. Instructions for use of the bayonet.—(1) The bayonet is fixed at any time when so ordered.

(2) If marching, kneeling, or prone, the bayonet is fixed and unfixed in the most expeditious and convenient manner and the rifle returned to the original position.

d. Being at a halt, or moving.—(1) To lie down, the command is: **DOWN**. All drop to the prone position flat on the belly.

(2) When men are moving, they carry their rifles at a high port or in other convenient manner.

SECTION II

RIFLE SQUAD

■ 257. **DISTANCES AND INTERVALS BETWEEN MEN WHEN DEPLOYED.**—Five paces between men is given in the description; however, this is variable. The squad leader may direct lesser or greater intervals and distances and individual skirmishers vary their position so as to take full advantage of cover or concealment. Close grouping in the open is avoided, but two or three men may group together to take advantage of some good cover or concealment.

■ 258. **DISPOSITIONS.**—Dispositions of the rifle squad are—

Squad column.

As skirmishers.

As skirmishers right (or left).

Squad wedge.

a. Squad column (fig. 68).—At the command given when the squad is disposed in any manner, its members form in an irregular column behind the squad leader. The disposition of individuals in the column will be adapted to the terrain and circumstances and may vary from a widely spaced and

FIGURE 68.—Squad column (distance between men, 5 paces; depth of squad column, 60 paces).

SQUAD LEADER

2D IN COMMAND

FIGURE 69.—Squad column (opened out slightly) used when advancing over open terrain (depth of column about 60 paces; width 5 to 20 paces).

FIGURE 70.—As skirmishers (interval between men, 5 paces; frontage of squad, 60 paces).

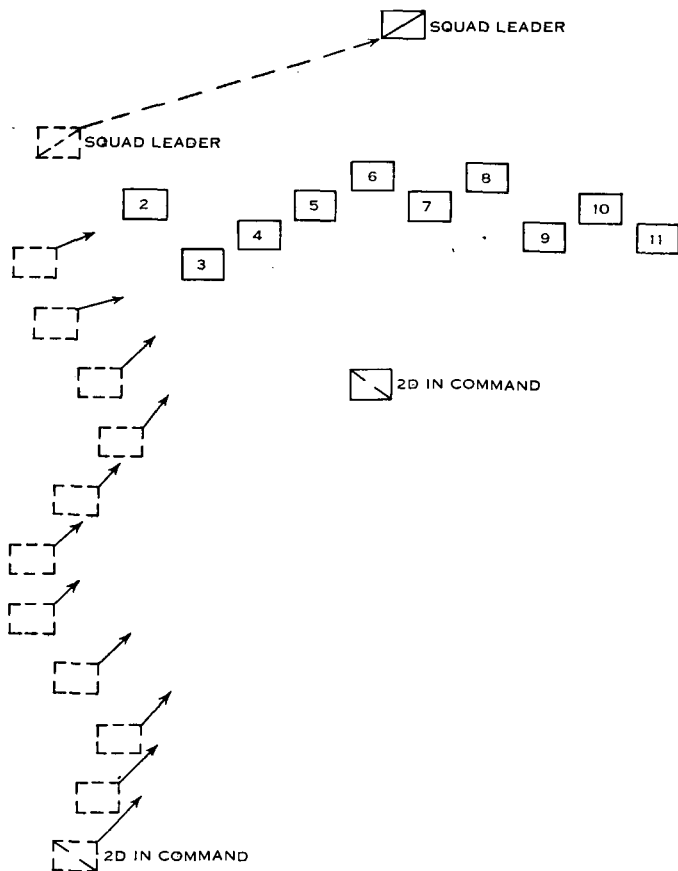

FIGURE 71.—As skirmishers right (or left) (interval between men, 5 paces; frontage of squad, 60 paces).

staggered column suitable for crossing very open country to a column of files closed up behind the leader.

b. As *skirmishers* (fig. 70).—At the signal or command, usually given from squad column but permissible from any disposition, the squad deploys in an irregular line as shown in figure 70. Even numbers go to the right, odd numbers to the left. The squad leader is in front of his squad when it

is advancing. When it halts to fire, he drops back behind the line to a position from which he can control his squad and observe to the front. If there is an automatic rifleman in the squad, he joins the squad leader and awaits orders for any special fire mission.

c. As skirmishers right (or left) (fig. 71).—At the signal or command, usually given from squad column but permissible from any disposition, the squad deploys to the right as shown in figure 71. The squad leader is in front of his squad when it is advancing. When it halts to fire he drops back behind the line to a point from which he can control his squad and observe to the front. If there is an automatic rifleman in the squad, he joins the squad leader and waits for orders for any special fire mission.

d. Squad wedge (fig. 72).—At the command, usually given from squad column but permissible from any disposition, the men dispose themselves in an irregular wedge behind the squad leader as shown in figure 72. If there is an automatic rifleman in the squad, he takes position in the center of the wedge unless otherwise directed.

FIGURE 72.—Squad wedge.

■ 259. **ADVANCE BY INDIVIDUALS.**—To advance by individuals the squad leader indicates the objective, the man or men who are to start the movement, and commands or signals: **FORWARD.** Each man chooses the time and method for his own advance so as to take advantage of existing cover and to avoid enemy fire. If the objective is not indicated, the leading men select the next cover or firing position. They do not advance so far as to lose contact with their squad leader. The squad leader follows after the first three or four men, directing their advance if necessary. The second in command insures that the others follow.

■ 260. **RUSHES.**—*a.* When it is desired to move the entire squad simultaneously from cover to cover, the leader commands: 1. **PREPARE TO RUSH,** 2. **FOLLOW ME.** At the command **FOLLOW ME,** all men spring forward following the example of the leader. If necessary for safety, the squad leader may first command: **CEASE FIRING.** The rush terminates when the squad has closed with the enemy or when the leader commands or signals down.

b. The rush may be executed by the entire squad as a unit as explained above, or by any fraction or individuals thereof. In the latter case the leader designates the part of the squad, or the individuals, who are to make the rush and the next position.

■ 261. **FOLLOW THE SQUAD LEADER.**—The leader places himself in front of his unit and commands: **FOLLOW ME.** The other members of the squad follow him retaining the approximate disposition of the unit at the time when the command was given.

■ 262. **TO ASSEMBLE THE SQUAD.**—At the signal or command **ASSEMBLE,** the squad assembles on the leader and in column with 40 inches distance between men.

■ 263. **SCOUTS.**—*a.* In each rifle squad, Nos. 2 and 3 are designated as scouts and receive special training (ch. 9, **BFM.** vol. I).

b. When advancing in the presence of the enemy, the squad (platoon or company) is preceded by its scouts who seek out the enemy and prevent surprise. Scouts precede the squad at such distance that it will not be subjected to surprise small arms fire.

c. To cause the scouts to precede their unit, the command is: **SCOUTS OUT**. The scouts move forward in front of their units and maintain contact with the unit from which sent out.

SECTION III

RIFLE PLATOON

■ 264. **DIRECTION OF DEPLOYMENT.**—The platoon is trained to deploy in any direction in silence and without confusion. The direction is indicated by the leader pointing or moving in the desired direction.

■ 265. **DIRECTION OF ADVANCE.**—The direction of advance may be indicated by the leader pointing or moving in that direction; by designating prominent terrain features such as building or lone tree; by magnetic azimuth; by indicating to the leader of the base unit the route to be followed; or by any combination of the above. Where an advance is to take place in an assigned direction for a considerable time, both a distant direction point and a magnetic azimuth should be designated.

■ 266. **THE BASE SQUAD.**—*a.* The center squad is the base squad, with the following exceptions:

(1) When in platoon column, the leading squad is the base squad.

(2) When deployed in squad columns or as skirmishers with one squad back, the right flank squad is the base squad unless otherwise indicated.

b. The other squads of the platoon maintain direction and relative position by regulating on the base squad.

■ 267. **DISPOSITIONS.**—*a.* The platoon may use any of the following dispositions:

(1) Column of threes.

(2) Column of twos (par. 146).

(3) Platoon column (fig. 73).

(4) Line of squads (fig. 73).

(5) One squad forward, two squads back (fig. 73).

(6) Two squads forward, one squad back (fig. 73).

b. When the platoon is deployed, each squad may be in **SQUAD COLUMN, SQUAD WEDGE, OR AS SKIRMISHERS.**

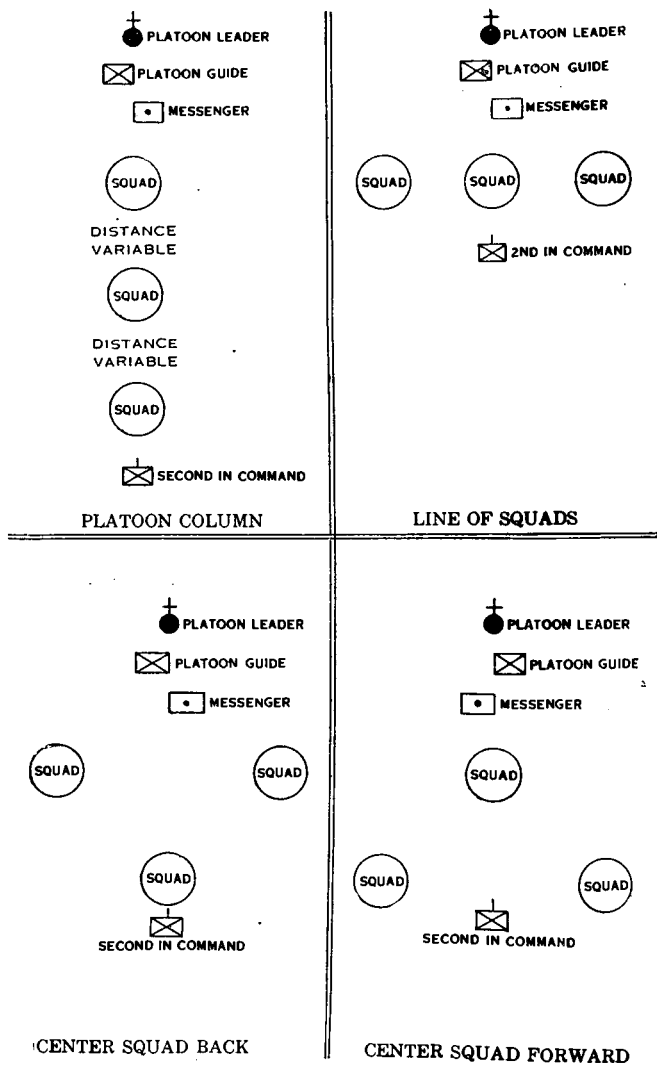

FIGURE 73.—Dispositions for the platoon.

■ 268. **FRONTAGE.**—The platoon deploys with sufficient intervals between squads to permit minor maneuvers of squads. Unless otherwise directed, squad columns or squads disposed as a wedge keep about 50 yards apart. When deployed as skirmishers, adjacent squads deploy with about 20 yards interval between squads unless otherwise directed.

■ 269. **POSTS OF PLATOON LEADER AND SECOND IN COMMAND.**—The platoon leader and the second in command are not restricted to fixed posts. When moving forward, the platoon leader usually precedes his unit, the second in command follows in rear and assists in control. During forward or flank movements, the platoon leader is on the side of the platoon toward the enemy. During movements to the rear, he is on the side away from the enemy. When the platoon is halted in a firing position, he is in rear of his platoon. When otherwise halted, he is in front of his platoon. The second in command takes positions from which he can best assist the platoon leader in controlling the platoon.

■ 270. **PLATOON COLUMN.**—At the signal or command, the center squad moves out in squad column, followed in order by the right and left squads, or in any other order indicated by the platoon leader.

■ 271. **TO DEPLOY INTO SQUAD COLUMNS.**—*a. With squad columns in line.*—The command is: **SQUAD COLUMNS.** The center or leading squad moves in squad column to the front or in the direction indicated by the platoon leader. The other two squads move in squad columns to positions approximately 50 paces to its right and left. Leaders of the flank squads guide on the base squad but make no effort to maintain exact alinement.

b. In squad columns with one squad forward.—At the command **SQUAD COLUMNS, CENTER (OR OTHER) SQUAD FORWARD,** the center (or designated) squad moves in squad column to the front or in the direction indicated by the platoon leader, the other two squads move in squad column to the right and left until about 50 paces apart and follow the leading squad at about 50 paces unless otherwise indicated. If the leading squad is halted by the platoon leader, the other two squads move to the rear if necessary to gain a distance of about 50 paces. The squads maintain their relative positions (fig. 73) with respect to the leading squad.

c. In squad columns with one squad back.—At the command SQUAD COLUMNS, CENTER (OR OTHER) SQUAD BACK, the other two squads move in squad column to the right and left so as to march with about 50 paces interval in the direction indicated by the platoon leader. The center (or designated) squad follows the leading squads in squad column at about 50 paces. If the leading squads are halted by the platoon leader, the rear squad moves to the rear if necessary to get a distance of about 50 paces behind the leading squads.

d. From column of threes, the center squad is usually designated as the forward or rear squad. In other dispositions, the squad most conveniently located is designated.

■ 272. To DEPLOY THE PLATOON AS SKIRMISHERS.—*a.* The command is: AS SKIRMISHERS. The squads move out as indicated for squad columns (par. 271 *a*) and deploy as skirmishers at the command of the squad leader as they reach their positions.

b. To deploy as skirmishers with one squad forward (or back) the command is: AS SKIRMISHERS, CENTER (OR OTHER) SQUAD FORWARD (OR BACK). The squads move out as indicated in paragraph 271 *b* or *c*, deploying as skirmishers as they reach their positions.

■ 273. To DEPLOY THE SQUADS AS SKIRMISHERS.—The platoon being in squad columns, the platoon leader may deploy the squads as skirmishers by commanding: AS SKIRMISHERS. At this signal or command the squads deploy, retaining their relative positions within the platoon.

■ 274. To ASSEMBLE THE PLATOON.—To assemble the platoon, the leader signals or commands: ASSEMBLE, and points to the place where the assembly is to be made. The platoon assembles in column of threes.

■ 275. To ADVANCE THE PLATOON.—*a.* The leader, assisted by the second in command, directs the advance of the platoon. To advance individual squads, the platoon leader signals FORWARD to the squad leaders concerned, leaving the method of advance to them, or he may go to the squad leaders concerned or assemble them and give them direct oral orders for their advance. He may send the order by his second in command or messenger.

b. To cause the entire platoon to rush, the leader commands: **FOLLOW ME** and springs forward leading the platoon to the new position.

■ 276. **ANTIAIRCRAFT DEPLOYMENT.**—*a.* Being in column of threes at the command, **PLANE(S) FRONT (RIGHT, LEFT, OR REAR)**, the right squad moves to the right at top speed. The leading and rear men of the right squad go about 10 paces and the center man about 50 paces. Other men of the right squad go to such distances that when halted the squad forms a rough semicircle. The left squad moves to the left in like manner. The men of the center squad take cover between the right and left squads, odd-numbered men to the left and even-numbered men to the right (fig. 74).

b. In deployments against air attack, men upon halting assume the antiaircraft firing position facing the approaching airplanes.

c. Being deployed to meet an air attack, if it is desired to continue the march without assembling on the road, squad columns are formed and the march continued off the road.

d. In a four-squad unit marching in column of fours, the same method is used. The two center squads deploy to the right and left.

e. In column of twos the same method is used, the right column deploying to the right and the left column deploying to the left.

■ 277. **POSTS OF THE GUIDE AND OF THE MESSENGER.**—The platoon guide and the messenger join the platoon leader on deployment.

■ 278. **USE OF SCOUTS.**—When contact is imminent the platoon leader sends out scouts from the leading squads. No more scout pairs than are necessary to cover the front of the platoon will be used.

SECTION IV

COMPANY

■ 279. **GENERAL.**—The company does not execute extended order movements by any special signals or commands. The platoons are usually disposed and maneuver as directed by the company commander. Such directions are usually given

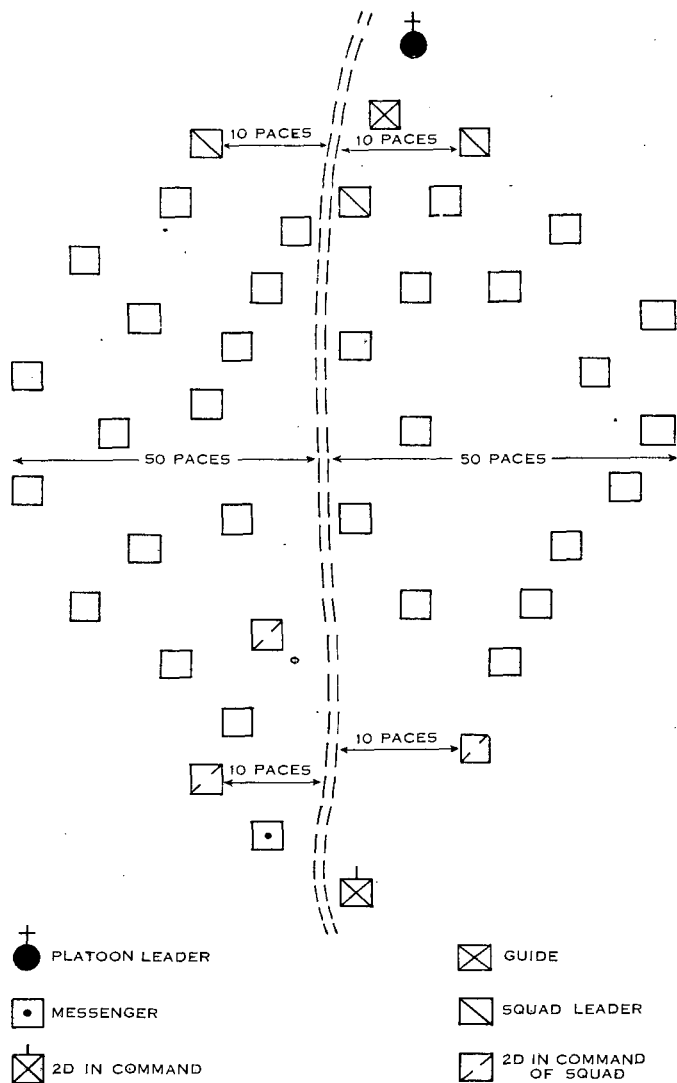

FIGURE 74.—Platoon antiaircraft deployment.

in the form of oral combat orders. Commands analogous to those prescribed for the platoon may be used when appropriate.

SECTION V

WEAPONS SQUADS, SECTIONS, AND PLATOONS

■ 280. SQUAD.—*a. General.*—Weapons squads represent teams serving a single weapon (machine gun, mortar, or antitank gun). Therefore the deployment of weapons squads is limited to taking up a dispersed formation to prevent casualties when moving. When firing, the crew is at the weapon. Carriers bearing ammunition operate between the ammunition vehicle and the weapon. The usual deployment for weapons squads is therefore an irregular column. When desired, a formation similar to that of adjacent units may be prescribed. Specific instructions for the organization, duties, and equipment of crews are given in drills for the particular weapon. Movements prescribed in this section are executed while AT EASE, and at a walk unless otherwise directed.

b. Duties of a squad leader.—The squad is deployed and led by its leader. During movement, his usual position is at the head of his squad. It is his duty to watch his section leader for signals and to lead his squad in the assigned direction, controlling the movements of his men to insure the skillful use of ground and cover. When resuming the advance after a halt, he will make sure that all members of the squad have understood the order to move forward. In case of casualties, he will prescribe such redistribution of the loads of members of the squad as will insure the arrival at the next firing position of all equipment necessary for the immediate opening of fire.

c. Squad column with transportation.—At the command SQUAD COLUMN, the squad forms in a single file in rear of its transportation. The distance between men is five paces unless otherwise directed. This is varied to meet existing conditions.

d. Squad column without transportation.—(1) The squad leader directs: UNLOAD TRUCK (OFF CARTS or OFF PACKS). Each man takes the equipment as prescribed in the drill for the weapon and forms in numerical order in single file on the right of the vehicle unless otherwise directed.

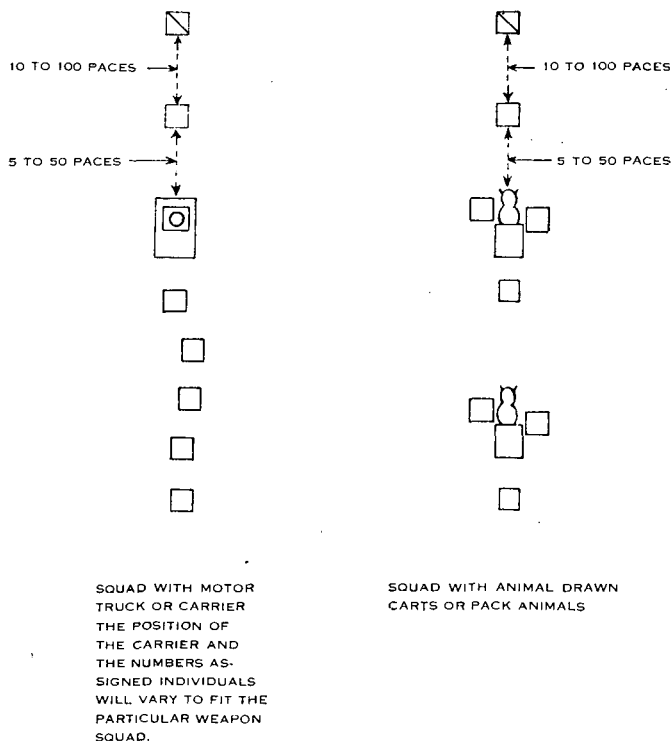

FIGURE 75.—Weapons squad with transportation in squad column.

(2) When equipment is removed, the squad leader directs: **SQUAD COLUMN**. The men form in an irregular column behind the squad leader.

(3) The driver of the vehicle (or mule leader) remains with his vehicle (or mule) and places it under any available cover or concealment.

e. To maneuver the squad.—(1) The squad leader commands: **FOLLOW ME**. The squad follows its leader in squad column.

(2) If the weapon has been taken from the truck (or carts), the driver of the vehicle (or mule leader) places the transportation under cover.

f. To halt the squad.—At the signal or command **HALT**, all men seek the nearest cover. The transportation takes advantage of any convenient concealment or cover. All watch the squad leader for further orders or signals.

g. To load transportation.—The squad leader calls or sends for the transportation, halting it under cover (if available) near the squad. At the command **LOAD TRUCKS (ON CARTS OR ON PACKS)** the squad assembles at the transportation, loads its equipment and forms squad column as shown in figure 74.

■ 281. **SECTION.**—*a. Duties of section leader.*—The section is deployed and led by its leader. During movement he occupies no fixed position, but, generally, he will be in advance of his unit. When leading his section, he selects routes of advance and reconnoiters for gun positions and targets. When the section is halted in a firing position, he places himself where he can best control its fire, usually in rear of and between his weapons. When otherwise halted, he is usually in front of his section. He keeps in touch with the platoon leader at all times.

b. Dispositions.—The section may be disposed in line of squad columns or in section column as shown in figure 76.

(1) The commands for these dispositions are: **LINE OF SQUAD COLUMNS 50 (or other) PACES**, or **SECTION COLUMN 20 (or other) PACES**. Each squad leader leads his squad so as to take the disposition directed (fig. 75).

(2) To maneuver without transportation, the section leader first gives the necessary commands to unload transportation, and after it is unloaded gives the command for the disposition desired. The transportation takes cover or moves as directed.

c. To assemble.—To assemble the section, the section leader takes post at or designates the point at which the section is to assemble and commands or signals: **ASSEMBLE**. Each squad leader assembles his squad, moves it to the point of assembly, and forms as directed.

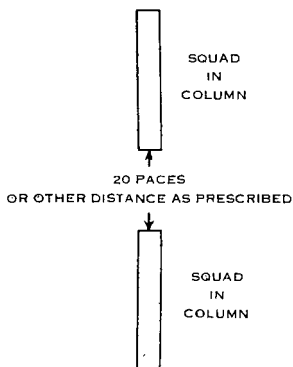

■ 282. **PLATOON.**—*a. Duties of platoon leader.*—The platoon leader does not remain in a fixed position with respect to his unit, but goes wherever his presence is required. During movement, he is generally on the side toward the enemy. When the platoon is in action, he occupies a position from which he can observe the effect of fire and from which he

☒ SECTION LEADER

LINE OF SQUADS

☒ SECTION LEADER

SECTION COLUMN

FIGURE 76.—Dispositions for the weapons section.

can control his sections. The platoon leader deploys the platoon and directs the advance of and assigns firing positions to his sections.

b. Duties of platoon sergeant.—The platoon sergeant is the second in command. He commands the platoon when the leader goes ahead on reconnaissance. When the platoon commander is within such distance of his unit as to be able to control its advance, the platoon sergeant follows in rear of the platoon during movement and insures its orderly advance.

c. Duties of transport corporal.—The transport corporal marches (or rides) at the rear of the pack animals, carts, or vehicles of the platoon and insures their orderly advance. After OFF CARTS (OR OFF PACKS OR UNLOAD) has been executed, he takes charge of the carts or vehicles and disposes of them in accordance with orders from the platoon leader. In case orders are not issued, the transport corporal takes the transportation to the nearest available cover.

d. Duties of agent corporal.—When the platoon is deployed, the messengers are formed as a group under command of the corporal agent. The corporal agent conducts this group at the head of the platoon, unless otherwise directed, conforming to the disposition of its other elements.

e. Dispositions.—The platoon deploys in the same manner as the squad and section. The section may be disposed in platoon column, line of sections, or antiaircraft deployment. The dispositions, intervals, and distances will depend upon the requirements of the tactical situation, the nature of the ground, and the fire of the enemy. Each section leader disposes of his squad so as to make the maximum use of cover. The dispositions, intervals, and distances may be changed from time to time during the advance, both in the platoon and in the section. The antiaircraft disposition is generally similar to that given for the rifle platoon in paragraph 276. Carts or motor vehicles clear the road and stop under available cover.

f. Line of sections.—At the signal or command, LINE OF SECTIONS, the leading or right section moves straight to the front or in the ⁵¹⁶designated direction. The other section moves to the left and forward until the required interval has been gained and the section is on line with the base

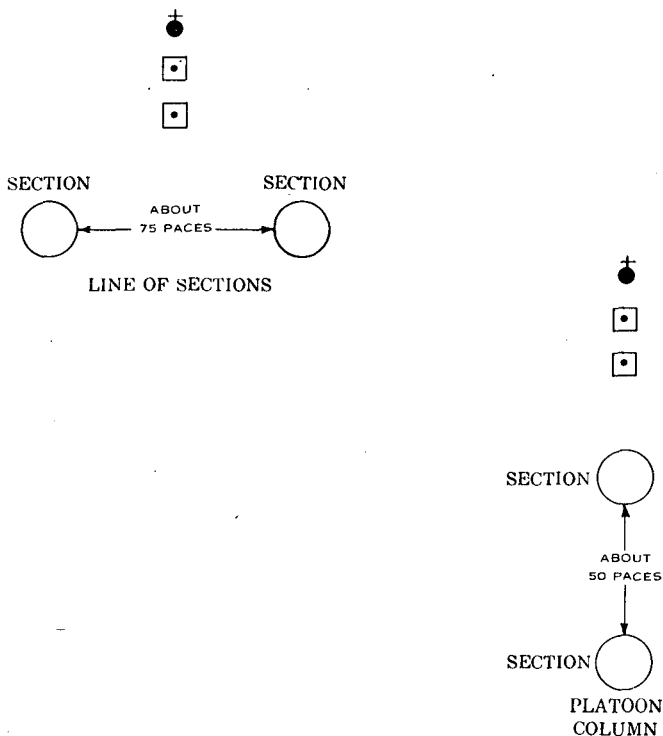

FIGURE 77.—Formations of the weapons platoon.

section. If no interval is announced, the platoon will deploy with 75 paces between sections.

g. Platoon column.—At the signal or command, **PLATOON COLUMN**, one section follows the other in column as indicated by the platoon leader.

h. Assembly.—To assemble the platoon from any disposition, the platoon leader takes post at or designates the point at which the platoon is to assemble and signals or commands: **ASSEMBLE**. At this signal or command, each section leader assembles his section and conducts it to the point of assembly. The platoon is then assembled in column of fours or as directed. The sections of a platoon can be assembled by the commands: 1. **BY SECTIONS**, 2. **ASSEMBLE**.

CHAPTER 11

SIGNALS

	Paragraphs
SECTION I. General-----	283-284
II. Whistle signals-----	285-288
III. General arm-and-hand signals-----	289-306
IV. Additional arm-and-hand signals for weapons units-----	307-315
V. Arm-and-hand signals for motor ve- hicles-----	316-318

SECTION I

GENERAL

■ 283. PURPOSE.—Signals are for the purpose of transmitting essential commands under conditions rendering verbal commands inadequate.

■ 284. KINDS.—Signals may be by whistle and by arm-and-hand as prescribed herein.

a. Subordinate commanders repeat signals or give appropriate orders to their units whenever necessary to insure prompt and correct execution.

b. For *immediate danger* use three long blasts of a whistle or automobile horn, repeated several times, or three equally spaced shots with the rifle or pistol. The man giving the signal points in the direction of the impending danger. *This signal is reserved for warning of air, mechanized attacks, or other immediate and grave danger.*

SECTION II

WHISTLE SIGNALS

■ 285. GENERAL.—Whistle signals will be made with the whistle prescribed for the leader or commander concerned and will be confined to ATTENTION TO ORDERS, CEASE FIRING, and AIR OR TANK WARNING.

■ 286. ATTENTION TO ORDERS.—Sound a short blast of the whistle. The signal is used to fix the attention of troops, or of their commanders and leaders, preparatory to giving commands, orders, or other signals.

■ 287. **CEASE FIRING.**—Sound a long blast of the whistle. This signal will be verified at once by an arm-and-hand signal or by other means.

■ 288. **AIR OR TANK WARNING.**—Three long blasts, repeated several times (see also par. 284 b).

SECTION III

GENERAL ARM-AND-HAND SIGNALS

■ 289. **GENERAL.**—If a movement is to be executed by a particular subordinate unit or units of a command, a signal designating the unit or units will be given before the signal for the movement.

■ 290. **FORWARD; TO THE RIGHT (LEFT); TO THE REAR.**—Face and move in the desired direction of march; at the same time extend the hand vertically to the full extent of the arm, palm to the front, and lower the arm and hand in the direction of movement until horizontal (fig. 78).

■ 291. **HALT.**—Carry the hand to the shoulder, palm to front; then thrust the hand upward vertically to the full extent of the arm and hold it in that position until the signal is understood (fig. 78).

■ 292. **DOWN; OR, TAKE COVER.**—Turn toward the unit or group and raise the hand, palm down, in front of the elbow, forearm horizontal; thrust the hand downward and back to this position (fig. 78).

■ 293. **DOUBLE TIME; OR, RUSH.**—Carry the hand to the shoulder, fist closed; rapidly thrust the fist upward vertically to the full extent of the arm and back to the shoulder several times (fig. 78). This signal is also used to increase gait or speed.

■ 294. **QUICK TIME (WALK).**—Raise the elbow to a position above and to the right (left) of the shoulder and extend the forearm to the left (right), hand above the head, palm to the front (fig. 78). This signal is also used to decrease gait or speed.

■ 295. **CHANGE DIRECTION.**—Carry the hand that is on the side toward the new direction across the body to the opposite shoulder and, with the palm down and the forearm hori-

zontal, swing the forearm in a horizontal plane, extending the arm and hand to point in the new direction (fig. 78).

■ 296. ENEMY IN SIGHT.—Hold the rifle horizontally above the head with the arm or arms extended as if guarding the head.

■ 297. AS SKIRMISHERS.—Raise both arms laterally until horizontal, arms and hands extended, palms down (fig. 78). If it is necessary to indicate direction of march, signal FORWARD, moving at the same time in the desired direction.

■ 298. AS SKIRMISHERS, RIGHT (LEFT).—Raise both arms laterally until horizontal, arms and hands extended, palms down; swing the arm and hand on the side toward which the deployment is to be made, upward until vertical and back immediately to the horizontal position; repeat swinging movement several times; hold the other arm and hand steadily in the horizontal position until the signal is completed.

■ 299. ASSEMBLE.—Raise the hand vertically to the full extent of the arm, fingers extended and joined, and describe large horizontal circles with the arm and hand (fig. 78).

■ 300. ARE YOU READY?—Extend the arm toward the leader for whom the signal is intended, hand raised, fingers extended and joined, palm toward the leader (fig. 78).

■ 301. I AM READY.—Execute the signal ARE YOU READY (fig. 78).

■ 302. COMMENCE FIRING.—Extend the arm and hand horizontally in front of the body to their full extent, palm of the hand down; move them several times through a wide horizontal arc (fig. 78).

■ 303. FIRE FASTER.—Execute rapidly the signal COMMENCE FIRING. For machine guns, a change to the next higher rate of fire is required.

■ 304. FIRE SLOWER.—Execute slowly the signal COMMENCE FIRING. For machine guns, a change to the next lower rate of fire is required.

■ 305. CEASE FIRING.—Raise the forearm in front of the forehead, palm to the front, and swing it up and down several times in front of the face (fig. 78).

■ 306. FIX BAYONETS.—Simulate the movement of the right hand in fixing a bayonet on rifle (fig. 78).

FIGURE 79.—Additional arm-and-hand signals for weapons units.

SECTION IV

ADDITIONAL ARM-AND-HAND SIGNALS FOR WEAPONS
UNITS

■ 307. ACTION AND OUT OF ACTION.—*a. Action.*—Thrust the fist several times in the direction toward which it is desired to go into action.

b. Out of action.—Strike the closed fist of one hand rapidly against the open palm of the other several times (fig. 79).

■ 308. ELEVATE; DEPRESS.—Extend one arm toward the gunner(s) concerned; move the hand in short upward (downward) movements by flexing the hand at the wrist; with the palm of the hand toward the gunner(s), expose one finger for each mil the gun is to be elevated (depressed) (fig. 79).

■ 309. SHIFT RIGHT (LEFT).—Extend one arm toward the gunner(s) concerned; swing the hand and arm horizontally in the direction in which the fire is to be shifted, palm turned in that direction; with the palm of the hand toward the gunner(s), expose one finger for each mil the fire is to be shifted.

■ 310. OFF CARTS.—Face the unit for which the signal is intended; raise the elbow laterally the height of the shoulder and touch the shoulder with the fingers (fig. 79).

■ 311. ON CARTS.—Face the unit for which the signal is intended, raise both elbows laterally to height of the shoulders and touch the shoulders with the fingers (fig. 79).

■ 312. FIRE ONE ROUND.—Extend one arm above the head toward the gunner for whom the signal is intended. Cut the hand sharply downward (fig. 79).

■ 313. FIRE FIVE ROUNDS.—Extend one arm above the head, hand open; flex the wrist, making a quick, choppy, lateral movement with the hand.

■ 314. RANGE; OR, CHANGE ELEVATION.—Extend the arm fully toward the leader or men for whom the signal is intended, with the fist closed. This is the signal for battle sight. Open the fist, exposing one finger for each 100 yards of range. Change elevation by indicating the complete new range.

■ 315. TRAVERSING FIRE.—Face the target, extend one arm fully to the front; move it upward and downward with a chopping motion, and at the same time swinging the arm to the right (left) in the direction it is desired to distribute the fire (fig. 79).

SECTION V

ARM-AND-HAND SIGNALS FOR MOTOR VEHICLES

■ 316. GENERAL.—Signals are transmitted by bugles, whistles, voice, and by arm movements. Because of the great extension of convoys in movement, sound signals are of no value except at halts. The bugle may be used in rear areas for such signals as: ATTENTION; ASSEMBLE; and FORWARD. Whistle and voice may be used at halts to attract attention. There is a complete set of arm-and-hand signals for use in convoy control which may be transmitted both at a halt and in movement. All operating personnel, whether drivers or not, must be thoroughly trained in the use of these signals and impressed with the necessity for the prompt and rapid transmission of signals from one end of the column to the other. In movement, signals are given by the assistant driver who makes certain that the assistant driver ahead or in rear receives the signal and promptly passes it on.

■ 317. STANDARD SIGNALS.—Standard signals for convoy operation are given below. They should be preceded by the whistle signal ATTENTION TO ORDERS (short blast) when necessary to fix the driver's attention at a halt.

a. Attention.—Hand moved above head rapidly from side to side.

b. Start engines.—Simulate cranking.

c. Ready to start.—Senior in truck stands on running board, faces leader, and gives the arm signal I AM READY.

d. Forward march.—Face and move in the desired direction of march, at the same time extend the hand vertically to the full extent of the arm, palm to the front, and lower the arm in the direction of movement until it is horizontal. In starting a convoy, this signal is a warning signal. Immediately after giving the signal, the convoy commander or serial or section leader mounts and directs the driver of his vehicle to start.

e. Drivers to turn around simultaneously.—Extend both arms horizontally toward the drivers and describe small vertical circles, then signal forward in the desired new direction. When the distance between vehicles permits and the convoy is long, this signal may be given by a motorcycle messenger passing back along the column.

f. Mount.—Extend the arm horizontally to the side, palm up, and wave the arm upward several times.

g. Dismount.—Extend the arm diagonally upward to the side, palm down, and wave the arm downward several times.

h. Stop engines.—Cross arms in front of body at the waist and then move them sharply to the side. Repeat several times.

i. Assemble.—Raise the hand vertically to the full extent of the arm, fingers extended and joined, and describe horizontal circle with the arm and hand.

j. Close up.—Extend the arms horizontally, straight to the front, palms in. Move the hands together and then resume first position. Repeat several times.

k. Increase speed.—Carry the hand to the shoulder, fist closed; rapidly thrust the fist upward vertically to the full extent of the arm and back to the shoulder several times.

■ 318. DRIVER SIGNALS.—*a. Slow or stop.*—Extend the left arm outward to an angle of 45° below the horizontal.

b. Turn right.—Extend the left arm outward at an angle of 45° above the horizontal.

c. Turn left.—Extend the left arm outward horizontally.

d. Pass and keep going.—Extend the left hand horizontally and describe small circles toward the front with the hand.

APPENDIX

CEREMONIAL PARADE

(Special)

	Paragraph
General-----	1
Battalion parade-----	2
Regimental parade-----	3

■ 1. GENERAL.—The special parade ceremonies described herein are for use at the option of local commanders in lieu of the regular ceremony prescribed in chapter 9. Training in these special ceremonies is not mandatory.

■ 2. BATTALION PARADE.—a. At *Adjutant's Call* the troops without transportation are formed in line with companies in line or in line with companies in mass (or extended mass) formation as for a review but not presented. The battalion commander takes post at a convenient distance in front of the center of, and facing the troops.

b. The adjutant takes post between the battalion commander and the center of the troops and commands: 1. PARADE, 2. REST. After the troops have executed PARADE REST, he commands: SOUND OFF. The adjutant and the battalion commander and his staff stand at attention during the *Sound Off* and march by the band.

c. The band, in place, plays the *Sound Off* of three chords, and at the conclusion of the third chord moves forward, playing a march in quick time. It executes COLUMN LEFT so as to march across the front of the troops midway between the adjutant and the line troops. When the band has passed the left of the line, it countermarches and returns over the same ground to the right of the line. After it passes beyond the right of the troops, it executes COLUMN RIGHT. When the entire band has passed beyond the front rank of the troops, it again countermarches and halts in its original position. When the band ceases playing the march, the *Sound Off* is again played. At evening parade, *Retreat* is then sounded by the field music. Following the last note and while the flag is being lowered, the band plays the *National Anthem*. The evening cannon salute is fired on the last note of *Retreat*.

INFANTRY DRILL REGULATIONS

d. Immediately after the last note of *Retreat*, the adjutant commands: 1. BATTALION, 2. ATTENTION, 3. PRESENT, 4. ARMS. The adjutant facing the troops then salutes. The troops remain at PRESENT ARMS during the playing of the *National Anthem*. The adjutant then turns about facing the battalion commander, salutes, and reports, "Sir, the parade is formed." The battalion commander directs the adjutant, "Take your post, Sir," and draws saber. The adjutant passes by the battalion commander's right and takes post one and one-half paces to the rear and one pace to the right of the battalion commander.

e. The battalion commander then commands: 1. ORDER, 2. ARMS, and gives such movements in the manual of arms as he may desire. Officers, noncommissioned officers commanding platoons, the color guard, and guidon bearers having once executed the ORDER, remain in that position during the movements of the manual.

f. The battalion commander then directs the adjutant, "Receive the reports, Sir." The adjutant, passing by the battalion commander's right, advances toward the center of the battalion, halts midway between it and the battalion commander, and commands: REPORT.

(1) At the command REPORT, the company commanders in succession from the right salute and report, "A (or other) company, present or accounted for"; or, "A (or other) company, (so many) officers or men absent." The adjutant returns each company commander's salute after the report is made and understood. He returns to the CARRY after acknowledging each salute.

(2) The reports received, the adjutant turns about, salutes, and reports, "Sir, all present or accounted for"; or "Sir, (so many) officers or men absent", including among the absentees those from the band and field music reported to him by the band leader prior to the parade.

g. The battalion commander then directs, "Publish the orders, Sir." The adjutant turns about and commands: ATTENTION TO ORDERS. He publishes the orders and then commands: 1. OFFICERS, 2. CENTER, 3. MARCH. After giving the command MARCH, the adjutant turns about and takes his post with the battalion commander.

h. At the command OFFICERS, all company officers execute CARRY SABER, guidon bearers execute CARRY GUIDON. When

INFANTRY DRILL REGULATIONS

companies are in line, at the command **CENTER**, all company commanders, officers commanding platoons, and guidon bearers face to the center. When companies are in mass formation, at the command **CENTER**, all company commanders and guidon bearers face to the center. Officers commanding platoons step one pace forward and face to the center. Officers second in command move around the flank nearest to the center and take post in the column formed by the platoon leaders. At the command **MARCH**, the band plays, officers and guidon bearers close to the center, halt, and individually face to the front; company commanders when moving to the center, oblique to the front and close on a line four paces in advance of the line of guidon bearers; guidon bearers close on their own line, each taking post in rear of his own company commander; all other officers close on the line of platoon leaders.

i. The officers and guidon bearers having closed and faced to the front, the senior commands: 1. **FORWARD**, 2. **MARCH**. The officers and guidon bearers advance, the center officer of the leading rank being the guide, and march on the battalion commander. The officers and guidon bearers are halted by the senior with the leading rank six paces from the battalion commander. They halt and salute the battalion commander, who returns the salute. The battalion commander then commands: 1. **CARRY**, 2. **SABER**. At the first command, the guidon bearers grasp the lance with the left hand, executing the first position of **CARRY GUIDON**, and officers execute **ORDER SABER**. At the second command, the officers execute **CARRY SABER**, the guidon bearers completing the carry guidon. The battalion commander then gives such instructions as he deems necessary, and commands: 1. **OFFICERS**, 2. **POSTS**, 3. **MARCH**.

j. At the command **POSTS**, all officers and guidon bearers face about.

k. At the command **MARCH**, they step off with the guide as before, the center officer of the leading rank being the guide. The senior commands: 1. **OFFICERS**, 2. **HALT**, so as to halt the leading rank six paces from the line of companies when companies are in line and three paces when companies are in mass formation. He then commands: 1. **POSTS**, 2. **MARCH**.

INFANTRY DRILL REGULATIONS

l. At the command **POSTS**, officers and guidon bearers face outward, and at the command **MARCH**, officers step off in succession at four paces distance, resume their posts, and execute **ORDER SABER**; guidon bearers step off with their company commanders, resume their posts, and execute **ORDER GUIDON**. The music ceases to play when the last officer has resumed his post. During the execution of **OFFICERS**, **CENTER** and **OFFICERS**, **POSTS**, all officers and guidon bearers remain at **CARRY SABER** and **CARRY GUIDON** except when saluting the battalion commander:

m. The battalion commander then gives the commands for the battalion to pass in review and returns saber.

n. The battalion passes in review according to the commands and principles given for a review. When the last company has passed, the ceremony is concluded.

o. The band continues to play while the companies are in march upon the parade ground. After passing in review, companies are marched to their respective parades and dismissed.

■ **3. REGIMENTAL PARADE.**—The regiment is ordinarily formed in line of companies with companies in mass formation. The parade proceeds as for the battalion with the following exceptions:

a. "Regimental commander" is substituted for "battalion commander", and "regiment" for "battalion" in the description; and "battalions" for "battalion" in the commands.

b. In moving across the front of the regiment, the band passes midway between the adjutant and the line of battalion commanders.

c. The battalions execute **PRESENT ARMS**, **ORDER ARMS**, **PARADE REST**, and come to **ATTENTION** at the command of execution of their respective commanders, starting with the center (or right center) battalion and continuing simultaneously toward each flank. Reports are made by battalion instead of company commanders.

d. After making his report, the adjutant commands: **1. OFFICERS**, **2. CENTER**, **3. MARCH**. Battalion commanders and their staffs close on the line of battalion commanders, company commanders oblique to the front and close on a line four paces in their rear, guidon bearers oblique to the front

INFANTRY DRILL REGULATIONS

and close on a line four paces in rear of the company commanders, other officers oblique to the front and close on a line four paces in rear of the guidon bearers.

e. The officers and guidon bearers are returned to their posts and the regiment marches in review as in battalion parade.
